Syracuse Parks, Recreation & Youth Programs
c/o AQUATICS OFFICE
412 SPENCER STREET
SYRACUSE, NEW YORK 13204-1390

(* indicates back-up test, assignments will be made the first week in May)

The evaluation consists of a practical test covering the candidate's Lifeguard and CPR skills. The candidate must meet proficiency standards in each event to be eligible for hiring consideration. **Hiring priority is given to City Residents.**

CPR SKILLS: Each candidate should bring their own pocket mask or one-way valve. Some masks are available for use. Perform appropriate care on a victim who is unresponsive (situation cues from tester).

WATER SAFETY SKILLS:

200 Yard Swim: Eight (8) lengths of the pool. Front crawl or breaststroke only. Goggles may be worn.
Spinal Injury Management: Perform a spinal injury rescue on a simulated victim in shallow water.
Active Victim Rear Approach: Enter the pool and perform a rescue on an active victim in deep water, return to starting wall.
Submerged Victim Rescue: Using an in-water start at the shallow end, approach a victim, rescue and secure them on a rescue tube, return to the starting wall.

Optional water skills test for returning guards of 3 or more years includes; 200 yard swim and a 25 yard sprint on the rescue tube, 25 yard return swim, trailing the tube, to a submerged victim, rescue victim onto tube and secure at the closest wall. All candidates are tested on CPR skills.
