# **MAYOR ANNOUNCES SELECTION OF REVITALIZATION PROJECT**

*Waterfront Design Concept Selected at Kirk Park*

*Miner: Turning the Creek into an Asset for Our Community*

SYRACUSE, N.Y. – Mayor Stephanie A. Miner announced the City of Syracuse has selected the project concept for the Local Waterfront Revitalization Program (LWRP). A series of public meetings were conducted during the past eight months to solicit input on potential project sites and design ideas. The selected concept will be constructed in Kirk Park.

“This proposal offers exciting opportunities to enhance the great public space we have along Onondaga Creek,” said Mayor Stephanie A. Miner. “This is a big step in the right direction for turning the Creek into an asset for our neighborhoods and acknowledging Syracuse as a waterfront community.”

The program goals are to provide public access opportunities along Onondaga Creek, strengthen connections with adjacent City neighborhoods, and improve environmental quality. After extensive public input, the City selected the “Outdoor Classroom” concept at Kirk Park.

The City intends to construct the Outdoor Classroom in Kirk Park this year. The project, estimated at \$225,000, will receive full funding for the design and construction through the New York State Department of State Local Waterfront Revitalization Program. Funding for the construction of a second project will be sought next year.

Conceptual images of the Outdoor Classroom in multiple formats can be found at the following:
