EXECUTIVE SUMMARY

ES-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

Introduction
The Syracuse Department of Neighborhood & Business Development submits the Syracuse Consolidated Plan, 2015-19, as required by the United States Department of Housing and Urban Development (HUD). The Consolidated Plan serves as a planning document, a strategy, and a management process that links the strategy for carrying out the plan to the actual performance goals within the plan.

This plan marks the first that will be submitted electronically to HUD exclusively through their Integrated Disbursement & Information System (IDIS), for which the format of this Consolidated Plan mirrors. This Plan outlines how the City will address the community's housing and community development needs, goals, and objectives as determined by the City and its citizens.

Summary of the objectives and outcomes identified in the Plan Needs Assessment Overview
The Consolidated Plan is the culmination of a year-long process to assess the housing and community development needs of Syracuse. The results of this effort are articulated within five main components of this document:

1) Description of the Process  
2) Needs Assessment  
3) Market Analysis  
4) Strategic Plan  
5) First Year Action Plan

Through a combination of community outreach efforts and data provided by the Department of Housing and Urban Development (HUD) and other sources, the Department of Neighborhood and Business Development staff sought to better understand the affordable housing and community development needs of low-income families and neighborhoods. More immediate needs include addressing the growing affordable housing needs of renters, reducing blight, and providing assistance to provide vital home repairs of owner occupants. And while the immediate needs of the community are addressed, the plan also addresses the need to build the long-term wealth within high-poverty neighborhoods and provide housing opportunity. Therefore, the City plans to prioritize its federal block grant investments toward the following goals:

- Priority Goal: Increase Household Wealth
  - Promoting and retaining homeownership, the major source of wealth for most households, through programming such as down payment assistance, homebuyer counseling, and foreclosure prevention.
  - Home improvement grants and loans to retain current low-income homeowners.
  - Addressing blighting influences through place-based revitalization, including substantial renovation and strategic demolition activities. These activities support the economic stability of surrounding homeowners by protecting, and eventually increasing, home values and attracting private investment.
Provide pathways out of poverty by supporting youth development services, job readiness training, and small business capacity building.

- **Priority Goal: Eliminate Housing Barriers**
  - Development of affordable rental housing by leveraging HOME funds with other resources such as Low Income Housing Tax Credit funding to renovate and/or newly construct quality rental housing.
  - Assist the housing vulnerable and homeless to be able to access affordable housing opportunities through relocation of individuals and households living in substandard housing, promoting the development of more accessible housing units, and rapidly rehousing those who become homeless.
  - Promoting fair housing opportunities.

- **Secondary Goal: Engage and Support Seniors**
  - Providing home improvements to allow seniors to age in place or relocation services from substandard and unfit housing when the cost of repairs exceeds their abilities.
  - Ensuring day programming, including meals, at City-owned community centers.

- **Secondary Goal: Create Healthy and Sustainable Homes**
  - Reducing home health maladies, including lead-based paint hazards, mold, radon and trip hazards.
  - Incorporating green technologies in both newly constructed and rehabilitated housing efforts.
  - Deconstruction and “soft skimming” techniques to preserve and reuse architectural amenities and deferring additional refuse from area landfills.

**Evaluation of past performance**

Each year, the City releases the Consolidated Annual Performance Evaluation Report (CAPER) which specifies yearly expenditures and the accomplishments achieved through each of the funded activities. While there are many ways in which to evaluate past performance, the City consistently demonstrates that more than 90% of funding directly benefits low to moderate income households in Syracuse. The CAPER for Year 39 (2013-14) funded activities can be found on the Department’s website.

Utilization of previously funded program activities has informed the development of this Consolidated Plan in fundamental ways. Existing and prospective low-income homeowners continue to struggle with accessing affordable financing for necessary home repairs. The demand for deferred loan and grant programs to perform emergent repairs remains strong as evidenced by the number of cases completed over the past five years. Additionally, evidence points to improved neighborhood conditions where strategic blight removal activities have been undertaken, and with the advent of the Syracuse Land Bank, similar activities will play a prominent role in continued neighborhood revitalization.
Summary of citizen participation and consultation process
The predominant part of the citizen participation effort spanned from April to October 2014 in the form of public meetings, surveys and one-on-one meetings with community groups and neighborhood stakeholders, homeless and housing vulnerable service providers, nonprofit housing partners, investor owners, city staff and leadership and many others.

Following the release of the draft Five-Year Strategic Plan, members of the public are invited to share their comments with the Commissioner of Neighborhood & Business Development independently and in a public meeting setting. These comments are taken into consideration as the final plan is developed. In addition, the City holds a public hearing, which allows the public to directly address the members of the Common Council and share their thoughts and concerns regarding the draft plan.

Summary of comments or views not accepted and the reasons for not accepting them
All comments and views were accepted and considered when revising and finalizing the Syracuse Consolidated Plan (2105-19).
THE PROCESS

PR-05 Lead & Responsible Agencies 24 CFR 91.200(b)

The Syracuse Department of Neighborhood and Business Development (NBD) is the lead agency responsible for the administration of the Community Development Block Grant (CDBG), HOME, and the Emergency Solutions Grant (ESG) programs. Syracuse first received Housing Opportunities for Persons with AIDS (HOPWA) funds in 2013 and continues to elect to have the funds administered by New York State Office of Temporary Disability Assistance (NYS OTDA).

- Paul Driscoll, Commissioner: (315) 448-8100 | pdriscoll@syrgov.net
- Stephanie Pasquale, Deputy Commissioner: (315) 448-8448 | spasquale@syrgov.net
- Eric Ennis - CDBG Program Administrator: (315) 448-8747 | eennis@syrgov.net
- Susan McMahon - ESG and HOPWA Program Administrator: (315) 448-8173 | smcmahon@syrgov.net
- Dian Sherwood - HOME Program Coordinator: (315) 448-8106 | dsherwood@syrgov.net

Table 1 - Responsible Agencies
**PR-10 Consultation - 91.100, 91.215**

**Introduction**
The Department of Neighborhood and Business Development recognizes that partnerships with public and private entities are vital to the provision of effective services to the community. Each strategy prioritized by the City is only accomplished through effective collaborations with community partners. These partners provide the expertise needed to ensure quality service provision, housing development and neighborhood revitalization efforts. While the City recognizes and honors long standing relationships with community experts, it welcomes and encourages new partners with innovative approaches to address the communities pressing issues.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I)).

New York State policies mandate the discharge of clients and patients for the foster care system, correctional facilities and hospitals. These mandates have been incorporated in the Syracuse Five Year Consolidated Plan (2015-2019) and drives local decision making to ensure individuals are not discharged into homelessness.

The local Discharge Planning Committee (DPC) actively collaborates with institutional care providers and monitors discharge outcomes. A variety of initiatives have been developed to assist in preventing homelessness wherever possible. Specifically, “in-reach coordination” in which Intensive Case Managers visit area inpatient mental health and chemical dependence units on a weekly basis to discuss housing options and assist with the discharge planning process prior to discharge.

The DPC also partners with NYS Department of Corrections and Community Supervision (DOCCS) and have created a re-entry task force to collaborate on addressing barriers to parolees accessing housing. Additionally, Onondaga County and New York State allocate funding for fifty case managers to assist youth transitioning out of the foster care system.

Collaboration and partnership between the City and the local Homeless and Housing Vulnerable Taskforce (HHVTF), created in 1986 as a standing committee of the Common Council, is a key component in determining specifically how Emergency Solutions Grant (ESG) funds are allocated and disbursed. The Taskforce was formed to assess community needs, identify gaps in service and develop a strategy to address homelessness. In August 2010, the HHVTF became the Housing and Homeless Coalition (HHC) following the Department of Housing and Urban Development's (HUD) emphasis on creating a unified response to ending homelessness in the community. The formation of the HHC allows for:

- Creating and implementing a 10 Year Plan to End Homelessness
- A Collaborative Applicant for the submission of the Continuum of Care (CoC) application
- Increased reliance and accountability to Homeless Management Information System (HMIS)
- Increased focus on performance outcomes
- Emphasis on data driven decision making
- Meeting HUD’s audit and reporting requirements
- Alignment with ESG activities
- Implementing a community wide 25% match compared to individual program match
The primary goal of the local HHC is to develop an enhanced various collaborative process utilizing community assets to provide improved coordination for the delivery, monitoring and evaluation of homeless and housing vulnerable services. This system coordination is the foundation of setting priorities for ESG funding, developing (CoC) strategies and the 10-Year Plan. The ten year plan is based on best practices learned through Homeless Prevention and Rapid-Rehousing Program (HPRP), CoC inputs, data from a community’s needs and gaps assessments and the CoC checkup.

Describe the coordination with the local Continuum of Care (CoC) and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness. Collaboration between local non-profits, the Housing and Homeless Coalition, the Housing Vulnerable Task Force and the Continuum of Care is a priority for the City. These collaborations allow the Emergency Solutions Grant to efficiently increase the number of critical support services offered to homeless and at risk of homeless individuals. Partnerships are continually being forged between government organizations, housing developers and business partners to re-house individuals and families, provide financial assistance and case management as well as relocation and other housing stabilization services.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction’s area in determining how to allocate Emergency Solutions Grant (ESG) funds, develop performance standards and evaluate outcomes, and develop funding, policies and procedures for the administration of Homeless Management Information System (HMIS). The Department of Neighborhood and Business Development consults with the Coalition and Continuum of Care (CoC) to identify gaps in services to those in need. Using Homeless Management Information System (HMIS) data, Point in Time count data and feedback from community based organizations, Emergency Solutions Grant (ESG) funds have been used to maximize current funding. The CoC and the Department of Neighborhood and Business Development continue to work together to build and maintain a process that maximizes current resources to support individuals and families in finding and maintaining permanent housing along with support services that help those in need to achieve their housing goals.

ESG program progress relies heavily upon the HMIS data and monitoring visits with agencies. Program standards, outcomes and policies and procedures are reviewed on an annual basis with each funded program. The Ten Year Plan to End Homelessness created in 2012 outlined strategies, funding and other resources to end homelessness in our community. ESG funds were aligned in the areas of rapid re-housing, homeless prevention and street outreach. Local priorities for funding are identified by the Gaps and Needs Assessment completed by the CoC along with the HMIS data and other local data. Outcomes of this assessment are used to direct ESG funding resources.

Describe agencies, groups, organizations and others who participated in the process and describe the jurisdiction’s consultations with housing, social service agencies and other entities. Please see Appendix A for a summary of responses from more than 240 community stakeholders, service providers, housing and human service delivery agencies, members of Tomorrow’s Neighborhoods Today, and city of Syracuse staff, including the Division of Code Enforcement and other department heads.
No agency types and/or persons were intentionally excluded from the input process. Other local planning efforts were considered in preparing this Consolidated Plan, including but not limited to: existing neighborhood based plans and Tomorrow’s Neighborhoods Today (TNT) planning efforts, Syracuse Comprehensive Plan, the Onondaga County Consolidated Plan, the Central New York Regional Planning and Development Board’s initiatives, and the priorities established through the New York State Regional Economic Development Council for Central New York.

Department of Neighborhood and Business Development (NBD) staff formulated the consolidated plan through a series of steps that included data review and calculation in conjunction with a comprehensive series of meetings and events with agencies, businesses, and neighborhood residents.

1. NBD identifies housing and community development needs through meetings with residents and neighborhood stakeholders, input from community organizations, and neighborhood plans designed through citizen planning activities.

2. A request for proposals for Community Development Block Grant (CDBG), HOME, and Emergency Solutions Grant (ESG) funding is posted on SyrGov.net and made available to any interested individuals and agencies. Availability is advertised at all TNT meetings and a display ad is placed in the Syracuse Post Standard, a local newspaper. Distribution via email, posting on the city of Syracuse website and hard copies available upon request.

3. RFP selection subcommittees review all applications, prioritize applications, and prepare budget recommendations for the Commissioner of the Department of Neighborhood and Business Development. These subcommittees include: Housing Production, Services for Housing Vulnerable Populations, Services for Special Needs Populations, and Homelessness Prevention.

4. Based on these recommendations, NBD prepares a draft Action Plan outlining the proposed budget and explaining how this budget meets its goals. This plan is approved by the Mayor and released to the public for comment via an ad in the Post Standard, a local newspaper, distribution via email, posting on SyrGov.net and hard copies available upon request.

5. Once the draft Action Plan is released, there is a 30-day period for public comment. During this time, NBD holds a public meeting at which the draft Action Plan is available for public review and comment. Citizens are invited and encouraged to comment at the public meeting and throughout the 30-day comment period. (Please see public notice on page 56 this document.)

6. The Syracuse Common Council holds a Public Hearing to garner further community input and formally approves the final Annual Action Plan. Once approval has been received from the Common Council and signed by the Mayor, the Consolidated Plan is submitted to the Department of Housing and Urban Development (HUD) for approval.

7. Throughout the year, NBD reviews and evaluates funded programs and agencies, including onsite monitoring visits.

8. On occasions during the year, it might be necessary to change the use of the funding budgeted in an Action Plan, or to change the priorities established in the Five-Year Strategic Plan. In that case, a formal substantial amendment will be proposed, considered, and acted upon. Description of a substantial amendment and necessary procedures is outlined further in the Citizen Participation Plan.

9. After a program year is complete, NBD prepares a Consolidated Annual Performance and Evaluation Report (CAPER). After the CAPER is released, there is a 15-day public comment period, during which NBD holds a public hearing, NBD then submits the CAPER to HUD or before July 30.
Describe cooperation and coordination with other public entities, including the State and any adjacent units of general local government, in the implementation of the Consolidated Plan (91.215(l)).

The Syracuse Department of Neighborhood and Business Development coordinates regularly with a number of other public entities, including the Onondaga County Departments of Community Development and Health, the Syracuse – Onondaga County Planning Agency, New York State Housing and Community Renewal, the New York State Economic Development Corporation, and the New York State Affordable Housing Corporation.

**PR-15 Citizen Participation**

Prior to its initial release, citizen participation spanned from April to October 2014 and in the form of public meetings, surveys and one-on-one meetings with community groups and neighborhood stakeholders, homelessness and housing vulnerable service providers, nonprofit housing partners, investor owners, city staff and leadership and many others.

The City's Citizen Participation Plan, revised and approved by the Department of Housing and Urban Development (HUD) in 2011, provides information on how residents, institutions, businesses, and community organizations may participate in the development of the City's Consolidated Plan and outlines strategies to ensure a diversity of residents have the opportunity to participate through a variety of methods. The strategies include email notifications, mailings, public notices, and distribution of information via social services agencies. Additionally, input is sought through other community organizations, such as, the Tomorrow's Neighborhoods Today (TNT) Planning Councils, the Mayor's Citizen Cabinet, F.O.C.U.S. Greater Syracuse and the Better Neighborhoods Bureau. The Citizen Participation Plan ensures the inclusion of residents in the development of the Five-Year Strategic Plan, the annual Action Plan, any amendments to these plans, as well as the Consolidated Annual Performance and Evaluation Report (CAPER). The Citizen Participation Plan also describes the participation of members of the Mayor’s Citizens Cabinet and TNT participants.

Following the release of the draft Five-Year Strategic Plan, members of the public are invited to share their comments with the Commissioner of Neighborhood & Business Development independently and in a public meeting setting. These comments are taken into consideration as the final plan is developed. In addition, the City holds a public hearing, which allows the public to directly address the members of the Common Council and share their thoughts and concerns regarding the draft plan.
Needs Assessment

NA-05 Overview

While great strides have been made to stem the tide of disinvestment, Syracuse continues to experience the effects of high poverty rates and a substandard housing stock. The following provides an in-depth analysis of the challenges facing both renters and owners by income strata.

Table 8 – Crowding Information – 1/2
Data Source: 2006-2010 CHAS

Describe the number and type of single person households in need of housing assistance.

In 1990, 36% of the Syracuse population was described as "Living Alone." By 2010, this percentage has risen to 38% (Source: US Decennial Census). Individuals currently make up 68% of our sheltered homeless community while families represent 32%. Concentrations of one person households (50% or greater) exist in eight census tracts. Three of those eight census tracts are within the Neighborhood Revitalization Strategy Area (NRSA) (see attached map under "Number of Households"). To address this growing demographic, single room occupancy for individuals may be a growing supportive housing need in our community, in particular for adult men who have disabilities and SSI/SSDI incomes.
The number and type of families in need of housing assistance who are disabled or victims of domestic violence, dating violence, sexual assault and stalking.

Table 10

What are the most common housing problems?
Of the 56,445 households within the city, 24.0% suffer from at least one severe housing problem. Housing cost burden is by far the most common as 21.6% of all Syracuse households suffer from severe housing cost burden (spending 50% or more of their income on housing). Additionally, 39.1% of all Syracuse households suffer from a cost burden of 30% or greater.

Are any populations/household types more affected than others by these problems?
Of the 22,075 suffering from a housing cost burden of 30% or greater, 49.1% have an HUD-Adjusted Area Median Family Income (HAMFI) between 0 - 30%. Of the 12,215 with a severe housing cost burden of 50% or greater, 77.1% have an HAMFI between 0 - 30%. According to 2006 - 2010 CHAS data, there are 14,595 Syracuse households existing within the 0 - 30% HAMFI range, of this 12,904 (or 88.4%) households exist with at least one housing problem or zero/negative income and 10,859 (or 74.4%) exist with a housing cost burden of 30% or greater.

These 14,595 households with a HAMFI range between 0 - 30% are 31% small family households. Of these households, 22% have one or more children six years old or younger and 18% of households contain at least one person 62 or older.

Describe the characteristics and needs of low income individuals and families with children (especially extremely low income) who are currently housed but are at imminent risk of either residing in shelters or becoming unsheltered. (91.205c/91.305c). Also discuss the needs of formerly homeless families and individuals who are receiving rapid re-housing assistance and are nearing the termination of that assistance.
The most prevalent characteristic and need of low income individuals and families who are at imminent risk of losing their housing is their low income and lack of economic resources itself, with 33.6% of residents in Syracuse living at or below the poverty line. Households whose only income is public
assistance, not only find it next to impossible to save up for security deposits, but are unable to find safe affordable housing due to the affordable housing shortage in Syracuse. Support services are needed to assist housing vulnerable individuals and families in navigating through the system in finding housing. Even though service providers have been able to develop networks of reliable landlords who are willing to work with tenants on PA as well as other low income tenants, the demand is much higher.

There is also no security deposit assistance available anywhere for persons on public assistance. The County’s Emergency Solutions Grant (ESG) funds are only available to households with a more defined source of income—either employment or some form of social security, whether SSDI or SSI. There are very few landlords willing to take the Security Deposit Agreement from DSS, and without a cash security, people are ending up in shelter while available units go to those with SSI/SSDI or employment.

Other characteristics of low income individuals or families may include domestic violence, substance abuse, being recently released from an institution, (health, mental health, substance abuse or incarceration) evictions, mental health disabilities, unemployment and conflict in the household. Also transportation is a big need along with a lack of jobs and full time employment that pay well enough to support a family. Even low paying jobs are scarce. Frequently people who are employed are underemployed.

Case Management services are needed for those needing referrals to support services such as health, substance abuse, mental health, legal, financial and/or basic conflict resolution services. Housing vulnerable households also have internal barriers that they often have to deal with. Negotiating and advocating can be challenging when their apartments are falling into disrepair, calling the water department to schedule a hearing when they receive a water notice talking to their landlords about how they are going to pay the rent when a payment is late or missing. Prioritizing funds is also all examples of some internal barriers that are characteristic of many households at imminent risk of becoming homeless.

Evictions from unfit properties are also an additional burden especially for individuals receiving public assistance, who have had their homes declared unfit, and a “stop rent” notice has been sent by the Department of Social Security. Landlords evict due to non-payment of rent. It is felt that the lack of jobs (or better paying jobs) and substandard housing (code violations) play an important role with homelessness today.

If a jurisdiction provides estimates of the at-risk population, it should also include a description of the operational definition of the at-risk group and the methodology used to generate the estimates:
As evidenced by the data provided, the most at-risk populations are not specific racial or ethnic groups, but rather low income individuals and households. Low income persons experience a higher cost burden for housing and are forced to spend a substantial amount of their income on a place to live, which reduces expendable income on other necessities. Low income households experience the highest number of housing problems such as overcrowding and lack of complete plumbing or kitchen facilities. The low income group being defined is based upon the Department of Housing and Urban Development (HUD) definition of low income households: 50% of the total median income of Onondaga County. This is the result of a concentration of substandard housing that is prevalent within low income areas, specifically within the Neighborhood Revitalization Strategy Areas in the Northeast and Southwest.
sections of Syracuse. The data provided is broken down by categories of race and ethnicity. While it is important to note that specific racial/ethnic groups may have a higher proportion of those at-risk of becoming homeless and housing vulnerable, the overall low income population is the most at-risk group in Syracuse. This population will remain the primary population served by the goals and services outlined in this consolidated plan.

The methodology behind these calculations is based upon the number of residents within Syracuse that fall below the 50% median income line. The median income for Onondaga County in 2014 is approximately $47,400 for an individual and $67,000 for a four-person household. Any individual or household that is considered below the percentage threshold is considered to be low income. This is the process that Syracuse also uses when analyzing data related to poverty and housing needs.

Specify particular housing characteristics that have been linked with instability and an increased risk of homelessness.

Table 15 - Disproportionally Greater Need 80 - 100% AMI
Data Source: 2006-2010 CHAS

What is the disproportionate need when considering housing problems?
As revealed from the data provided, the number of households with at least one housing problem is significantly higher among low income persons. Each racial category has a greater number of households with at least one housing problem compared to those with none. Therefore, it can be determined that housing needs expand beyond race and can be more broadly defined by income. There are some concerns that stand out among the racial breakdown of housing needs, however. Most notably, minority groups including American Indian and Pacific Islander exhibit a greater need. Among households with 0%-30% of the area median income, all of the 164 American Indian/Alaska Native
households have one or more housing problems. Hispanic and Asian households with at least one housing problem outnumber those with none by more than six times, comparatively. These are alarming numbers that reveal the prevalence of substandard housing among low income groups, especially within minority populations.

The 30%-50% area median income categories show little improvement between households with and without housing problems. Despite a higher level of income in this category, those with housing problems are still considerable and outnumber those with none recorded. The only exception to this is with American Indian/Alaska Natives, in which households with no housing problems are significantly higher, and outnumber those with problems for all households above 30% area median income. This reveals severe disparities between the wealthy and poor that exist in this racial category, based upon housing quality.

Table 69 – Severe Housing Problems 80 - 100% AMI
Data Source: 2006-2010 CHAS

What is the disproportionate need when considering severe housing problems?

It is important to note that similar to other housing needs, severe housing problems are concentrated among low income households, as opposed to being limited to specific racial or ethnic groups. The data shows that each racial and ethnic category suffers from a greater number of severe housing problems below the 30% area median income level. Within these ‘extremely low income’ groups there are disparities among particular racial groups, including Asian and Hispanic households where severe housing problems outnumber those with none, three to one. The number of severe problems decreases significantly at the 30%-50% area median income level. In every racial category, the number of households with no severe problems is greater than those with one or more. The data provided reveals that deep disparities exist between those households with extremely low-income and the housing they dwell in compared to the low income population that still is well below the area median income. It can be determined that the most severe cases of substandard housing are concentrated among the city’s poorest populations, spanning across various ethnic and racial backgrounds.

Table 207 – Greater Need: Housing Cost Burdens by AMI
Data Source: 2006-2010 CHAS

**Discussion:**

The housing cost burden among various racial groups shows similar trends by category, with households below the 30% area median income having the highest numbers for each race that experience housing cost burdens. As the income level shifts to above 30% area median income, the number of households facing this burden significantly declines. Data representing each racial group reveals similar trends, and it is therefore difficult to specify at-risk groups that may be especially vulnerable. White and Black households in particular represent the highest number of those facing housing cost burdens, however these numbers must be considered with the fact that they make up the largest population groups in Syracuse.

Perhaps a larger concern is the overall comparison of households that are above the 50% area median income and those below it. In each racial category the number of households below this threshold is two times the number of those above and considered to be ‘moderate income’ or high income. As noted in other data sets provided, those with extremely low income are the most likely to experience substandard housing and severe housing problems. These groups have the most difficulty finding quality affordable housing for themselves and their families. It is for this reason that extremely low income populations are often unable to find more affordable housing than what they currently dwell in, and even the most affordable housing takes up a large percentage of their total income. Therefore it can be determined that extremely low income groups are the most at-risk among Syracuse residents, as opposed to identifying a specific racial or ethnic group.

**NA-30 Disproportionately Greater Need: Discussion – 91.205(b)(2)**

Are there any Income categories in which a racial or ethnic group has disproportionately greater need than the needs of that income category as a whole?

Syracuse has been designated by the United States Department of State as a “sanctuary city” for refugees of war, famine and conflict. According to a recent report conducted by the Onondaga Citizens League, this federal designation has led to more than 7,200 foreign born refugees being relocated to Syracuse since 2001. Additionally, each year approximately 850 new refugees are placed in Central New York and
call Syracuse their new home. The largest ethnic groups of those that have resettled include Bhutanese, Burmese, Somali, and Sudanese. These individuals and their families often move to the United States with little to no ability to speak English, and have little knowledge of American culture and way of life. Basic needs and practices such as dialing 911 during an emergency or paying their heating bill are skills that must often be taught. The majority of refugees are low income households, and it can be more difficult to provide opportunities for housing and quality affordable housing due to a number of challenges. Employers may be hesitant to hire refugees due to the language barrier that may exist, and these individuals often have no prior work experience in the United States to reference. Additionally, racial or cultural discrimination may take place with landlords who prefer not to rent properties to foreign-born or non-native residents.

For each of the reasons outlined above, a number of organizations in Syracuse provide services and programs to meet these vital needs and offer the resources that will allow refugees the opportunity to successfully adapt to their new lifestyle. Upon arrival into the United States, each refugee households is assigned a caseworker to teach them basic practices, find them a safe place to live, register them for federal benefits, create an account for utilities, and sign children up for school. Case workers are dedicated to the same refugee households for ninety days. By the end of this time period, refugee families begin to be more independent and have made progress with becoming more comfortable surrounded by a new culture and living in an entirely new place. Often these families require additional assistance after the ninety-day period, and service agencies in Central New York have a limited amount of resources they are able to provide. Despite these challenges, the various agencies and organizations serving these refugee households have made progress with employers and landlords in Syracuse, to establish networks that are willing to hire refugees and welcome them as housing tenants. These partnerships create trustworthy connections and offer the best possible outcome for refugees to find work, establish an income and live in quality affordable housing.

Among those in the refugee community that are the most vulnerable to experiencing cyclical poverty are the seniors individuals that have a limited ability to work and often have the least English speaking-proficiency. New solutions and resources must be provided to serving these individuals that are most at-risk of becoming homeless.

The Hispanic community is also a challenged ethnic group within Syracuse. A limited number of job opportunities, high poverty and high crime in Hispanic-concentrated neighborhoods cause Hispanic populations to make up a significant percentage of the total low income demographic in the city. Specific needs for this ethnic group include a limited ability for many adults to speak or read English, and require translation services to communicate with health care and other service providers, as well as community leaders. This often serves as a challenge for refugees and the majority of other foreign-born individuals and families in Syracuse as well.

**If they have needs not identified above, what are those needs?**

Several members of the refugee and Hispanic communities in Syracuse struggle from a lack of communication with those outside of their ethnic enclaves due to limited English speaking ability. An example of this is the ability to communicate with emergency responders when a fire or accident occurs and they are unable to provide vital information to assist.
Furthermore, limited experience with technology such as computers, telephones and automobiles limits their ability to access employment opportunities or job centers. Refugee communities that are resettled often are unfamiliar to modern technology when they arrive to the United States, and in high poverty Hispanic communities there is limited access to technology. This creates a disadvantage where basic technology skills now play a role in even the lowest-paying jobs.

The regional bus transit system offers a number of routes that travel through refugee- and Hispanic-concentrated neighborhoods in Syracuse; however these individuals often struggle to read and correctly understand when their busses and transfer shuttles will arrive and depart. This leaves city’s poorest residents at risk from accessing jobs and income they desperately need. The city’s transportation system also has a limited number of available routes that lead to the suburban and outlying areas of Syracuse, where other major commercial and employment centers exist outside of the downtown and University Hill area.

**Are any of those racial or ethnic groups located in specific areas or neighborhoods in your community?**

The refugee community in Syracuse is largely concentrated on the North and West sides of the city. The Northside of Syracuse is home to a large number of ethnic enclaves, and is where the various resettlement agencies are located to provide basic services and needs. Refugee households that are established have started to open businesses and develop microenterprises in Northside commercial corridors. The once-famed ‘Little Italy’ corridor of Syracuse is now lined with African and Asian markets in addition to the traditional Italian restaurants and bakeries that have existed in Syracuse for decades.

The Westside of Syracuse has long been a Hispanic-concentrated area of Syracuse and according to recent census data contains one of the poorest census tracts in New York State. The Near Westside especially suffers from high poverty and crime, which often serve as intimidating factors that limit the number of higher income residents from choosing this neighborhood in which to reside.

Both neighborhoods have suffered from decades of suburbanization and loss of major employers to provide jobs. The Westside was once a major manufacturing center and dozens of abandoned warehouses still remain in the neighborhood. The Northside once served as a leading commercial area with breweries, shops and hundreds of other small businesses. These neighborhoods also contain some of the oldest housing stock in the city, with many homes approaching one hundred years old and have suffered from years of disinvestment. This has resulted in a Northside and Westside neighborhood housing stock that contain many properties unsafe for low income residents and replete with harmful contaminants such as lead and asbestos. Often these homes are among the most affordable real estate in the city, and are attractive options for poor residents who are unaware of the risks of living there. Landlord and property owners often live outside of Syracuse, even beyond New York State in many cases, resulting in a limited level of maintenance and response to poor conditions or code violations despite municipal efforts by Syracuse. Despite these housing conditions, these neighborhoods have high value as ethnic centers due to the strong sense of community that exists between refugee and Hispanic residents. Therefore, the lack of quality, affordable housing in these neighborhoods results in a high percentage of households with multiple housing problems, who choose to live in these residential units regardless of the challenges they face.

Table 2410 – Ethnicity of Public Housing Residents by Program Type
Data Source: PIC (PIH Information Center)

Section 504 Needs Assessment: Describe the needs of public housing tenants and applicants on the waiting list for accessible units:

There are long waiting lists for accessible apartments. The Syracuse Housing Authority (SHA) hears from many of the local assistance organizations that there is a greater need than supply. As such, when new development activity comes along SHA is targeting 12-15% of new units as fully accessible. An assessment of SHA residents provides the following of their top needs:

- Grab Bars
- One level family units
- Roll-in showers

Most immediate needs of residents of Public Housing and Housing Choice voucher holders

SHA conducted a public housing resident needs assessment, in which the following represent a listing of the top requested needs:

1. Access to adequate transportation
2. Childcare/Youth services (i.e. after school programs, etc.)
3. Access to food/Food Pantry
4. Job Seeking Assistance/Training
5. Recreational/Learning Classes (i.e. exercise, art, money management, computer classes, readings, etc.)
6. GED Programming
7. Drug Prevention and Intervention Programming

From a physical needs assessment, SHA public housing suffers from:
1. Much of the housing stock is over 50 years old – it is becoming necessary for some major renovations for that infrastructure which is located below ground – water and sewer lines especially.
2. For some of the large developments, these are still being heated and domestic hot water heated through some very large institutional boilers which are slowly becoming antiquated.
3. Very dense levels of poverty within the three complexes, containing several hundred units of (597, 477, and 472 units respectively). There is a need to de-densify these developments and bring in mixed-income housing.

**How do these needs compare to the housing needs of the population at large**

In total there are 5,533 subsidized units in Syracuse (including the Department of Housing and Urban Development (HUD) subsidized and Low Income Housing Tax Credit or LIHTC) making up 8.5% of the total number of housing units. According to the 2012 ACS 5-year estimates, 18,411 renters suffer from a cost burden of 30% or more and 5,603 suffer from a severe cost burden of 50% or more. Individuals who cannot find affordable housing options through the above opportunities must find it within the private market.

Data Source: Taken from the 2013 Annual Homeless Assessment Report (AHAR) as reported in Homeless Management Information System (HMIS)

ACS 2009-13 five year estimates also reveals that 51% of Syracuse's homeless population is Black or African American. The black population by percentage of the total city is 31% showing a higher proportion of homelessness experienced by this population. Furthermore, White and Hispanic populations also experience high rates of homelessness when compared to the jurisdiction as a whole.

Table 30 – HIV Housing Need
Data Source: Local data contributed to the content of this table.

Describe the characteristics of special needs populations in your community:

Special needs populations include persons with physical disabilities, the seniors (including frail seniors), persons with HIV/AIDS and their families, developmentally disabled persons, persons with dual diagnoses, persons with mental health-related disabilities, youth, persons with diagnosable substance use disorders, persons returning from incarceration, refugees, and non-English speaking populations.

What is the housing and supportive service needs of these populations and how are these needs determined?

Special needs populations, as well as the homeless and housing-vulnerable populations, need affordable housing options to prevent increased homelessness or inappropriate placement in hospitals, nursing homes or rehabilitations centers. A relatively large number of shelter residents become homeless due to a loss of income.

The following are descriptions of the needs by special needs subpopulation:

Persons with physical disabilities: Persons with mobility impairments face great difficulty obtaining accessible housing. The lack of accessible, affordable housing options in our community force many to reside in senior housing, rehabilitation centers or nursing homes.

Persons with Dual Diagnoses: The treatment, service and residential needs of individuals with co-occurring mental health and substance abuse disorders are often considered the most challenging. Staff and administrators at shelters, correctional and psychiatric facilities report increases in the number of persons with co-occurring disorders. Many in this subpopulation experience high rates of recidivism.
**Youth and the Seniors and Frail Seniors:** There is a need to invest in programs that provide opportunities for life skills training and academic success aimed toward preventing at risk youth from falling victim to criminal activity and a lack of employment/career path. Furthermore, there is an increasing social interaction, access to available resources (such as housing assistance, healthcare networks, etc.) and community engagement among seniors, particularly those who are economically and otherwise isolated from traditional support networks.

**Persons with HIV/AIDS and their Families:** There are currently 1,531 cumulative cases of AIDS and 1,139 persons living with HIV reported in Syracuse, NY.

**Discuss the size and characteristics of the population with HIV/AIDS and their families within the Eligible Metropolitan Statistical Area:**
There are currently 1,531 cumulative cases of AIDS and 1,139 persons living with HIV reported in Syracuse. Beginning in Program Year 39, Syracuse received its first allocation ever of HOPWA funding. This allocation was based on the increase in reported cases of HIV and AIDS in the larger Central New York and Southern Tier catchment area. With the Department of Housing and Urban Development's (HUD) consent, NBD opted to allow the State of New York to administer HOPWA funding and continues to do so. By opting out of the direct administration of HOPWA funds, the Syracuse area will continue to see allocations that far exceed the Syracuse entitlement.

**NA-50 Non-Housing Community Development Needs – 91.215 (f)**

**Describe the jurisdiction’s need for Public Facilities:**
Syracuse currently owns community centers located in residential areas and provide vital services to the residents of the neighborhoods in which they are located. The Northeast and Southwest Community Centers are each located within a designated Neighborhood Revitalization Strategy Area (NRSA) and provide various recreational and educational programs for youth and seniors. Other facilities include the Westcott Community Center on the city’s eastside, as well as recreational ice skating centers at Meachem Park and Sunnycrest Park.

The Syracuse City School District also contains a high number of schools that are in need of repair and improvements, including several elementary schools and high schools. Several schools date back to the early twentieth century and now have outdated layouts and classroom sizes.

The primary needs related to these assets are upgrades and improvements to these aging facilities that are important community anchors. Currently the ability for services to be successfully administered is being limited by the lack of amenities and space to conduct these program operations, whether for educational or recreational purposes.

**How were these needs determined?**
The need for investment in public facilities is based upon discussions with facility directors and structural inspections of the buildings. An ongoing assessment of needs has been conducted for these community recreation centers. Both community centers owned by the city were first built in the early 1970’s while many schools date back even further. There is a difficult balance that exists between using available funding for programs and to benefit residents compared to renovations. In the coming years as these
public facilities continue to age and deteriorate, funding will be needed to address significant repairs that have been delayed or ignored over time.

**Describe the jurisdiction’s need for Public Improvements:**
Syracuse contains a system of water piping and other underground infrastructure that is over 550-miles long. The majority of this infrastructure is approximately one hundred years old and is significantly aged, resulting in a number of water main breaks and disruptions in service delivery and property destruction. This has become a significant expense for the city, due to the resources that must be used in addressing these water main breaks and the damage they cause.

**How were these needs determined?**
Data from the Syracuse Department of Public Works and Water Departments was used to estimate that over 400 water main breaks occurred in 2014, a number that continues to increase each year due to decades of disinvestment in vital infrastructure networks.

Syracuse is working with officials at the state and federal level to receive support to invest in infrastructure for underground piping for water and other utilities that would limit property damage and disruptions in service from water main breaks, while reducing the loss of millions of gallons of water each year from cracked and broken pipes.

**Describe the jurisdiction’s need for Public Services:**
Syracuse contains a high concentration of low income residents that face a number of challenges related to housing, health, nutrition, and educational attainment. For this reason, various nonprofit organizations exist to provide services for the benefit of these individuals and families who have the most significant need.

**How were these needs determined?**
Of the 32,709 children under the age of 18 in Syracuse, an estimated 53% live in households that receive public assistance (SSI, cash public assistance income, SNAP or food stamps, etc.) according to the United States Census Bureau. The overall income for families with children is significantly lower than the overall median income in the city. Furthermore, an examination of 2010 census data for Syracuse revealed that 13% of individuals do not have access to health insurance. The age group of 25-54 was the highest group of uninsured. This data reveals the important role in which public assistance plays on providing vital services to Syracuse residents and the need that still remains.
MARKET ANALYSIS

MA-05 Overview

While the Syracuse housing market did not experience the precipitous drop in home values as a result of the recession, housing values remain stagnant. Unemployment rates are relatively stable, but there continues to be a low participation in the labor force compared to other cities. The following Market Analysis demonstrates specific indicators of the Syracuse market condition and identifies areas in need of intervention.

Table 32 – Unit Size by Tenure
Data Source: 2006-2010 ACS

Describe the number and targeting (income level/type of family served) of units assisted with federal, state, and local programs.

In addition to the 2,144 public housing units that house primarily extremely low income families with children and senior households, the City contains more than 3,000 assisted housing units and an additional 835 units that are restricted to low-income households through tax credit financing. Both types of housing provide affordable housing developed by private entities. Assisted housing is defined as housing built by private developers that continue to have a contractual relationship with HUD to keep the units affordable to low-income renters. The inventory of assisted and tax credit-funded housing units are scattered throughout the city and are the result of a patchwork of federal and state mortgage subsidy programs as well as tax credit-funded projects.

Of the assisted housing inventory, roughly 55 percent are appropriate for families to reside in while the balance is primarily senior housing or for those with disabilities. Of the family-sized units, 85 percent are restricted to low-income households earning 80 percent of the area median income (AMI) or less. Of the remaining 15 percent of the assisted family units, 13 percent are for moderate income renters (232 units...
in Madison Towers) and two percent are reserved for very low-income households (35 units in the Leonard Apartments).

Exclusive of the family sized units are 1,392 units reserved for seniors and those with disabilities making up 45 percent of the city's total assisted housing inventory. These are projects developed under the federal Section 202 program, the majority of which were developed and are currently owned and managed by Christopher Community.

Preserving the affordability of the assisted housing stock is a nationwide challenge due to the fact that the federal government has discontinued most of the mortgage subsidy programs upon which their affordability were based. In lieu of these assisted housing programs, tax credit financed developments have been the primary vehicle for the creation of new affordable rental housing. Within the city, there are 18 tax credit financed projects containing 835 units. Each of these units are affordable to households earning 60 percent of AMI or less. Many of these tax credit-funded units carry with them Section 8 subsidies ensuring that households pay no more than 30 percent of their gross income on rent.

The primary developers, owners and managers of the city's assisted and tax credit-funded housing stock is through three locally-based entities: Christopher Community, Housing Visions Unlimited and the Syracuse Housing Authority, which has only recently entered the tax credit housing market apart from their public housing inventory. Conifer Realty is another large player in this market in their recent development of four of the nine former Eljay properties providing over 100 affordable housing units in multi-family type settings. For a full list of the assisted housing inventory, please refer to Figure ___.

Going forward, the City intends to support the development of additional assisted housing through the Low Income Housing Tax Credit (LIHTC) program with the goal of adding approximately 100 units a year. However, emphasis will be placed on locating these developments in economically stable areas throughout the city in an effort to provide a broader array of affordable housing opportunities and to ensure the development of mixed-income neighborhoods.

Provide an assessment of units expected to be lost from the affordable housing inventory for any reason, such as expiration of Section 8 contracts.
Since the Five-Year Consolidated Plan (2010-2014), several assisted housing projects that provided affordable housing to low-income renters were lost due to expirations of their regulatory contracts or property demolition. These include Townsend Towers, Harrison House, Kennedy Square and Cherry Hill. However, there is no expectation that affordable housing units will be lost from the inventory due to the expiration of Section 8 contracts over the course of this Five-Year Plan. The loss of any otherwise affordable units is expected to be nominal.

Does the availability of housing units meet the needs of the population?
There is a need for an increase in the amount of affordable rental units that are accessible to the physically disabled. The need is greatest for those earning between 0 – 30% AMI. Projects funded that include a larger number of accessible units will be given priority in order to assist in the increase of available accessible and affordable units.
Describe the need for specific types of housing:
The availability of affordable rental housing units does not meet the current needs of the low income population. The population of small related and single-person renters are often composed of a single wage earner or the seniors on fixed incomes; therefore they are typically cost burdened with over 50% of their income going toward housing costs. An increase of affordable, quality units is needed to meet the needs of this population. There is also a need for larger, affordable units to meet the needs of larger related households. Typically these types of households live in overcrowded units of more than one person per room. Rental units with three or more bedrooms are scarce within the city making it difficult for larger families to find adequate housing.

Table 36 – Monthly Rent
Data Source: The Department of Housing and Urban Development (HUD) Fair Market Rent (FMR) and HOME Rents

**Is there sufficient housing for households at all income levels?**
There is a significant lack of quality, affordable rental housing for households earning 0-30% and 30-50% AMI. The primary source of housing for these households is either in public housing or in private, unsubsidized market rate housing. Due to market forces such as an oversupply of housing units, low property values, and high poverty rates, much of the affordable market rate rental housing stock is substandard.
How is affordability of housing likely to change considering changes to home values and/or rents?
The Syracuse housing market is tightening in two significant ways: first, the advent of the Syracuse Land Bank and the resulting increase in tax foreclosures, many substandard rental properties are being taken offline, reducing the number of available affordable, substandard, housing units being occupied by this very low-income strata. At the same time, the City has instituted a number of regulatory measures that demand more responsible property ownership and management, which may have the unintended impact of reducing the supply of affordable, yet substandard housing.

How do HOME rents / Fair Market Rents (FMR) compare to Area Median Rent? How might this impact your strategy to produce or preserve affordable housing?
HOME and FMR rents are typically on par with the Area Median Rent, but both are too low to spur investment or provide incentives for adequate property maintenance and management. This makes pursuing affordable market rate development extremely difficult even where construction costs are subsidized. The high costs of operating affordable rental property coupled with low rent structures inhibits the production and long-term management of affordable housing rental projects.

**MA-20 Housing Market Analysis: Condition of Housing – 91.210(a)**

After an initial exterior inspection of more than 1,800 vacant properties, Syracuse’s Division of Code Enforcement (DOCE) concluded that 1,192 of the above had exterior violations and therefore qualified for the City’s Vacant Property Registry (VPR) Program.

The City is utilizing the VPR to identify demolition candidates based upon periodic inspections, photographs, and inspector’s assessment of vacant structures to determine a property condition score. Properties scored "1 – Worst" have been flagged as demolition candidates. These "1’s" and their following criteria would be considered properties of "substandard condition" and grades "2" through "5" would be considered substandard condition but suitable for rehabilitation."

### Need for Owner and Rental Rehabilitation

More than half of all rental units suffer from at least one physical detriment threatening its habitability compared to just over a quarter of owner-occupied units. Also, 95% of all owner-occupied homes were built before 1980; the same is true for 89% of rental occupied units. This indicates high risk of lead-based paint hazards in both owner-occupied and rental housing. The slow growth in home equity in Syracuse is often the result of deferred maintenance over many years, making accessing affordable home improvement financing very difficult.

### Estimated Number of Housing Units Occupied by Low or Moderate Income Families with (Lead Based Paint) Hazards

According to the 2010 US Census, 92% (60,162) of Syracuse housing units were built prior to 1978 (before the formal ban of lead based paint), making them high risk for Lead-Based Paint Poisoning. Furthermore, over 33.6% of the Syracuse’s population is below the national poverty level, including 48.8% poverty rate for children. In 2013, 12,115 children were age six or younger. Of this population, 6,090 (50%) were tested for lead poisoning. One hundred and sixty-one children tested equal to or greater than 10ug/dl and 842 children had and Elevated Blood Lead Level (EBL). If all children six or under were tested, it is expected that a total of at least 320 children would be adversely affected by this health hazard.

A combination of the pre-1978 deteriorated housing stock (92%), the poverty rate (48.8% of children), unemployment rate (11.4%), number of children tested and untested (50%), minority (38.9%) and immigrant population (27.9%) express the need to assist the most vulnerable members of our community and drive the desire for focused lead remediation funding.

Within the City’s Neighborhood Revitalization Strategy Area (NRSA), a Department of Housing and Urban Development-approved area of slum and blight and characterized by low median incomes, there are 15,166 residential properties built before 1978. Of those, 13,761 or 91% of properties are currently occupied. This number shows the substantial number of properties that are likely to contain lead based paint, despite the Lead Based Paint Poisoning Prevention Act became federal law more than 35 years ago.

Table 41 – Total Number of Units by Program Type

Data Source: PIC (PIH Information Center) and the Syracuse Housing Authority

#### Describe the supply of public housing developments:

There are very few three, four, and five bedroom apartments in the overall stock of public housing in Syracuse. These developments were built at a time for work-force housing and starting families, and also did not have the person/bedroom requirements that the Department of Housing and Urban Development (HUD) now has for overcrowding.

On a per capita basis, Syracuse has a large supply of public housing. But for a city in which poverty has become concentrated, and with the transiency of lower-income people seeking places with high services and possible housing options, Syracuse Housing Authority has found their waiting lists growing to levels where families will reside on the list on average for two years, and up to six years or more for four and five bedroom apartments.

#### Describe the number and physical condition of public housing units in the jurisdiction, including those that are participating in an approved Public Housing Agency Plan:

Syracuse Housing Authority possesses seven multi-unit structures and performs asset management duties to ensure each of these buildings are safe and up to code. These include some densely populated family developments and eight high rise buildings (from seven to 22 stories tall). Some of these high rise buildings are central parts of family developments.

The developments are located primarily on the near south and near west sides of Syracuse, with pockets of units elsewhere. These units have undergone modernization and updates over the years and have had some energy efficiency upgrades. However, more capital work is necessary in order to keep all developments viable for the long term.

Table 42 – Public Housing Condition  
Data Source: Syracuse Housing Authority

**Describe the restoration and revitalization needs of public housing units in the jurisdiction:**  
Much of the public housing stock in over 50 years old and it is becoming necessary for some major renovations for that infrastructure which is located below ground, particularly with water and sewer lines. Some of the larger developments are still being heated through some very large institutional boilers which are becoming antiquated and are in need of replacement.

Currently a high level of density exists within several Syracuse Housing Authority properties. There is a need to de-densify these developments and bring in mixed-income housing.

**Describe the public housing agency’s strategy for improving the living environment of low- and moderate-income families residing in public housing:**  
Syracuse Housing Authority has explored ways in which to improve the economic, self-sufficiency, and educational lives of all resident families. Numerous developments have programs through local partners which focus on education, health, financial self-sufficiency, and jobs training. SHA continues to seek grants from the Department of Housing and Urban Development (HUD) and from outside grantees to fund these programs.

Table 43 - Facilities and Housing Targeted to Homeless Households  
Data Source: Homeless Management Information System (HMIS) Housing Inventory Chart included in HMIS
Describe mainstream services, such as health, mental health, and employment services to the extent those services are used to complement services targeted to homeless persons

As part of the assessment process, the homeless programs include evaluations of client health, mental health and employment readiness. These assessments assist individuals in identifying behavioral health issues, substance abuse and mental health issues that may be barriers to employment. Where needed, individuals are connected to health services of their choice. If they already have a primary care provider, it is encouraged to continue to foster the ongoing relationship between themselves and the providers that they have already grown accustomed to seeing.

Healthcare services for the vulnerable populations are provided through the newly created healthy homes and the managed care insurance companies operating with Medicaid funding. People with disabilities who need assistance in managing their medical care have access to care coordinators who connect them with community-based services and support so they can maintain independent living in the community.

There are also several free or sliding scale medical clinics staffed by volunteer doctors available to those without health insurance such as Amaus Clinic at the Cathedral, Poverello Health Services at Franciscan Ministries, Syracuse Community Health Center's locations on South Salina Street and in the South, East and West end of Syracuse.

Mental Health services are provided by the local community-based organizations such as Access CNY (formally known as Transitional Living Services), Onondaga Case Management, CNY Services, Syracuse Behavioral Healthcare, and institutional care such as Hutchings, CPEP at St. Joseph’s Hospital, SUNY Upstate Adult Psychiatry Clinic, as well as and several community-based mental health clinics, including clinics at Brownell and ARISE. Through case management and support services homeless and/or housing vulnerable individuals can use these services for ongoing/recurrent health and behavioral health issues.

Employment services are often received directly at the program to support homeless/housing vulnerable clients. Job development and training strategies are focused on people who are experiencing or are most at risk of homelessness. Common barriers to entering the workforce often are transportation, childcare, child support, domestic violence history, criminal justice history, lack of experience and age. Services needed often include job readiness, assisting with the job search, creating resumes, interviewing skills and assisting with transportation barriers. Housing programs work collaboratively with community resources, often referring clients to Central New York Works, Parent Success Initiative, Green Jobs New York and the Department of Social Service Jobs Plus Program. Syracuse Behavioral Healthcare has a “KEYS to Employment and Economic Stability” program which prepares homeless individuals residing in the SBHC supportive housing units for employment and assists in reaching educational goals.

Employment services for persons with disabilities are provided by the CNY Works and ACCES VR. CNY Works’ Disability Navigator which helps people with disabilities in resume writing, locating job leads, interviewing and job readiness skills. ACCES VR provides specialized vocation-rehabilitation services to anyone with a disability who is seeking employment. Vocational Rehabilitation counselors at ACCES VR are assigned to each participant to provide supports in reaching individual employment goals through supportive employment or direct placement with local employers. Community-based organizations such as ARISE, Access CNY, and several others work with ACCES VR to place participants in jobs and provide job coaching and other support to make their employment successful. Supported employment is a paid and competitive employment with ongoing support for individuals with high needs.
List and describe services and facilities that meet the needs of homeless persons, particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth. If the services and facilities are listed on screen SP-40 Institutional Delivery Structure or screen MA-35 Special Needs Facilities and Services, describe how these facilities and services specifically address the needs of these populations.

**Catholic Charities**
*Homeless Shelter for Men* – emergency shelter for men over the age of 24

*Dorothy Day House* – emergency shelter for women and children

**In My Father’s Kitchen:**
*Under the Bridge Street Outreach* - a street outreach program to homeless individuals living under the bridges in Syracuse.

**Greater Syracuse Tenants Network:**
*Homeless Prevention for Housing Vulnerable Tenants* – provides counseling, information, case management and referrals to tenants facing homelessness.

**Hiscock Legal Aid Society:**
*Homeless Prevention Legal Services* – Addressing the problems of the homeless or persons at risk of homelessness by providing legal assistance for individuals and families living in low-income rental housing who are facing eviction, illegal lockouts and other housing problems, particularly those related to sub-standard housing conditions that put one at-risk of homelessness.

**Housing Visions (in collaboration with the local Veterans Administration):**
*Van Keuren Square* – offers affordable housing to veterans (50 units)

**InterFaith Works:**
*Housing Stabilization & Case Management* – provides homeless prevention services to refugees requiring assistance or case management services to address barriers to retaining and securing safe housing.

**Liberty Resources Inc.:**
*DePalmer House* - offering rapid re-housing and support services to persons living with HIV/AIDS.

**Northeast Community Center:**
*Basic Needs Assistance/Financial Management* - provides emergency rental assistance and comprehensive referral and money management services to homeless of at-risk of homelessness individuals or families.

**The Salvation Army:**
*Transitional Apartment and Parenting Center (TAPC)* – provides rapid re-housing services and support to homeless pregnant and parenting youth (and their infants) ages 16-21.
*Barnabas Transitional Living Program* – provides rapid re-housing and support to homeless youth ages 16-25 who live at the program or in the nearby community.
*Housing Assistance and Life Skills Education (HALE) Program* – offers financial assistance to employed homeless individuals and families who are transitioning from shelters into permanent housing. Services may include rent subsidies, independent living skills training, linkages to mainstream community resources and other basis needs services.

*Booth House* - Emergency Shelter for 13-17 years old
*Barnabas Shelter* - Emergency Housing for 18-24 years old
*Women’s Shelter* - Women’s shelter serving women with mental health disabilities
Emergency Family Shelter - serving families of all kinds, from single mothers to married couples to single women

The Rescue Mission:
Men’s Shelter - serving men only

Vera House:
Emergency sheltering services - to women and men in domestic violence crisis and their children

YMCA:
Men’s Residence - provides homeless prevention and support services to homeless men

YWCA:
Women’s Program – provides rapid re-housing and supportive case management services to homeless women.

Data Source: HOPWA Project Sponsor/Sub-recipient Reporting Form

Including seniors, frail seniors, persons with disabilities (mental, physical, developmental), persons with alcohol or other drug addictions, persons with HIV/AIDS and their families, public housing residents and any other categories the jurisdiction may specify, and describe their supportive housing needs

One of the biggest housing needs that seniors and persons with disabilities face in their homes and apartments is the lack of accessibility such as the stairs to get into homes and stairs throughout their homes, narrow doorways to bathrooms, lack of floor clearances for walkers and wheelchairs and lack of grab bars. Falls resulting from this lack of access are one of the major causes of hospitalization of seniors and consequently long term institutionalization which often comes at a much greater expense to Medicaid than providing care at home. This issue has become significant in recent years due to the increase in aging population and people living longer. Frail seniors often experience many complex needs that come with aging, in addition to accessible and affordable housing. Some of these needs are personal care and housekeeping assistance, care coordination, access to medicine and medical appointment transportation and management, shopping and social opportunities.

Need for more accessible, affordable housing: Long Waiting Lists & Age Restriction

Syracuse has a very limited supply of affordable and supportive housing options available to persons with disabilities in our community. Although there are several facilities with housing units designated for special needs populations, most of those facilities have very long waiting lists which are unable to meet the growing need and further limited and/or segregated by age restrictions. Furthermore, NYS is moving away
from developing and paying for group homes for persons with disabilities. This further elongates waiting lists for the same accessible and affordable units in our community.

**Need for accessible, affordable housing without income limits**

Syracuse has been able to develop a number of accessible and affordable units with the NYS Low Income Housing Tax Credit (LIHTC) Program. However, the majority of those units require minimum incomes which prices out most people with disabilities who are below 30% of AMI and who rely on SSI benefits. Currently, Syracuse Housing Authority's Section 8 waiting list has been closed due to the overwhelming demand for subsidies and administrative cuts from HUD. This has impacted and increased the city's homeless population.

**Need for supportive housing services for People living with HIV/AIDS (PLWHA) and Housing Vulnerable suffering from co-occurring disorders**

Persons living with HIV/AIDS (PLWHA) often have histories of substance abuse, mental health issues, unemployment, chronic medical problems, financial difficulties, legal issues, a history of homelessness and lack of proper nutrition education. Without support services to ensure appropriate treatment is received along with ongoing treatment adherence, PLWHA would not have their many needs met and would continue to remain housing vulnerable.

Many homeless or housing vulnerable individuals suffer from complex co-occurring disorders and are faced with multiple barriers that prevent a successful transition into permanent housing. A large number of these individuals experience substance abuse and mental illness. It is important to have essential support services in place to properly treat their co-occurring disorders when they transition into permanent housing. It is common for individuals to end treatment and necessary medication therapy needed to treat their mental health issues and then suffer a relapse in symptoms.

Supportive housing services provide supportive housing units and support services with different level of care to people with substance abuse and mental health disabilities. However, the Shelter Plus Care program has not received additional funding for rental assistance for the last five years. That program was critical in supplying long term rental assistance to individuals with mental health disabilities and combating homelessness in our community.

**Describe programs for ensuring that persons returning from mental and physical health institutions receive appropriate supportive housing**

The local Discharge Planning Committee (DPC) actively collaborates with institutional care providers and monitors discharge outcomes. The Continuum of Care (CoC) has contributed to the development of OnCare, a system of care for youth with serious emotional and behavior problems. The DPC members participate in monthly OnCare meetings. OnCare operates ACCESS, a multi-disciplinary team involving mental health, Juvenile Justice, Children’s Division Child Welfare staff, and Parent Partners. ACCESS locates services and safe housing for participants.

A variety of initiatives have been developed to assist in preventing homelessness whenever possible. Specifically, “in-reach coordination” occurs when Health Home Case Managers visit area inpatient mental health and chemical dependency units on a weekly basis to engage and assist with the discharge planning prior to discharge and connect those in need to appropriate support services. In-reach case managers also connect with people who are going to court for discharge despite not having a place to live. The DPC
partners with NYS Department of Correction and Community Supervision (DOCCS) to address barriers to parolees accessing housing. Cross-system strategic planning meetings are held for high-need individuals. Individualized plans are developed for high risk parolees. The Discharge Planning Committee (DPC) also has collaborative relationships with key staff at various area hospitals. The DPC chairman assists with plans of difficult discharges for clients with co-morbid conditions and behavioral health issues. Lastly, the county and state funds fifty case management positions to assist youth in transitioning out of the foster care system.

**Specify the activities that the jurisdiction plans to undertake during the next year to address the housing and supportive services needs identified in accordance with 91.215(e) with respect to persons who are not homeless but have other special needs. Link to one-year goals. 91.315(e)**

In the coming year, the City plans to provide funding and technical assistance resources to agencies that align with the priority goals of increasing household wealth, removing barriers to housing, engaging the seniors, and creating sustainable housing. In 2015, funded agencies that will assist in addressing housing vulnerable populations include the ARISE Housing Referral and Advocacy Program and Home Access Program (HRAP and HAP) as well as Covenant Housing’s Referral Program, all of which assist individuals with disabilities. Welch Terrace will also continue to provide housing for at-risk individuals and families, and provide services to assist them which will receive Community Development Block Grant (CDBG) funding in 2015. InterFaith Works and their Center for New Americans will receive assistance to serve refugees with resettlement and education to become acclimated to the United States and work to meet basic needs such as housing, clothing, food, and utilities for these households. Catholic Charities will provide relocation services for Syracuse residents that will be moving from substandard housing to improved living conditions. Each of these programs are vital to accomplishing the City’s goals to assist vulnerable populations who are not experiencing homelessness but may be at-risk.

**For entitlement/consortia grantees: Specify the activities that the jurisdiction plans to undertake during the next year to address the housing and supportive services needs identified in accordance with 91.215(e) with respect to persons who are not homeless but have other special needs. Link to one-year goals. (91.220(2))**

Syracuse will use Community Development Block Grant (CDBG) funds to assist in the provision of beneficial education and counseling services, such as the Home Ownership Center and Down Payment and Closing Cost assistance through Home HeadQuarters, as well as structural repairs to homes through the SHARP and Urgent Care programs. Syracuse Model Neighborhood Corporation (SMNC) will also provide rehabilitation of affordable rental properties, while neighborhood revitalization efforts will be undertaken by Jubilee Homes and the Northeast Hawley Development Association (NEHDA). Empire Housing will renovate multiple housing structures to create affordable rental properties. Furthermore, the Department of Neighborhood and Business Development will provide assistance loans to various rehabilitation, new construction, and demolition projects that occur in Syracuse in 2015.
Describe the negative effects of public policies on affordable housing and residential investment. Several barriers have been identified within Syracuse that impact on the ability of individuals to obtain affordable housing.

**Building Codes**

Syracuse's amended Property Conservation Code is designed to insure that residential and non-residential properties are safe and habitable. While theoretically, it is more expensive to provide safe and habitable housing than not, the Code is a needed protection. In some areas, amendments have been made to the Code that will add to the cost of housing, particularly with regard to room and board type housing. These amendments were designed to upgrade the quality of life for the residents of this housing; therefore the additional costs are justified. With any additional amendments that would add to the cost of housing, consideration will be given as to whether the added protections merit the added costs.

The Syracuse Division of Code Enforcement is also responsible for enforcing the New York State Uniform Building and Fire Code. This Code places many additional restrictions, principally on newly constructed or substantially rehabilitated properties. Many of these restrictions do add considerably to the cost of housing, and may, in fact, impede its development. Although waivers to the State Uniform Building and Fire Code are possible, the waiver process is not administered by Department of Neighborhood and Business Development and may not always be responsive to City residents' needs for affordable housing. Since the State Code appears to be more appropriate to new construction, Syracuse has participated in efforts to amend the Code to make it more flexible with regard to substantial rehabilitation and conversions. Revisions to the NYS Uniform Building and Fire Code were drafted and taken to public hearing in 1993. Since then, there have been substantive changes to the revised Code and an amended version has been enacted.

In January 2003, once again the new Residential Code of New York State was adopted by the New York State Fire Prevention and Building Code Council. The City worked closely with the State representatives to identify and eliminate past impediments to cost effective rehabilitation of existing commercial structures. These new changes can reduce a construction budget by approximately one-half million dollars, which amounts to a substantial savings to a potential developer of a commercial property. However, in most cases, a sprinkler system will be required in lieu of the eliminated past impediments. This new code contains prescriptive material on all elements of residential construction, including foundations, walls, floors, roofs, plumbing, mechanical, electrical and energy. It will be much easier to use than the current code, both for the builder and the Code Enforcement Official.

Code enforcement efforts that result in citations may impact negatively on the ability of landlords to offer housing at affordable rates. However, the benefits of this activity far outweigh the negative impact.

**Permit Fees/Zoning**

Although permit fees have increased somewhat over recent years, they are not seen as a significant impediment to affordable housing. The purpose of any increase was to shift the cost of inspections and plan review away from the taxpayer and toward the developer. Similarly, local zoning regulations are not seen as a barrier to affordable housing development.
**Accessibility Issues of Persons with Physical Disabilities**

In January 2003, the Syracuse Common Council adopted Resolution No. 3-R, a non-binding resolution with the intent to address accessibility issues of person with physical disabilities. Resolution 3-R calls for the Commissioner of Neighborhood and Business Development to draw up design guidelines for housing agencies receiving program funds for construction of new one- and two-family residences to make these homes accessible to visitors who have physical disabilities. These guidelines will require that all new one- and two-family homes have exterior entrances of 36” in width and throughout the first floor habitable space areas, as well as a handicapped accessible bathroom on the first floor of each structure. As a result of Resolution 3-R, there will be additional costs associated with equipping the first floor with a handicapped accessible bathroom and handicapped accessible exterior entrances as well as handicap accessible spaces within the first floor living area.

**Fair Housing**

As part of this Consolidated Plan, the recently completed *2014 Analysis of Impediments to Fair Housing: Syracuse and Onondaga County, NY* provides examples of more historical public policy efforts, the negative effects of which still pose challenges to accessing affordable housing today.

Data Source: 2006-2010 ACS
Based on the Business Activity table above, what are the major employment sectors within your jurisdiction?
The leading employment industries in Syracuse are primarily the healthcare and education sectors. Anchored by three universities and five major medical centers, Syracuse serves as the leading employment center and home to the largest concentration of jobs in the Central New York region. Of the region’s top five private employers, four are located within the city Syracuse and related to health and education: the Upstate University Health System, Syracuse University, St. Joseph’s Hospital and Crouse Hospital. These hospitals and universities have become neighborhood anchors to the surrounding communities, with several nearby low income areas benefiting from available jobs and other economic activity.

Retail trade is also a primary job sector with several commercial centers in Syracuse ranging from the downtown area, with various shops, boutiques and services, to the neighborhood commercial corridors that provide services and retail needs to residents who live nearby. Among the largest retail employers is the 2.4 million square foot Destiny USA shopping mall. These retail centers border several low income neighborhoods and provide employment to a large number of city residents, and therefore play a major role in the region’s local economy.

Other major employment sectors include professional, scientific and technical services that make up a large number of jobs in the city. Financial and insurance firms such as AXA Equitable Insurance and locally-based POMCO Insurance serve as major employers in Syracuse in these job areas.

Syracuse also has long history as a thriving manufacturing center, and these manufacturing jobs still make up a significant employment base of the local economy. Throughout the United States over time the dominance of the manufacturing industry has given way to service industries, and while Syracuse has been no exception to this, new growth service based sectors and environmental industries offer a positive outlook on the future of the local economy.

Describe the workforce and infrastructure needs of the business community:
Employers in Syracuse are seeking a more educated, highly skilled workforce that requires limited training to be able to handle assigned tasks and work responsibilities. Syracuse has shifted from a manufacturing center to service-based economy that requires greater education and professional skills. This presents a challenge for both employers and those seeking work to be matched with the correct skills for the proper position. For this reason there is a significant need for work and job readiness programs that link people to existing training providers. In turn, these training programs need to liaison with local employers regularly to ensure their programs meet the demands for which employers are seeking to hire. Programs like these help to reduce the skills gap and any limitation in technical abilities due to a lack of education, especially for low and moderate income persons. Often these educational skills training programs are expensive for both the employee to enroll, and the employer to provide. Therefore, a specific need must be placed on affordable neighborhood-based work and job readiness programs provided by community organizations to directly serve low- and moderate-income persons who often have limited ability to access education and training resources.
Describe any major changes that may have an economic impact, such as planned local or regional public or private sector investments or initiatives that have affected or may affect job and business growth opportunities during the planning period. Describe any needs for workforce development, business support or infrastructure these changes may create.

Syracuse is undergoing revitalization in a number of areas, with large scale development projects and initiatives that span from redevelopment in the central business district to former brownfields being revitalized into valuable economic assets. These major projects create opportunities for the surrounding neighborhoods, and several investments have been made in low income areas as a result of this progress. A primary example is the way Syracuse neighborhoods have benefited from the exponential growth taking place in the city’s health care industry. St. Joseph’s hospital is situated on the city’s Northside, within the Northeast Neighborhood Revitalization Strategy Area (NRSA), has recently invested $500 million in a new hospital expansion and renovation, added hundreds of new jobs and developed a master plan for the hospital campus and surrounding neighborhood. The hospital has provided funding for housing projects directly adjacent to the campus in an effort to create a safer and improved area for the Prospect Hill neighborhood, just north of the hospital expansion. The expansion has spurred a number of projects nearby including the construction of a new neighborhood pharmacy, a mix of market rate and affordable housing units, and café and restaurant that should all be complete by 2016. St. Joseph’s has served as a catalyst for the Prospect Hill, Little Italy and Near Northeast neighborhoods of Syracuse, providing residents opportunities for jobs, affordable housing and new neighborhood services.

Construction has also started on the Syracuse Inner Harbor project that will include $350 million in the investment of residential, commercial, and educational space on the site of a former barge canal that has sat vacant for decades. The project will include several new housing and retail structures, as well as new parkway space, to serve as a link to connect the various neighborhoods and districts the project is situated between including Downtown Syracuse, Franklin Square, Park Avenue, Little Italy, and the Onondaga Lakefront. Perhaps more compelling is the impact this project is poised to have on the surrounding neighborhoods. The location of this site features several acres of vacant land situated between mixed use districts and the Destiny USA shopping center. The site also directly borders both the Northeast and Southwest NRSA’s that have been designated by Syracuse. The Inner Harbor development will be a center for job creation in construction, hospitality, retail, among other industries, and has influenced nearby projects including a proposed 75-unit housing facility for veterans that is expected to begin work in 2015.

Another initiative currently underway in Syracuse is developing a plan for the replacement of the Interstate 81 viaduct that travels directly through the city center and divides the downtown and University Hill areas. The project has involved years of environmental scoping and public participation forums to determine the future of the highway and how the existing interstate should be replaced when it is demolished in 2017. The sixty year old highway has reached the end of its useful life and the Central New York community is working with the New York State Department of Transportation and other agencies to determine the best transportation and economic design possible to replace the current highway structure. A final decision is expected in 2016 and will have an overall cost between $600 million and $1.6 billion depending on the chosen design. This project has the opportunity to reshape the urban landscape of the center city of Syracuse, and provide several hundred construction and engineering jobs during a multi-year process once construction begins.
How do the skills and education of the current workforce correspond to employment opportunities in the jurisdiction?
There are current available employment positions in Syracuse in a variety of industries. Health care and education are indeed the fastest growing industries in Syracuse, however dozens of open positions also exist in in finance, clean technology manufacturing, and environmental systems. The majority of these positions require education beyond a high school diploma, either a bachelor degrees, master degrees, or some other type of technical training. The current trend in these employment sectors is to have prior experience or graduate from an established educational program.

For those individuals that are able to graduate from an education program offered through a community organization, skills taught include workplace professionalism and life skills such as proper organization. Depending on the structure of the program, specific skills related to industry positions will be taught to provide individuals with experience they can apply in a full time career.

Local organizations that provide these courses have built partnerships with a number of employers that are seeking to hire additional employees. These programs provide a readily available workforce when they complete the requirements and are ready for a full-time position. The program time spans are generally shorter at 10-18 months compared to receiving a college degree at two or four years, and students are receiving skills training related to specific career fields, and spend much less than the average four-year college tuition. These mutually beneficial employment programs match employers with job seekers, many of them low income persons, in a manner that brings value to both the individuals receiving the training, but also the Syracuse economy and neighborhood level as well.

Describe any current workforce training initiatives, including those supported by Workforce Investment Boards, community colleges and other organizations. Describe how these efforts will support the jurisdiction’s Consolidated Plan.
Aligning job skills training with those who are seeking employment is vital to creating strong job candidates that will be successful in their careers and is a priority of the Department of Neighborhood and Business Development and the various organizations that serve as partners in this effort. In recent years new programs and partnerships have been created to address the job skills gap that exists and assist employers with hiring skilled and proficient applicants.

The Syracuse City School District (SCSD) now works with the Manufacturers Association of Central New York (MACNY) and Onondaga Community College to successfully be awarded a New York State Pathways in Technology Early College High School (P-TECH) grant. The program is focused on advanced manufacturing and serves 50 students a year for six years and serves as a bridge between secondary and post-secondary education and business for city school teenagers preparing to graduate. The program provides technical training and education using various resources within Onondaga Community College’s programs skilled trades. Other programs include consistent course offerings from CNYWorks, (the region’s workforce investment board), as well as the CNY Technology Development Organization and the Talent and Education Development Center at Syracuse University.

In recent years significant progress has been made in Syracuse through the WorkTrain and UpStart Programs through Northside Urban Partnership, a community organization focused largely on microenterprise growth and job skills training for Syracuse residents. Through the WorkTrain program, students complete training programs based on specific employment industries, such as the National Center for Construction Education and Research (NCCER) core curriculum for construction related employment.
skills. WorkTrain aligns the needs of job seekers in low income neighborhoods of Syracuse and has seen significant success in doing so, with a 90% program graduation rate and 85% job placement rate. The UpStart program works with potential entrepreneurs who seek to open their own business within Syracuse. Staff and other local organizations provide technical assistance and business seminars to provide successful financial and management strategies. The program also works with entrepreneurs to develop a comprehensive business plan, and conduct market research for the best information related to these plans.

These programs implemented by Northside Urban Partnership have been successful in their pilot phase, and will now be provided with Community Development Block Grant (CDBG) funding to expand the impact and program to accept new applicants. This CDBG funding will be used for the purpose of economic development designed to increase employment and establish new microenterprises in low income neighborhoods in Syracuse. These programs provide a vital benefit to the local economy of Syracuse, and meet the priority goal outlined in this Consolidated Plan to increase household wealth for low income individuals and families.

**Does your jurisdiction participate in a Comprehensive Economic Development Strategy (CEDS)?**
Yes, Syracuse participates in CEDS as described below.

**If so, what economic development initiatives are you undertaking that may be coordinated with the Consolidated Plan? If not, describe other local/regional plans or initiatives that impact economic growth.**

The Department of Neighborhood and Business Development (NBD) is developing innovative uses of federal funds for economic development and job creation in Syracuse. Among those strategies is the Syracuse Main Street program that provides funding and technical assistance for businesses and microenterprises located in neighborhood business corridors within the designated Neighborhood Revitalization Strategy Area (NRSA) areas. These businesses benefit from façade renovation and other aesthetic services to build a stronger customer base and increase revenue. The corridor projects also have long term benefits for the overall neighborhoods as a result of new attractive storefronts and preserved neighborhood character that may encourage new business growth along these vital commercial centers within low income neighborhoods.

Employment training and small business incubator programs are also being selected as a strategy for economic development, with programs that specifically focus on career fields in Central New York where employers are looking to hire, and connections are built between Syracuse residents who are seeking employment and companies that are hiring. Other programs focus on microenterprise assistance and startup businesses allow low income residents to acquire the skills and resources necessary to develop a successful business. These new businesses will be located directly within the NRSA, and their growth will lead to the hiring of additional neighborhood residents over time. These new microenterprises will also provide valuable services and create thriving business corridors that are within close proximity of low income neighborhoods.
**MA-50 Needs and Market Analysis Discussion**

*Are there areas where households with multiple housing problems are concentrated? (include a definition of “concentration”)*

The City defines “concentration” as any census tract in which:

1. The percentage of households with a particular characteristic is at least 20% age points higher than the percentage of that characteristic for the housing market area; or
2. The census tract’s total percentage of a particular characteristic exceeds 50% of its population.

According to the 2010 Census, Syracuse’s average for households suffering from one or more housing unit problems is at 44%. A concentration of these households can be found in 19 census tracts. Seventeen of those 19 census tracts are within Syracuse’s Neighborhood Revitalization Strategy Area (NRSA). Furthermore, according to the 2012 ACS, Syracuse’s average for households with a cost burden of 30% or more is at 44.5%. A concentration of these households can be found in 19 census tracts. Fifteen of those 19 tracts are within the NRSA and 12 overlap with concentrations of households with one or more housing unit problems.

*Are there any areas in the jurisdiction where racial or ethnic minorities or low-income families are concentrated? (include a definition of "concentration")*

Like many Northeastern industrial metropolitan areas, Syracuse and Onondaga County have experienced decades of suburbanization and “white flight” from the central city. Today, Syracuse is the ninth most racially segregated metropolitan area in the country. The level of hyper-segregation is particularly evident in the enrollment patterns at Onondaga County school districts. Syracuse is home to large concentrations of racial and ethnic minorities including a large concentration of foreign-born residents largely due to the settlement of refugees in the City. In addition, the City houses a larger percentage of individuals with disabilities and female headed households.

The Syracuse metropolitan area is one of the lowest performing cities in the country when looking at equality of opportunity based on race and ethnicity. Access to community assets is unevenly distributed geographically and across racial and ethnic groups. There are significant disparities in median household income and poverty levels between residents of Syracuse and residents of the surrounding towns. Significant differences exist within the city in median household income and poverty by race and ethnicity. There are also disparities in housing assets, with residents of Syracuse and racial and ethnic minorities facing lower rates of homeownership and higher housing cost burdens.

To better measure differences in access to opportunity, CNY Fair Housing’s *2014 Analysis of Impediments* used a series of opportunity indices to rank census tracts according to a variety of measures. Three indices were created to measure economic opportunity; educational outcomes, and housing and neighborhood opportunity. Across all three indices, racial and ethnic minorities lived in census tracts with low or very low opportunity at a disproportionate rate. Compared to Whites, African-Americans in Onondaga County are more than twice as likely to live in an area of low economic opportunity, four times more likely to live in an area of low educational outcomes, and three times more likely to live in an area of low housing and neighborhood opportunity. Hispanics are one and a half times more likely to live in an area of low economic opportunity, nearly three times more likely to live in an area of low educational outcomes, and nearly three times more likely to live in an area of low housing and neighborhood opportunity than Non-Hispanic Whites.
What are the characteristics of the market in these areas/neighborhoods?

In 2011, NBD received approval from the Department of Housing and Urban Development (HUD) for its Neighborhood Revitalization Strategy Area (NRSA) within the city. These boundaries were amended in the 2013-2014 Annual Action Plan to reflect the modified Syracuse Urban Renewal Area (SURA) adopted on November 27, 2012. This approved area encompasses the neighborhoods characterized by racial and low-income concentration as well as a concentration of households displaying at least one of the four problems defined by HUD. A copy of the SURA/NRSA Boundary Map is included as the Appendix C.

HUD defines an area of slum and blight as containing at least 25% of the following conditions:
1) Physical deterioration of buildings or improvements;
2) Abandonment of properties;
3) Chronic high occupancy turnover rates or chronic high vacancy rates in commercial or industrial buildings;
4) Significant declines in property values or abnormally low property values relative to other areas in the community; or
5) Known or suspected environmental contamination.

Within the NRSA boundary there are 17,702 residential properties. Of these, 4,903 (28%) properties within our designated NRSA area had one of the first four criteria, satisfying the 25% threshold to declare and establish an NRSA.

Are there any community assets in these areas/neighborhoods?

Within the 13 distinct neighborhoods that comprise the Neighborhood Revitalization Strategy Area, there are several community assets that serve as important anchors to the surrounding. These include schools (primarily elementary and middle schools), community centers, a network of parks and open spaces, neighborhood-based housing organizations, branch libraries, and many long-standing family-owned businesses.

Are there other strategic opportunities in any of these areas?

Within the Neighborhood Revitalization Strategy Area (NRSA), 70% of households have incomes at or below 80% of the HUD-Adjusted Median Family Income (HAMFI), the threshold in which the Department of Housing and Urban Development (HUD) determines low income. This compares to roughly 40% low income household rate in the Non-NRSA residential neighborhoods. All 31 census tracts in the NRSA, which includes 76,527 people, suffer from high poverty rates. Severe poverty (defined by a rate of 41% or higher) affects 17 of these 31 census tracts.

Due to the high percentage of low income households and individuals in the NRSA, as well as the aging and dilapidated housing stock that exists within this area, it is imperative that the City combines its housing revitalization efforts with activities that create meaningful employment opportunities for its residents.

Currently there are a number of agencies providing work and job readiness support that leads to more specific training the potential workforce within the NRSA. These workforce development efforts need to be coordinated and enhanced to ensure that the employment needs of local businesses are met. In addition, the commercial corridors that serve the neighborhoods within the NRSA must be sustained as they provide vital services.

Furthermore, the City needs to provide affordable housing opportunities for areas outside the NRSA to avoid concentration of poverty inside the NRSA.
STRATEGIC PLAN

SP-05 Overview

The following Strategic Plan identifies funding priorities and program goals in which the City will invest over the next five years. The goals were developed based upon public and key stakeholder input, community demographics and housing needs, beginning with an investment strategy within areas of severe disinvestment.

SP-10 Geographic Priorities – 91.215 (a)(1)

Identify the neighborhood boundaries for this target area.
In order to better serve the needs of specific areas of the city, Syracuse has designated two areas for the Neighborhood Revitalization Strategy Area: the Northeast Area and the Southwest Area. The boundaries follow along the Syracuse Urban Renewal Area boundaries. In 2011 and 2013, the Mayor and Common Council approved updates to the Urban Renewal Area in Syracuse. Through the Fourth Annual Action Plan 2013-2014, the City amended the boundaries of its previously approved Neighborhood Revitalization Strategy Area (NRSA) to reflect the amended boundaries of the City’s Urban Renewal Area. By doing so, the enhanced flexibility allowed in the administration of Community Development Block Grant (CDBG) funds in the NRSA will be matched by the enhanced regulatory tools available, provided through the Syracuse Urban Renewal Agency (SURA).

The NRSA consists of two primarily residential areas of the city that meet the threshold for low-moderate income (LMI) residents. The Northeast strategy area covers much of the north and northeast sides of the city, including all or part of the following neighborhoods: Court-Woodlawn, Washington Square, Northside, Prospect Hill, Hawley-Green, Lincoln Hill, Sedgwick, and Near Eastside.

The Southwest strategy area covers much of the west, southwest, and south sides of the city, including all or part of the following neighborhoods: Park Ave., Near Westside, Skunk City, Southwest, Southside, Elmwood, and Brighton. This HUD-approved NRSA offers the City enhanced flexibility in undertaking economic development, housing, and public service activities with its CDBG funds.

Include specific housing and commercial characteristics of this target area.
The Northeast and Southwest areas are two areas plagued with many social and economic challenges. The Northeast area is characterized by a growing Asian immigrant population currently comprising 11.8% of the population. Also, 12.4% are foreign born. Also the area struggles to attract and maintain homeowners as the current homeownership rate is only 27.1% compared to a 41.8% city-wide rate.

The Southwest area has been affected by different market forces resulting in an alarmingly high vacancy rate at 37.1% compared to a city-wide rate of just over 18%. Deep economic challenges have resulted in a 16.2% unemployment rate with nearly a third of the adult population without a high school diploma. Coupled with these challenges, children are also adversely affected with 62.6% of the children living below the poverty level.
How did your consultation and citizen participation process help you to identify this neighborhood as a target area?
The boundaries of the NRSA mirror those of the recently revamped Syracuse Urban Renewal Agency (SURA), which gives the City more flexibility and authority in implementing its redevelopment strategies. As part of the adoption of the SURA plan in 2010, the Department of Neighborhood & Business Development (NBD) outlined the contents of the SURA plan and the justification for establishing the SURA boundaries. Much like the NRSA, the adoption of SURA's plan identified a nearly coterminous area to that being proposed as an NRSA as a blighted area so that SURA might more flexibly address issues of declining property values and abandonment. During this process, NBD consulted with various community groups, including TNT (Tomorrow's Neighborhoods Today) groups, which act as neighborhood advisory committees, and other neighborhood organizations.

The plan was also presented to the City's housing partners, including Home HeadQuarters, Jubilee Homes, Northeast Hawley Development Association (NEHDA), and Syracuse Model Neighborhood Corporation (SMNC). Community input was gathered on these strategies at this time. Also in 2010 (and updated in 2012), NBD developed and published the City's Housing Plan, the most proactive to date, which established the City's priorities for housing development and explained the various tools and activities the City will use to implement these priorities. As with SURA, this housing plan was presented to TNT groups throughout the city and then adopted by the Syracuse Common Council. As the City begins to the implement its NRSA strategies, NBD will continue to consult with community groups, housing agencies, and other relevant stakeholders. These groups include:

- Danforth-Pond-Butternut Task Force
- FOCUS (Forging Our Community's United Strength)
- Home HeadQuarters
- Housing Visions Unlimited
- Interfaith Works Center for New Americans
- Jubilee Homes of Syracuse, Inc.
- La Liga (Spanish Action League)
- Near Westside Initiative
- Neighborhood Efforts West (NEW)
- Northeast Hawley Development Association (NEHDA)
- Northside UP (Urban Partnership)
- Southeast Gateway Development Corporation
- Syracuse Model Neighborhood Corporation (SMNC)
- TNT Area 2 – Westside
- TNT Area 3 – Southside
- TNT Area 5 – Eastside
- TNT Area 7 – Northside
- Washington Square Task Force

Identify the needs in this target area.
The primary need of the NRSA is the development of mixed income neighborhoods as the concentration of poverty in these areas is rising at an alarming rate. Mixed income neighborhoods will begin to attract the services necessary for daily living while spurring investment in an aging housing stock.

Place-based redevelopment is also needed to address the blighting influences, a result of the disinvestment that has occurred in these areas over the past several decades.

Homeowners in the NRSA need support in maintaining their investments, and quality, affordable rental housing must be accessible to all low-income rental households.

Finally, work and job readiness programs need to be available and tied into the larger workforce development network to allow residents of the NRSA to become self-sufficient and build household wealth.
What are the opportunities for improvement in this target area?

Empowerment Strategies | Housing & Neighborhood Development
In 2010, Syracuse published a Housing Plan that included principles for housing production and neighborhood development. These principles are:
- **Preserve**: Rejuvenation of Syracuse’s housing stock through repair, improvement and rehabilitation of existing buildings.
- **Build**: Promotion of appropriate densities, and the diversification and improvement of the housing stock in Syracuse through rehabilitation of existing housing stock and new construction.
- **Assist Households**: Encouragement of residents to remain in Syracuse and invest in the upkeep and improvement of their homes.
- **Improve Image**: Promotion and enhancement of the image of Syracuse.

While these principles are applicable citywide, they are particularly relevant to the NRSA neighborhoods. To ensure that these principles are followed, the City has established the following housing objectives:
- Ensure adequate supply of decent, affordable housing options for homeowners and remove unnecessary barriers to homeownership;
- Ensure adequate supply of decent affordable housing options for renters;
- Assess and manage the growing number of vacant properties and reduce blight in the City Infrastructure.

The following goals and strategies will be pursued through inter-departmental efforts to ensure that the public realm and infrastructure reflect a commitment to revitalization in the NRSA:
- Align the City’s capital improvement budget with neighborhood planning efforts to leverage planned investment;
- Expand recreation options within the NRSA and work to connect the City’s open space network.
- Improve safety and condition of the alternative transportation (walking and biking) network throughout the NRSA; and
- Improve storm water management and prevent combined sewer overflows within the NRSA.

Public Safety.
The following objectives will be pursued jointly by City departments, including NBD, the Police, and the Mayor’s Office, in collaboration with nonprofits and neighborhood groups.
- Improve the relationship between police and residents;
- Decrease violent and “quality of life” crime rates in the NRSA;
- Strategic code enforcement;
- Coordinate Code Enforcement efforts with revitalization strategies;
- Increase quality of rental housing and improved relationship between the city, landlords, and tenants;
- Coordinate court-ordered demolitions with neighborhood plans.

For a detailed description of the housing programs and coordination between the Department of Neighborhood & Business Development and other City Departments and local organizations the City has implemented or will implement in the NRSA to meet these objectives, please refer to Syracuse Neighborhood & Revitalization Strategy Area Plan (2011).

Are there barriers to improvement in this target area?
The primary barrier is the perception surrounding the target area as a low-income area that experiences a disproportionate share of criminal activity, vacant and distressed properties, and overall disinvestment. Furthermore the housing stock in this area has the oldest homes not just in the city, but in the region, making attracting investment very difficult.
**General Allocation Priorities**

Of all households within Syracuse’s Neighborhood Revitalization Strategy Area (NRSA), 70% earn income levels at or below 80% of the Area Median Income (AMI), the threshold for which HUD determines low-to-moderate-income. This compares to a roughly 40% low income household rate in the Non-NRSA residential neighborhoods. Many households within all 31 census tracts in the NRSA suffer from high poverty rates (20%). Severe poverty (defined by a rate of 41% or higher) affects 17 of these 31 census tracts.

Due to the high percentage of low income households and individuals in the NRSA as well as the aging and dilapidated housing stock that exists within this area, it is imperative that the City combines its housing revitalization efforts with activities that create meaningful employment opportunities for its residents. While the most significant amount of the Community Development Block Grant (CDBG), HOME and Emergency Solutions Grant (ESG) will be spent on activities within the NRSA, the City recognizes the importance of providing affordable housing opportunities outside of the NRSA to promote housing choice and healthy, mixed-income neighborhoods.

<tr>
<td>TBRA for Non-Homeless Special Needs</td>
<td>N/A</td>
</tr>
<tr>
<td>New Unit Production</td>
<td>For many years the real estate market in Syracuse has experienced limited private investment in the construction of new housing unless public subsidies were involved. This is especially challenging in high poverty neighborhoods where there is little return on investment for such development. The City will continue to provide assistance loans in the coming five years to provide affordable housing and homeownership opportunities until significant shifts in the market take place. One sign of the improving housing market in Syracuse is the Xavier Woods development that is currently underway in the Outer Comstock neighborhood that will result in the construction of 33 new single family homes in 2015. This will be one of the first private, residential neighborhood development sites built within Syracuse in decades. These homes are being constructed in a largely stable area. However, there is still a strong need for the construction of quality, affordable single family and multi-unit structures in areas with high opportunity for low-income residents.</td>
</tr>
<tr>
<td>Rehabilitation</td>
<td>Assistance to agencies leading the rehabilitation of properties in Syracuse will continue to take place in the coming five years, as neighborhoods struggle to maintain affordable rental housing and limited opportunities for homeownership. Rehabilitations will largely be focused within the designated NRSA areas, and also in specifically targeted locations outside of these designated areas. Properties rehabilitated outside of the NRSA will occur in more stable neighborhoods where a small number of blighted properties negatively impact the surrounding property values and character of the neighborhood. The next five years will bring a shift to providing assistance to the rehabilitation of two-family structures into affordable rental properties.</td>
</tr>
<tr>
<td>Acquisition, including preservation</td>
<td>Over the last two years the number of acquisitions by Syracuse has decreased dramatically due to the creation of the Greater Syracuse Property Development Corporation, also known as the Syracuse Land Bank. The Land Bank has acquired over 500 properties and currently owns more than 300 in Syracuse. This nonprofit agency is directing investment into neighborhoods with high poverty rates, and facilitating the redevelopment of dozens of properties in Syracuse in 2015. These include single and two-family homes in various neighborhoods as well as commercial buildings in the central business district that will be preserved and rehabilitated into mixed-use buildings. The City plans to continue this partnership in the coming years and coordinate in the provision of rehabilitation of vacant and dilapidated properties.</td>

Table 55 - Anticipated Resources
Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied.

Every effort is made in the allocation of federal funds to leverage these funds with other sources of funding. No agency receives all of its funding from federal funds. Often several other sources of funds are used for each activity in this plan. Private funding is the dominant source of leveraged funds.

The City has turned to the State of New York to provide leverage primarily through the Low Income Housing Tax Credit Program. The leveraging of federal HOME dollars toward LIHTC projects has become a primary strategy for generating the maximum number of quality affordable rental units per Home dollar allocated. Other State programs such as State HOME and Affordable Housing Corporation (AHC) funding are used to leverage the federal funds further. Each program ensures that no one source of funding is bearing the entire burden of subsidy resulting in more successful projects.

Both the Community Development Block Grant (CDBG) and HOME programs are exempt from the match requirement. Emergency Solutions Grant (ESG) Match requirements are 100% from non-ESG sources. Match sources are required to be listed on the agency budget. These funds come from federal funds, state government, local government, private funds (foundation or in-kind) and program income. All agencies have a 1:1 match to ESG funding and provide documentation of existing matching funds to ensure compliance.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan.
There are several municipally-owned buildings that serve as community centers through which many of the public services funded through this plan are provided. These facilities offer a wide range of programming to meet the needs of families within their catchment area. The City provides use of these facilities at no cost to the nonprofit community centers to allow for greater access to these services.

**SP-40 Institutional Delivery Structure – 91.215(k)**

Explain the institutional structure through which the jurisdiction will carry out its consolidated plan including private industry, non-profit organizations, and public institutions.
The institutional delivery structure can best be depicted through a series of matrices illustrating delivery systems in the following areas: Homeless and Housing Vulnerable Relief Network; Homeless Outreach Network; Affordable Rental Housing Delivery Network; and the Syracuse Wealth Building Network. Infographics of these networks appear on the following pages. For a complete listing of entities, their roles and geographic areas served, please see Appendix D.

Assess the Strengths and Gaps in the Institutional Delivery System
Syracuse has three networks of partners organized to address the affordable housing, homelessness and economic development needs. These networks are comprised of funded agencies as well as other community partners that do not receive direct financial assistance through the City directly.

Home HeadQuarters, Inc. (HHQ) is the centerpiece of the Affordable Housing Network. HHQ is both a Community Development Financial Institution and a leading producer of affordable housing directed primarily toward current and prospective owner-occupants as part of the NeighborWorks America® national organization. They are the primary lender of home improvement funds in Syracuse as well as a premiere housing developer. Their capacity in both areas allows them to partner with smaller
neighborhood-based organizations to address the specific housing needs of each neighborhood. These essential neighborhood-based organizations work closely with residences and stakeholders to develop neighborhood plans that are carried out in conjunction with the Department of Neighborhood and Business Development and HHQ.

The rental component of the affordable housing network is primarily addressed by three local organizations: Housing Visions Unlimited, Christopher Community and the Syracuse Housing Authority, which has also transitioned into the development of rental housing. This is achieved primarily through the Low Income Housing Tax Credit (LIHTC) Program which typically constructs and rehabilitates roughly 100 affordable rental units a year.

The Homeless Service Provider Network is described in detail in the market analysis portion of this report as well as in detail in Syracuse’s Continuum of Care (CoC) Application to the Department of Housing and Urban Development (HUD). However one gap to be fortified is street outreach. Expansion of programs are being developed to address the hard to service unsheltered population resisting the services available to them.

There is a great need to tie together individual efforts that currently exist to better position our residents for employment. This is necessary to understand where the gaps exist within the system and to build upon those efforts that are working. The Workforce Investment Board (WIB) is the core of this network that provides training to displaced workers. However, the weakness in this process rests in connecting those who receive training with employment opportunities.

There are many training programs throughout Syracuse (i.e. construction, food service, GED certification, life skills training, etc.) in need of coordination and promotion to allow an individual to connect with the appropriate training opportunities they desire.

Along with continuing and improving local workforce development programs, the Syracuse Economic Development Corporation is piloting its first commercial corridor re-development program so as to overcome a previous gap in neighborhood commercial revitalization.

See below for infographics on the following Networks: Wealth Building Network, Affordable Rental Housing Network, and the Homeless and Housing Vulnerable Network.
A downtown outreach team is currently being formed in town neighborhood. More information to come.

A downtown outreach team is currently being formed in town neighborhood. More information to come.

Emergency shelter and transitional housing

The Rescue Mission’s Homeless Intervention Services

These individuals are formed and staff have been able to assist in sheltering individuals. Through these interventions, relationships and trust are built through community resources to enable homeless individuals to access these needs, basic needs and referrals.

In My Father’s Kitchen provides essential outreach services.

Shelter based, transitioning them to a place of stability until they are able to find appropriate housing services. Help in securing the need for services and shelter conscious choice to stay on the streets and are able to access transitional or emergency services. Help in securing the need for services and shelter.

The Point in Time (PIT) count from January 22, 2014 showed seven unsheltered homeless individuals. During the warmer months, an estimate...
Describe how the service delivery system including, but not limited to, the services listed above meet the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth)

Mainstream services are made available to homeless persons and/or persons living with HIV/AIDS through a single point of access using a coordinated assessment process. The Onondaga County Helpline, a human service information and referral line is available on a 24 hour basis. Using this coordinated assessment process, allows community partners to better match individuals and families to services. It also provides for better coordination among providers. Once individual or family need has been assessed, referrals will be made to the appropriate providers. Referrals are also accepted from one service provider to another. Community service providers respond in a timely manner to all referrals. The Homeless Management Information System (HMIS) system plays a key role in facilitating the coordination among agencies, mainstream resources and other support services in assessing and providing for the needs of the homeless or housing vulnerable individuals and families.

Once individuals and families have been connected to needed services, the agencies conduct their own intake process and have access through HMIS to all client information. Supported case management services are often needed to help the individual or family navigate through the complex service delivery system to connect with services such as adequate healthcare, mental health, housing, substance abuse, employment or services for unaccompanied youth, persons living with HIV/AIDS or Veterans.

It is the individual or family's choice as to whether or not they choose to follow up with the recommended referrals. Case managers contact these individuals many times in hope of an eventual acceptance of services. Referrals are tracked in the HMIS system and case managers work with willing individuals and families to identify barriers towards success whether it is finding adequate health care, mental health or substance abuse treatment, housing or employment.
Describe the strengths and gaps of the service delivery system for special needs populations and persons experiencing homelessness, including, but not limited to, the services listed above.

Our strongest strength in our community's service delivery system is its participation in a well-functioning Continuum of Care (CoC), the Homeless and Housing Coalition (HHC). Nearly 40 community agencies actively participate and collaborate to serve the special needs populations and persons experiencing homelessness. Services are made available through a single point of access by using the Onondaga County helpline, now by just dialing 211 on a 24 hours basis. To prevent duplication of services and to better serve the individual, all participating agencies use the Homeless Management Information System (HMIS) to document services. This collaborative process provides the most efficient use of our community resources.

The most significant gap in service delivery for the special needs population and those persons experiencing homelessness is the lack of accessible and affordable housing units. There are too few housing units that allow those with mobility impairments with easy access. The older housing stock often has too narrow hallways, inaccessible bathrooms, and stairs that make it impossible for persons with physical disabilities to navigate.

Also, there is some discrimination among local landlords in the private sector that refuse to accept Section 8 or Public Assistance vouchers which makes it more challenging for low income persons to be housed.

Provide a summary of the strategy for overcoming gaps in the institutional structure and service delivery system for carrying out a strategy to address priority needs.

Syracuse uses Community Development Block Grant (CDBG) and HOME funds to assist in the creation and rehabilitation of quality affordable housing units. These units are targeted for vulnerable and low income populations that experience a number of housing problems from high cost burden to overcrowding. The activities that receive funding assistance are used to increase the number of quality affordable housing units that are safe, contain zero housing problems or barriers that limit their ability to live in these properties.

In addition to the elimination of physical barriers through the creation of ramps to residential structures, other barriers can exist that limit accessibility to fair housing choice for housing vulnerable populations. There is currently a local effort underway by CNY Fair Housing to create legislation that will prevent source of income discrimination so more affordable and privately owned units will open up to Section 8 voucher holders. Syracuse works closely with CNY Fair Housing to identify and address issues related to fair housing, which includes the recent Analysis of Impediments report that was produced to provide new information on the impact these issues have in Syracuse and Onondaga County. The findings identified in this report will be used for future policies and funding decisions for housing projects, the level of opportunity they will provide to low income populations, and the impact they will have on the surrounding neighborhood.
**SP-45 Goals Summary – 91.215(a)(4)**

**PRIORITY GOAL: INCREASE THE WEALTH OF HOUSEHOLDS**

**Needs Addressed:**
- Addressing aging housing stock
- Access to traditional financing
- Opportunities for youth development
- Locally-based commercial services and amenities
- Economic opportunities for special needs population

**Geographic Area:** City of Syracuse, Targeting the Neighborhood Revitalization Strategy Area (NRSA)

**Goal Outcome Indicator (2015-2019):**
- Public service activities other than Low/Moderate Income Housing Benefit: 16,000 Persons Assisted
- Public service activities for Low/Moderate Income Housing Benefit: 760 Households Assisted
- Facade treatment/business building rehabilitation: 12 Business
- Homeowner Housing Rehabilitated: 35 Household Housing Units
- Direct Financial Assistance to Homebuyers: 955 Households Assisted
- Businesses assisted: 65 businesses

**Estimated Funding for this Goal (2015-2019):** $13,355,238 in Community Development Block Grant

**PRIORITY GOAL: ELIMINATE BARRIERS TO HOUSING OPPORTUNITY**

**Needs Addressed:**
- Provision of quality, affordable housing
- Access to traditional financing
- Addressing barriers to housing opportunity

**Geographic Area:** Syracuse, New York

**Goal Outcome Indicator (2015-2019):**
- Public service activities for Low/Moderate Income Housing Benefit: 1,825 Households Assisted
- Rental units constructed: 80 Household Housing Unit
- Rental units rehabilitated: 420 Household Housing Unit
- Homeowner Housing Rehabilitated: 25 Household Housing Unit
- Tenant-based rental assistance / Rapid Rehousing: 2,725 Households Assisted
- Homeless Person Overnight Shelter: 800 Persons Assisted
- Homelessness Prevention: 2,300 Persons Assisted
- HIV/AIDS Housing Operations: 500 Household Housing Unit

**Estimated Funding for this Goal (2015-2019):** $3,575,801 in Community Development Block Grant; $1,000,000 in HOPWA; $3,625,000 in HOME; and $2,000,000 in Emergency Solutions Grant.
SECONDARY GOAL: PROMOTE COMMUNITY ENGAGEMENT AMONG SENIORS

Needs Addressed:
- Community engagement opportunities for seniors

Geographic Area: Syracuse, New York (targeting the Neighborhood Revitalization Strategy Area)

- Public service activities other than Low/Moderate Income Housing Benefit: 1,700 Persons Assisted

Estimated Funding for this Goal (2015-2019): $1,255,143 in Community Development Block Grant

SECONDARY GOAL: CREATING HEALTHY AND SUSTAINABLE HOMES

Needs Addressed:
- Provision of quality, affordable housing
- Addressing aging housing stock

Geographic Area: Syracuse, New York (targeting the Neighborhood Revitalization Strategy Area)

- Public service activities other than Low/Moderate Income Housing Benefit: 1,700 Persons Assisted

Estimated Funding for this Goal (2015-2019): $1,813,818 in Community Development Block Grant; $875,000 in HOME
SP-50 Public Housing Accessibility and Involvement – 91.215(c)

Is there a need to increase the number of accessibility units (if required by a Section 504 Voluntary Compliance Agreement)?

According to the 2012 ACS 5-year estimates, 18,411 renters suffer from a cost burden of 30% or more and 5,603 suffer from a severe cost burden of 50% or more. Individuals who cannot find affordable housing options through the above opportunities must find it within the private market.

Table 57

Describe activities to increase resident involvements.
The Syracuse Housing Authority through its affiliate Neighborhood Innovations, Inc. has already built one tax-credit development, and is seeking to do more. At the same time SHA will be using the Department of Housing and Urban Development (HUD) Rental Assistance Demonstration (RAD) program in order to project-base some public housing and generate equity for major capital needs. Other initiatives will seek to rebuild neighborhoods and provide more mixed-use and mixed-income development activities.

At this time, no City owned land is sought, and with the advent of the Greater Syracuse Land Bank, most probably that would be the avenue to land acquisition.

The public housing agency is not designated as troubled under 24 CFR part 902.

SP-55 Barriers to Affordable Housing – 91.215(h)

Describe the barriers to affordable housing and the strategy to remove or ameliorate them.
Public, assisted and block grant funded housing are the most direct way quality, affordable housing is provided to low-income households. Of the households with at least one housing problem, 19,320 or 77.6% are renters suffering from a housing cost burden. For low income renters, high housing cost burdens places financial strain on a family's or individual's ability to use its resources on furthering their education, finding reliable transportation or anything more than the bare necessities.

Syracuse’s affordable rental housing delivery network helps to relieve this burden through both project-based and tenant-based rental assistance. Project-based rental assistance designates specific apartment units as affordable for income-qualified and special needs populations. Tenant-based rental assistance provides subsidies to private property owners (landlords) on behalf of the tenant, allowing the tenant the choice of affordable housing in the private market. Each works to relieve low and extremely low income individuals and families of excessive cost burdens so as to have the stability necessary to build personal wealth.
Syracuse Housing Authority (SHA) maintains seven Asset Management Projects ranging from 153 to 609 residential units. These include some densely populated family developments and eight high rise buildings (from 7 to 22 stories tall). The developments are located primarily on the Southside and Near Westside of Syracuse, with pockets of units located elsewhere in the city.

With resources ranging from a Grants Department and a number of service coordinators, SHA seeks to improve the economic, self-sufficiency, and educational lives of all residents. Numerous developments have programs through local partners which focus on education, health, financial self-sufficiency, and jobs training.

Due to the age of most SHA properties, there are very few three to five bedroom apartments in the overall stock. These developments were built at a time for work-force housing and starting families, and also did not have the person/bedroom requirements that Department of Housing and Urban Development (HUD) now has for overcrowding.

These units have undergone modernization and updates over the years and have had some energy efficiency upgrades. However, more capital work is necessary in order to keep all developments viable for the long term. There is a growing need for renovations, in particular for the infrastructure located below ground (water and sewer lines).

On a per capita basis, Syracuse has a large supply of public housing. However, as the city has seen an increase in the concentration of poverty, SHA has found their waiting lists growing to levels where it can take up to six years to be eligible for a unit. Furthermore, dense levels of poverty within complexes of 400+ units can become problematic. Future capital improvements may include plans to reduce the density of these large scale housing projects.

Recipients of public assistance continue to face difficulties in finding decent affordable housing outside of public housing. The majority of Section 8 vouchers used within the city in low opportunity neighborhoods often because it is the only area where landlords accept them. In a survey by CNY Fair Housing, social service providers identified discrimination against Section 8 and Public Assistance Recipients as the number one barrier to finding housing of the clients they work with.¹

There is a concentration of Tenant Based Rental Assistance (TBRA) and other forms of assistance within areas of low median household income. It is the City's intent to provide affordable housing opportunities throughout the entire city so as to avoid concentration of poverty.

In total, there are a little over 5,500 project based subsidized units and under 3,500 tenant-based subsidized units in Syracuse making up 8.5% of the total number of housing units. With 18,411 renters suffering from a cost burden of 30% or more and 5,603 suffer from a severe cost burden of 50% or more, many turn to the private market for affordable housing opportunities (ACS 2012). However, with an aging housing stock,² investor owners find it challenging to keep their units affordable while also keeping up with property maintenance costs. Although there are many committed local investor owners and owner-

¹ The Analysis of Impediments to Fair Housing: Syracuse and Onondaga County, NY 2014 (page 8)
² Nearly 60% of all Syracuse properties built before 1949 and less than 6% built after design and construction standards were established in 1991, most units require investment
occupants throughout Syracuse, this challenge has resulted in disinvestment and in some cases, irresponsible ownership.

According to The Syracuse Division of Code Enforcement records, on February 20, 2015, 5,653 (13.3%) Syracuse parcels had at least one open code violation and 2,040 properties (4.8%) were listed as vacant. On the same day, using The Syracuse Department of Finance’s records, 2,679 (6.3%) parcels were found to be tax delinquent two or more tax years.

For most Americans, homeownership is pinnacle in building wealth. Creating neighborhoods with strong property value and opportunity for homeownership is the centerpiece to the Syracuse Department of Neighborhood and Business Development’s strategy to alleviate the need for publically subsidized affordable housing. Increasing the wealth of households within the Neighborhood Revitalization Strategy Area (NRSA) through foreclosure prevention, 1% loans and exterior renovation assistance as well as incentivizing and affirmatively marketing homeownership opportunities within these areas will increase opportunity for the current residents within this high-need area.

Since 1996, the largest single financial commitment in the City’s Action Plan has been allocating federal funds for home improvement projects that are critical to keeping low-income homeowners in their homes. This has resulted in more than 5,000 low-income owner-occupants able to make necessary investments in their homes, affecting 20% of all owner-occupants in the City. More than any other program, the Home Improvement – Urgent Care program administered by Home HeadQuarters has helped maintain the supply of affordable housing in the city.

In addition, the HOME program annually supports the rehabilitation and/or new construction of quality affordable rental units at a rate of about 50 to 100 units per year. Over the same time period, this has resulted in approximately 1,350 high quality affordable rental units brought online to address the housing needs of low-income renters.

**SP-60 Homelessness Strategy – 91.215(d)**

**Describe how the jurisdiction reaches out to homeless individuals (especially unsheltered persons) and assesses their individual needs.** Reaching out to homeless persons and assessing their individualized needs is being done through a coordinated assessment and referral system. This assessment and referral process assist individuals in finding services which help identify health and behavioral health issues and establish barriers to permanent housing as well as employment. The Onondaga County Helpline, a human service information and referral system is used as a single point of entry for all those needing housing services. This helpline can be accessed 24 hours per day. All agencies that are a part of the Homeless Housing Coalition’s Continuum of Care participate and gather the same information which is used to assess and identify the individual’s needs. Direct referrals are also accepted from one service provider to another, using the “no wrong door” policy, making easy access for all needing services. The Homeless Management Information System (HMIS), which plays an integral part in facilitating the coordination among agencies, is where all client information is tracked.

Reaching out to unsheltered persons is done through street outreach services. Service providers meet the unsheltered individuals where they are at building supportive and positive relationships. Conversation begins when distributing basic needs such as food, water, blankets, gloves, hats etc. Outreach workers
assess the homeless individual’s needs and encouragement is given to accept services. All pertinent information is captured in HMIS.

**Address the emergency and transitional housing needs of homeless persons.**

Table 58
Annual Homeless Assessment Report (AHAR) October 1, 2013 - September 30, 2014

**How does the jurisdiction help homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again?**

Helping homeless persons (especially chronically homeless) transition to permanent housing and independent living will be done through supportive services which include financial assistance, relocation assistance, prevention efforts and street outreach. These high priority services help make the transition to permanent housing and independent living effective. Developing skills and strategies that address personal barriers to successful permanent housing is crucial in preventing homelessness again. Assistance with relocation as far as finding actual affordable housing units and/or advocating with reliable landlords are often necessary. Case management and follow up case management efforts are needed to assist individuals or families in maintaining and/or locating affordable housing. Financial assistance may be needed for security deposit, subsidies or help with rental payments and/or utilities. This is especially true for homeless youth when upon intake 90% are unemployed, uneducated and unable to arrange for income of any kind. This financial assistance helps all homeless or chronically homeless individuals’ transition from shelters to permanent housing at a much faster pace. The goal is to get homeless individuals and families housed first while receiving support services to help overcome housing barriers. The Department of Neighborhood and Business Development is committed to supporting programs whose mission it is to aid homeless or chronically homeless families and individuals with homeless prevention efforts as well as rapid rehousing and street outreach support services.

**How does the jurisdiction help low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families who are likely to become homeless after being discharged from a publically funded institution or system of care, or who are receiving assistance from public and private agencies that address housing, health, social services, employment, education or youth needs?**

The local Discharge Planning Committee (DPC) actively collaborates with institutional care providers and monitors discharge outcomes. The Continuum of Care (CoC) has contributed to the development of OnCare, a System of Care for youth with serious emotional and behavior problems. The DPC members participate in monthly OnCare meetings. OnCare operates ACCESS, a multi-disciplinary team involving mental health, Juvenile Justice, Children’s Division Child Welfare staff, and Parent Partners. ACCESS locates services and safe housing for participants.

A variety of initiatives have been developed to assist in preventing homelessness whenever possible. Specifically, “in-reach coordination” occurs when Health Home Case Managers visit area inpatient mental
health and CD units on a weekly basis to engage and assist with the discharge planning prior to discharge and connect those in need to appropriate support services. In-reach case managers also connect with people who are going to court for discharge despite not having a place to live. The DPC partners with NYS Department of Correction and Community Supervision (DOCCS) to address barriers to parolees accessing housing. Cross System Strategic Planning meetings are held for high need individuals. Individualized plans are developed for high risk parolees. The Discharge Planning Committee (DPC) also has collaborative relationships with key staff at various area hospitals. The DPC chairman assists with plans of difficult discharges for clients with co-morbid conditions and behavioral health issues. Lastly, the county and state funds fifty case management positions to assist youth in transitioning out of the foster care system.

Ongoing case management services and subsidies are vital to the success of low income individuals and families in staying housed. Support for rapid-rehousing financial assistance and follow up case management is a priority.

**SP-65 Lead-based Paint Hazards – 91.215(l)**

**Describe the actions to address lead-based paint hazards (LBP) and increase access to housing without LBP hazards.**

Through grant funding from the Department of Housing and Urban Development’s (HUD) Office of Lead Hazard Control and Healthy Homes (OLHCHH) and match funding from the Syracuse Department of Neighborhood and Business Development, the Syracuse Lead Program is able to fulfill its multifaceted mission. The mission is to (1) develop lead safe housing in low- to very-low income target areas; (2) to decrease the number of children with elevated blood levels; (3) to improve the environments of families residing in Syracuse; (4) and the continued education to all City residents about the effects of lead poisoning and prevention.

**How are the actions listed above related to the extent of lead poisoning and hazards?**

With approximately 150 units assisted each year by the Syracuse Lead Program, occupied by low- to very-low income families, the Syracuse Lead Program’s actions to reduce lead hazards and educate residents will directly assist to decrease the extent of lead poisoning and the number of hazards present in housing in Syracuse. Each unit receiving lead hazard reduction work provides a safer environment, ultimately reducing the probability of a child being affected by lead poisoning.

**How are the actions listed above integrated into housing policies and procedures?**

For a fee, determined by the Common Council, the Syracuse Lead Program offers Lead Hazard Screens, Lead Inspections or combined Lead Inspection/Risk Assessments and Lead Clearances for non-profit housing agencies using federal funding for rehabilitation. The Syracuse Lead Program offers assistance under federal regulations for remediation of lead based paint hazards during renovation and repair for any entity utilizing federal funds to ensure all requirements are met.
SP-70 Anti-Poverty Strategy – 91.215(j)

Describe the jurisdiction's goals, programs and policies for reducing the number of poverty-level families.

The Syracuse Department of Neighborhood and Business Development (NBD) has instituted a number of initiatives to alleviate the poverty status for residents who live in this community. These goals and initiatives are centered on the city's 2040 Comprehensive Plan, which serves as an outline for the future of the community. A number of goals align between the comprehensive and consolidated plans, in areas such as neighborhood revitalization and economic development. Coordinating strategies around these areas will create the best outcome for city residents that are seeking employment and to provide for their families. Reducing the poverty level among Syracuse households involves the creation of new economic opportunities and a variety of ways to accumulate wealth.

NBD is assisting with a number of economic revitalization projects that are ongoing or expected to begin in the coming year, which include the Inner Harbor project, a $350 million mixed-use development that will include residential, commercial, and educational space on the site of a former barge canal used during the time of the Erie Canal. The site is within one half-mile of Downtown Syracuse and a location bordering the city's poorest census tracts within both the Southwest and Northeast Neighborhood Revitalization Strategy Areas (NRSA). The Hotel Syracuse, an existing ten-story vacant hotel is set to undergo a $60 million redevelopment beginning in spring 2015, and is located within one half-mile of the Southside and Southwest NRSA. Elected officials and community leaders are working to ensure that city residents living in these neighborhoods will make up a substantial part of the labor force working on these projects, both during and after their completion.

Additionally, NBD will actively seek to contract 6% and 9% of the overall project contract expenses to Minority and Women-Owned Businesses enterprises (MWBE) respectively throughout the jurisdiction. This policy allows these MWBE firms to expand their work opportunities and hire additional employees to accommodate larger-scale projects.

NBD is also increasing investment in neighborhood commercial corridors, through the advancement of the Syracuse Main Street program, which is currently providing funding to improve two commercial corridors located within the designated NRSA. The program is designed to provide funding for storefront and façade improvements to qualified, existing businesses in order to enhance the aesthetics of the business and overall corridor, increase the customer base and expand the capacity of the businesses to hire additional employees. The Main Street program is estimated to assist four to six businesses in each corridor.

NBD is working with a number of community organizations to provide technical assistance to micro-enterprises, startup businesses, and job training programs that empower entrepreneurs and others seeking employment to acquire the skills necessary to grow their businesses or become qualified job candidates to provide for their families. The majority of these programs are strategically located within the urban core and central business district, which are among the most accessible by public transportation. This allows technical and employment resources to be available for all city residents, regardless of income and geographic location.

There is also an opportunity to alleviate poverty for families by investing in the creation of more affordable rental housing units. Reducing the housing burden for families in Syracuse will increase the expendable
income for residents to purchase other necessary items for their families. NBD also seeks to promote the opportunity of homeownership to increase the number of owner-occupied housing units within the city’s jurisdiction. Due to the depth of research that reveals the benefit to homeownership, including reduced crime, higher education rates, and increased residential investment, city officials work with a number of housing organizations to improve the accessibility to owning a home in the city. This includes a number of financial literacy and homebuyer education courses and down payment assistance programs, to increase the accessibility for low- to moderate-income families and individuals to own their own home.

**How is the jurisdiction’s poverty reducing goals, programs, and policies coordinated with this affordable housing plan?**

The Syracuse Department of Neighborhood and Business Development (NBD) is the lead agency responsible for drafting this report, and oversees the investments made in economic development as well as neighborhood revitalization. The agency works on a daily basis with developers, public officials, and community leaders and organizations seeking to increase the accessibility to jobs and affordable housing for low- to moderate-income persons.

The Department of Neighborhood and Business Development communicates and works closely with other city departments and community organizations to carry out these goals, programs, and policies to accomplish the goals outlined in this five-year consolidated plan. The primary goals outlined in this plan are designed to align with the mission of improving the overall quality of city neighborhoods and housing stock, and fostering economic opportunities that provide jobs and services to city residents. This consolidated plan includes projections over the next five years of various services that will be provided and the number of households, individuals, and businesses that will benefit. These projections were carefully considered based on past progress, the needs and goals outlined by NBD, and the capacity of the organizations that work closely with NBD.

Among the goals outlined in this consolidated plan is to increase the wealth of households, specifically targeting the designated Neighborhood Revitalization Strategy Area (NRSA) within Syracuse. The Northeast and Southwest sections of Syracuse have suffered from decades of disinvestment and high rates of crime and poverty. This plan, in coordination with various city departments, elected officials, and nonprofit agencies will work to make considerable progress in these designated areas, and create economic opportunity for city residents to build wealth and alleviate poverty.

**SP-80 Monitoring – 91.230**

Describe the standards and procedures that the jurisdiction will use to monitor activities carried out in furtherance of the plan and will use to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements.

Monitoring is a continuous process to determine which assisted programs and services are meeting their objectives and are in compliance with the Department of Housing and Urban Development (HUD) requirements set forth by 24 CFR part 85 and 24 CFR 570, as well as other New York State and local regulations and laws. The process will be done through on-site visits and regular in-house reviews of quarterly performance reports and payment requests. Specifically, the programs to be evaluated and monitored will be those operating with the use of Community Development Block Grant (CDBG),
Emergency Solutions Grant (ESG), and HOME funds. Sub-recipients may include private entities, non-profit agencies, and City departments.

**Objectives**

Monitoring will ensure compliance with HUD regulations, be used to identify specific compliance deficiencies, request corrective actions, and reinforce or improve grantee performance by providing technical assistance to grantees. Specific objectives of monitoring include the following:

- Verification of the accuracy of sub-recipient’s record.
- Verification that grantees’ use of funds is consistent with their stated objectives
- Identification of potential problems or the apparent causes of actual problems and offer recommendations for corrective actions.
- Confirmation of the accuracy of information presented in the Consolidated Annual Performance and Evaluation Report (CAPER)

**Guidelines**

The frequency of monitoring will be determined for each sub-recipient by an annual assessment of several risk factors associated with the administration of the assisted activity or service. The following criteria are used to determine the level of risk that will determine the scope of monitoring activities to be undertaken:

- The type of activity being assisted
- Whether the funded activity provides a direct benefit that is consistent with at least one national objective for CDBG and HOME and within an ESG fundable category.
- The amount of CDBG/HOME/ESG funding being provided
- The number of years that the program or service has been federally funded
- The agency’s prior history and level of success in administering CDBG/ESG/HOME funds and other types of programming
- Staff turnover, particularly staff funded by CDBG/ESG/HOME
- The program’s track record with regard to problems and problem resolution

The minimum level of monitoring will consist of in-house reviews on a quarterly basis of the sub-recipient’s performance reports and the supporting documentation submitted with their request vouchers for reimbursements. The performance report will be examined to determine if the actual accomplishments meet the stated goals and objectives contained in the sub-recipient agreement. This review will also determine if projected time schedules are met and whether projected work units, caseloads, or other performance goals are achieved. Sub-recipient requests for payment will be approved only if: the request includes program reports and supporting documentation, the request complies with the sub-recipient agreement, reimbursements are for eligible costs and are reasonable, and if the program is still operational.

Additional monitoring activities will be undertaken as needed including increased telephone contacts, more frequent on-site visits, and requests for additional program and financial information. Each year, NBD will prepare a CAPER that assesses the overall progress of the Consolidated Plan. The Syracuse Urban Renewal Agency (SURA) accounting division prepares financial reports to assure that actual expenditures have been allocated properly and that financial controls are properly implemented. Community Housing Development Organization (CHDO) receiving HOME funding typically are CDBG sub recipients and are therefore required to comply with all reporting and monitoring requirements stated above and outlined in the CHDO Operating Agreement with NBD.
The Syracuse
Department of Neighborhood and Business Development

1st Annual Action Plan
Program Year 41 (2015-2016)

Stephanie A. Miner, Mayor

Paul Driscoll, Commissioner
Department of Neighborhood & Business Development
201 E. Washington Street
City Hall Commons, Suite 600
Syracuse, NY 13202

February 2015
Executive Summary

The Syracuse Department of Neighborhood & Business Development (NBD) submits this Fifth Annual Action Plan, as required by the U.S. Department of Housing and Urban Development (HUD). This Action Plan corresponds with the Five-Year Consolidated Plan released by the City and awaiting approval by HUD in 2015. The update includes various levels of strategic planning for the implementation of HUD entitlement grant funds during Program Year 41 (2015 - 2016). Identified within this Action Plan are specific agencies and activities requesting HUD entitlement funding in order to successfully carry out programs which address specific community needs as identified by the City and its residents.

This Action Plan is the result of a collaborative process between the City and the community. Described are the community needs, resources, priorities, and proposed activities to be undertaken utilizing federal Community Development Block Grant (CDBG), HOME Investment Partnership Grant (HOME), and Emergency Solutions Grant funds. The City requests to utilize the following amount in entitlement funds for the 2015-2016 program year:

**Grant Administering Agencies**

In accordance with Title 24 Code of Federal Regulations (24 CFR) Part 91, all jurisdictions anticipating the receipt of the above federal grants must complete an Annual Action Plan. The Action Plan describes each community partner's anticipated contribution and efforts to obtain the goals and needs of the City and its residents outlined in Syracuse Five-Year Consolidated Plan (2015-2019). The Action Plan covers the period from May 1, 2015 through April 30, 2016.
Annual Goals and Objectives

The overall goal of the City is to provide all residents with vibrant neighborhoods that contain quality affordable housing choices, prosperous business opportunities, well-performing schools, and abundant recreational resources. This goal is successfully accomplished through providing:

Quality Affordable Housing
The City's Department of Neighborhood and Business Development deploys a two-pronged approach to achieving the balanced goal of, providing new affordable housing and maintaining the City's current affordable housing stock. Community Development Block Grant and HOME Investment Partnership funds are utilized in the most efficient way possible to move towards achieving that goal. In an effort to preserve the City's existing affordable housing our housing partners offer home improvement loans, homebuyer subsidies and foreclosure prevention counseling to residents of the City. While preserving existing affordable housing is important, providing new affordable housing is also a priority need and further achieved through down payment and closing cost programs, pre-purchase housing counseling and large development projects carried out by our housing partners. Each of these programs ensures the availability of affordable housing for both homeowners and renters within the City.

Assisting Vulnerable Populations
Vulnerable populations face challenges other individuals may not face when seeking safe, affordable, quality housing. The City has made it a priority need to increase the availability of supportive services for vulnerable populations including persons with physical disabilities, persons with HIV/AIDS, refugees, homeowners facing foreclosure, tenants facing eviction and non-English speaking populations. Support services provided through Community Development Block Grant funding include relocation services, special needs housing development, refugee education and non-English speaking community centers as well as a variety of counseling programs. These services are offered as a vehicle for ensuring each resident of the City has equal access to affordable housing and supportive services.

Administering Public Service Activities
Ensuring the availability of services for youth and senior populations is a priority need for the City's Community Development Block Grant funds. Neighborhood based activities, educational programs and support services are provided to youth and senior populations through safe and accessible community center environments. Youth and seniors based programs take place throughout the year and provide access to necessary supportive networks. The community center based approach to providing essential services allows the youth and seniors populations to connect with a diverse network of individuals.

Resources for Homeless Populations
The Emergency Solutions Grant allows the City to carry out both traditional and innovative programs to serve the City's homeless population. Collaboration between local non-profits, the Housing and Homeless Coalition, the Housing Vulnerable Task Force and the Continuum of Care is a priority for the City. These collaborations allow the Emergency Solutions Grant to efficiently increase the number of critical support services offered to homeless and at risk of homeless individuals. Partnerships are continually being forged between government organizations, housing developers and business partners to re-house individuals and families, provide financial assistance and case management as well as relocation and other housing stabilization services.
During Program Year 41 (2015-2016), the City will accomplish these goals specifically through providing the following programs:

- Access to Housing for Persons with Disabilities
- Down Payment and Closing Cost Assistance
- Homeownership Opportunity from Distressed Property
- Access to Affordable Rental Housing
- Rehabilitation and New Construction
- Increased Homeownership Opportunities
- Emergency Repairs to Reduce Health/Safety Threats
- Housing Counseling, Education and Foreclosure Assistance
- Tenant Advocacy
- Workforce Development and Small Business Capacity Building
- Programming for Youth and Seniors
- Supportive Services for Persons with HIV/AIDS
- Homelessness Prevention/Rapid Rehousing
- Emergency Housing and Supportive Housing Services
- Transportation and Outreach Services

In an effort to achieve more targeted results, funded programs will be encouraged to pay particular attention to delivering services to Syracuse families residing in census tracts 15 and 53, portions of the northside and southwest neighborhoods respectively. These census tracts were selected based upon the results of the CNY Fair Housing Council’s study, “Analysis of Impediments to Fair Housing”. Both census tracts 15 and 53 are experiencing high concentrations of poverty, racial and economic isolation, and restricted housing choice. Therefore, housing and workforce development activities in particular will be focused in these areas, in collaboration with the Greater Syracuse Property Development Corporation (the “Land Bank”), housing development partners, and other community stakeholders, to increase household wealth, reduce neighborhood blight, and increase homeownership.
Past Performance

Rental Housing Maintenance and Production

The Department of Neighborhood and Business Development (NBD) is committed to improving the quality of rental apartments while ensuring availability of affordable units for those who cannot afford to buy a home. We advance this goal through the provision of funding through the Community Development Block Grant (CDBG) and HOME programs.

- Within seven formerly vacant and distressed buildings previously owned by Eljay Properties, 155 units of affordable housing units were developed for low- and moderate-income families, with 48 or 31% of these units reserved for families earning less than 50% of the area median income.
- More than 65 rental units were rehabilitated for tenants earning less than 80% of the area median income.
- An additional 50 affordable rental units targeted to homeless veterans were completed.
- Lead hazards were remediated in more than 117 housing units through Syracuse’s Lead Hazard Control Program.

Homeownership Production and Preservation

As part of our overall neighborhood redevelopment strategies, facilitating homeownership opportunities plays a critical role in advancing this objective. NBD has demonstrated this commitment through investment in the following activities:

- Creation of 174 low- and moderate-income first-time homebuyers by providing down payment and closing cost assistance.
- Assisted 200 owner-occupants in completing necessary repairs to their homes, including roof repair, furnace replacement, and plumbing and electrical upgrades.
- Provided homeownership, budgeting, and foreclosure prevention counseling to more than 550 individuals.
- Prevented 112 foreclosures within Syracuse.

Strengthening Communities, Families & Individuals

- A total of 4,950 youth were provided positive programming through structured afterschool programming, academic support and wellness recreation at one of three city-owned community centers and other nonprofit service providers.
- Resettlement services were provided to 250 newly arriving refugees; services included assistance with accessing quality, affordable housing, language services, and job readiness.
- Provided 416 Latino residents with housing assessment and case management services.
- Provided 173 individuals at risk of homelessness with relocation assistance.
- Housing assistance was provided to 52 individuals afflicted with HIV/AIDS.
- Removed 12 dilapidated structures to support strategic revitalization efforts in targeted block plans throughout the City.
Citizen Participation

In order for the City to achieve the overall goals and objectives, citizen participation is necessary. The entire allocation of federal Community Development Block Grant (CDBG), HOME, and Emergency Solutions Grant (ESG) funding awarded to the City each year is based around the severity of both poverty and substandard housing conditions. It is necessary that public participation genuinely involve low income residents experiencing these conditions. Genuine involvement by low income people must take place at all stages of the process, including identifying needs, setting priorities, suggesting allocations as well as the types of programs that will meet high-priority needs. The revised citizen participation plan outlines strategies to ensure a diversity of residents have the opportunity to participate through a variety of methods. The strategies include emails, mailings, public notices, distribution of information via social services agencies and other community organizations such as, the Tomorrow’s Neighborhoods Today Planning Councils (TNT), the Mayor’s Citizen Cabinet, F.O.C.U.S Greater Syracuse and the Better Neighborhoods Bureau.

The City's Citizen Participation Plan, revised and approved by the Department of Housing and Urban Development (HUD) in 2011, provides information on how residents, institutions, businesses, and community organizations may participate in the development of the City's Consolidated Plan and other related documents. The Citizen Participation Plan ensures the inclusion of residents in the development of the Five-Year Strategic Plan, the annual Action Plan, any amendments to these plans, as well as the Consolidated Annual Performance and Evaluation Report (CAPER). The Citizen Participation Plan also describes the participation of members of the Mayor's Citizens Cabinet and Tomorrow's Neighborhoods Today (TNT) participants.

Following the release of the draft Action Plan, members of the public are invited to share their comments with the Commissioner of Neighborhood & Business Development independently as well as in a public meeting setting. These comments are taken into consideration as the final plan is developed. In addition, the City holds a public hearing, which allows the public to directly address the members of the Common Council and share their thoughts and concerns regarding the draft plan. At this point, the Common Council shares their input with NBD before approving the plan. The primary objective of citizen participation in drafting this Action Plan is to increase awareness of community needs and effectively implement programs, while continuing to stabilize the City's housing stock and ensure safe affordable housing for City residents. The Department of Neighborhood and Business Development continues to work in a comprehensive manner to revitalize our neighborhoods, address important corridors, and strengthen neighborhoods through community building and targeted economic development projects, therefore all comments are and will be accepted for consideration. The final 1st Annual Action Plan will include an appendix, as well as all comments received by the Department.

Questions and comments regarding this Action Plan my contact:

Consultation and Partnerships

The Syracuse Department of Neighborhood and Business Development (NBD) recognizes that partnerships with public and private entities are vital to the provision of effective services to the Syracuse community. Each strategy prioritized by Syracuse is only accomplished through effective collaborations with community partners. These partners provide the expertise needed to ensure quality service provision, housing development and neighborhood revitalization efforts. While Syracuse recognizes and honors long standing relations with community experts, it welcomes and encourages new partners with innovated approaches to address the communities pressing issues.

New York State policies mandate the discharge of clients and patients for the foster care system, correctional facilities and hospitals. These mandates have been incorporated in the Plan and drives local decision making to ensure individuals are not discharged into homelessness.

The local Discharge Planning Committee (DPC) actively collaborates with institutional care providers and monitors discharge outcomes. A variety of initiatives have been developed to assist in preventing homelessness wherever possible. Specifically, “in-reach coordination” in which Intensive Case Managers visit area inpatient mental health and CD units on a weekly basis to discuss housing options and assist with the discharge planning process prior to discharge. The DPC also partners with NYS Department of Corrections and Community Supervision (DOCCS) have created a re-entry task force to collaborate on addressing barriers to parolees accessing housing. Additionally, Onondaga County and New York State allocate funding for fifty case managers to assist youth transitioning out of the foster care system.

Collaboration and partnership between the City and the local Homeless and Housing Vulnerable Taskforce (HHVTF), created in 1986 as a standing committee of the Common Council, is a key component in determining specifically how Emergency Solutions Grant (ESG) funds are allocated and disbursed. The Taskforce was formed to assess community needs, identify gaps in service and develop a strategy to address homelessness. In August 2010, the HHVTF became the Housing and Homeless Coalition (HHC) following the Department of Housing and Urban Development (HUD) emphasis on creating a unified response to ending homelessness in the community. The formation of the HHC allows for:

- Creating and implementing a 10 Year Plan to End Homelessness
- A Collaborative Applicant for the submission of the Continuum of Care (CoC) application
- Increased reliance and accountability to Homeless Management Information System (HMIS)
- Increased focus on performance outcomes
- Emphasis on data driven decision making
- Meeting HUD’s audit and reporting requirements
- Alignment with ESG activities
- Implementing a community wide 25% match compared to individual program match

The primary goal of the local HHC is to develop an enhanced various collaborative processes utilizing community assets to provide improved coordination for the delivery, monitoring and evaluation of homeless and housing vulnerable services. This system coordination is the foundation of setting priorities for ESG funding, developing CoC strategies and the 10 Year Plan. The plan is based on best practices learned through HPRP, CoC inputs, data from community’s needs and gaps assessments and the CoC checkup.
Anticipated Resources

Community Development Block Grant (CDBG) and HOME make up the majority of local funding for housing activities. While HOME funds are statutorily reserved for housing-related activities, eligible uses for CDBG funds are far more varied to include services to assist certain subpopulations that by their nature require these services (youth, seniors, disabled).

The following is a chart reflects expected resources from the federal government anticipating a cut in funding:

<table>
<thead>

Leveraging Resources

Anticipated resources received through the Consolidated Planning process are leveraged through additional resources including:

- **Home Improvement – Urgent Care**: CDBG funds are used to address the most urgent needs of low-income owner-occupants such as the replacement of deteriorated roofs, furnaces and plumbing. All assistance has a payback requirement, the amount of which depends on the income-level of the owner. The lowest income strata still is required to pay 20% of the total loan, the receipts of which are kept in a restricted account used solely for the purpose of re-lending to another qualified household.

- **Down Payment and Closing Cost Assistance Program**: Up to $3,000 in CDBG funds are granted to income-eligible homebuyers which often is the difference between closing on a home and not. Therefore a relatively small injection of CDBG funds can leverage an entire privately-held mortgage ranging anywhere between $30,000 and $95,000 per home. Last year 65 households took advantage of this program expending $195,000 in CDBG funds but leveraging between $2 million to $6 million in private mortgage financing.
The Syracuse Home Assistance Repair Program (SHARP), provides up to $1,000 in exterior improvements to income eligible households which are required to contribute $100 of their own funds. In 2013, 95 households participated in this program leveraging $9,500.

HOME Developer Subsidies: In order to meet the high demand for quality affordable rental units, Syracuse uses HOME funds to leverage New York State Low Income Housing Tax Credit projects. On average the ratio of this leverage is 10:1 and the long term affordability requirements assures that these rental units will remain affordable and available to low- to moderate-income families.

Developer Assistance for Homeownership: In an effort to promote the rehabilitation of Syracuse’s aging housing stock as well as the revitalization of neighborhoods, financial assistance is offered through the HOME program to developers to write down the cost of construction for rehabilitation and new construction to create affordable housing units. NBD works with Syracuse's not-for-profit housing partners, many of them qualified as Community Housing Development Organization, to rehabilitate and newly construct housing units for affordable homeownership opportunities.

Use of Public Facilities

The Syracuse Department of Neighborhood and Business Development also has the ability to leverage funding through the ownership of public land including three Community Centers out of which many human service programs are administered:

**Syracuse Northeast Community Center (SNCC)**

Located in Syracuse’s near northeast side and adjoining Dr. Weeks Elementary School, the SNCC is one of the two large community centers in Syracuse. SNCC provides a diversity of public services using an organizational and program model that is unique to the area which it serves. The SNCC manages the facility, which is owned by the city of Syracuse. In this role, the agency provides the basic infrastructure consisting of office and program space, security, maintenance, coordination and scheduling support, and management of common space. SNCC leases space within the facility to a range of organizations that can provide the services deemed most appropriate for the neighborhood. This enables non-profit and local government agencies to deliver targeted services to the neighborhood. SNCC provides the following programming: educational, recreational and social enrichment programming for families; emergency and social service resources to meet the needs of seniors, youth, and families.

**Syracuse Model Neighborhood Facility, Inc. (Southwest Community Center)**

The Southwest Community Center (SWCC) is a city-owned facility located on the City’s southwest side and serves a predominantly African-American clientele. Syracuse Model Neighborhood Facility, Inc., (SMNF) is the non-profit agency which was created for the purpose of operating the SWCC. SMNF also leases space within the facility to a range of organizations that provide those services deemed most appropriate for the neighborhood. Some of the programs and services offered at the SWCC include: AIDS/HIV awareness, education and prevention program; an educational substance and alcohol abuse prevention program for school age youth; a program for developmentally disabled youth and young adults to help promote personal, social and recreational development; a program that provides computer based tutorial program for youth who attend Syracuse City Schools in grades K-8 and receive free or reduced lunch; a program focused on decreasing deviant behavior in youth ages 10-19; and programming for adults ages 18-24 to increase employment opportunities in the emerging green economy.
Westcott Community Center
The Westcott Community Center is one of the smaller community centers owned by the city of Syracuse and located on the eastside of Syracuse. Programming is run by the Westcott Community Center, Inc. CDBG funding supports youth, adult, and senior education programming through the Westcott Kids’ Club, Say Yes after school enrichment, GED and literacy activities. The center also sponsors a lecture series, art gallery and a farmers market to provide fresh produce during the summer months for the community. Additional programs offered at the Westcott Community Center include community events, community classes, lectures, community dinners and concerts. Westcott also provides senior programming which includes fitness activities, arts & crafts, games, socialization, and a hot lunch provided by PEACE, Inc.
Geographic Distribution of Funds

In 2011, the Department of Neighborhood and Business Development received approval of the Neighborhood Revitalization Strategy Area (NRSA). The NRSA includes two primarily residential areas of the City which house the highest percentage of low- and moderate-income households.

The Northeast NRSA includes the following neighborhoods: Hawley-Green, Lincoln Hill, Near Eastside, Northside, Prospect Hill and Washington Square (Census Tracts: 2,5,6,7,8,14,15,16,17,23,24,34,35). The Southwest NRSA includes: Brighton, Elmwood, Near Westside, Park Avenue, Skunk City, Southside and portions of other Southwest neighborhoods (Census Tracts: 21,22,30,38,39,40,42,51,52,53,54,58,59). Please see Appendix C for a map of the two NRSAs.

NBD also uses the following benefits as a way to allocate investments geographically within the jurisdiction in an effort to revitalize the Northeast and Southwest areas:

- Offer a Public Service Cap Exemption to those services carried out pursuant to the strategy by a Community-Based Development Organization (CBDO).
- Job creation and retention activities undertaken pursuant to the strategy will be qualified as meeting area benefit requirements, thus eliminating the need for a business to track the income of persons that take, or are considered for, such jobs.
- Housing units assisted pursuant to the strategy can be considered to be part of a single structure for purposes of applying for low-and moderate-income national objective criteria, thus providing greater flexibility to carry out housing programs that revitalize a neighborhood.
- Economic development activities carried out under the strategy will be exempt from the aggregate public benefit standards, thus increasing a grantee’s flexibility for program design as well as reducing its record-keeping requirements.

The Northeast and Southwest areas are two areas plagued with many social and economic challenges. The Northeast area is characterized by a growing Asian immigrant population currently comprising 11.8% of the population with 12.4% being foreign born. Also the area struggles to attract and maintain homeowners as the current homeownership rate is only 27.1% compared to a 41.8% city-wide rate.

The Southwest area has been affected by different market forces resulting in an alarmingly high vacancy rate at 37.1% compared to a city-wide rate of just over 18%. Deep economic challenges have resulted in a 16.2% unemployment rate with nearly a third of the adult population without a high school diploma. Coupled with these challenges, children are also adversely affected with 62.6% of the children living below the poverty level.
Year 41 Funded Programs

Citizen participation in the Annual Action Plan also includes community leaders, activists and business owners in Syracuse through Risk Analysis Committees (RAC), which meet each year to discuss and rank each RFP Application submitted to the City for Community Development Block Grant (CDBG), HOME and Emergency Solutions Grant (ESG) funding. This year the RAC’s were made up of Citizens Cabinet members, representatives from Syracuse University, United Way, The Gifford Foundation, Onondaga County, The Downtown Committee, The South Side Innovation Center, the University Neighborhood Preservation Association, National Grid, The Community Foundation, F.O.C.U.S. Greater Syracuse Citizens Academy, and various TNT members.

A complete applicant and program listing submitted for funding can be found at the end of this Action Plan.

Project Descriptions

Projects funded with Community Development Block Grant (CDBG) dollars align with the three primary strategy areas outlined in our Five Year Consolidated Plan. They are: housing preservation and production, services for housing vulnerable and programming for special needs populations. Additionally, services for homeless prevention and rapid rehousing are funded through the Emergency Solutions Grant (ESG). A summary of these programs are provided below:

SERVICES TO INCREASE HOUSEHOLD WEALTH

Boys & Girls Clubs of Syracuse
The Boys & Girls Clubs of Syracuse’s Teen Program provides youth ages 13 to 19 a positive alternative to the streets during the school year and into the summer. Programming includes educational, enrichment, social, and recreational activities at three locations within distressed neighborhoods.

CenterState CEO Foundation
Northside UP is an agency that exists within the CenterState CEO Organization and is dedicated to the provision of workforce training and entrepreneurship opportunities for Syracuse residents, particularly on the city’s Northside. The UP Start Syracuse program provides technical support to individuals and micro-enterprises seeking to start up and grow within Syracuse. The WorkTrain program provides job training and skills experience to individuals seeking employment in a number of industries, and has developed partnerships to place program graduates in full time career positions.

Home HeadQuarters
Home HeadQuarters’ Urgent Care program provides low to moderate income households with loan capital to make emergency repairs to their homes. The program is structured to offer an average loan amount of $10,000 per household. SHARP provides low-income owner-occupants in Syracuse with small grants for minor home repairs. The agency provides assistance to customers throughout the application and construction process. Administered by Home HeadQuarters’ Homeownership Program, this program helps address major barriers to homeownership. The program allows many renters to purchase a house and begin building equity. It provides up to $3,000 in down payment and closing costs
funds for households in need of such assistance. The assistance is provided in the form of a 5-year deferred loan.

**Home HeadQuarters, Homeownership Center**
The purpose of the Foreclosure Prevention Program falls under Home HeadQuarters homeownership services program. The program provides counseling to help homeowners understand household finances and understand the foreclosure process. Services are also provided to borrowers in need of assistance with loss mitigation such as foreclosure prevention options, litigate cases whenever appropriate and assert client-rights from high-cost and predatory loans.

Home HeadQuarters also provides homebuyer education programs under their Homeownership Services, which teaches first-time homebuyers everything they need to know about buying a house. Accredited by NeighborWorks of America®, this education tool for potential homebuyers is a prerequisite for the Down payment and Assistance Program.

**Empire Housing**
Located on the Westside of the City, Empire Housing rehabilitates dilapidated structures for homeownership. Empire has secured New York State Affordable Housing Corporation (AHC) funds that allows up to $20,000 of rehab improvements for new owner-occupants.

**Huntington Family Center – James Geddes Youth Services Program**
The Youth Services Program provides a safe, structured program for children ages 5 to 12 that live on the Near Westside of Syracuse. The program offers group and individual activities that focus on asset development and community ownership while helping youth to achieve their future goals. The program is composed of three components; an after-school program, academic support in the form of tutoring with a goal of truancy prevention and building social skill competencies, and offering a seven week summer day camp during July and August.

**Jubilee Homes of Syracuse, Inc.**
Jubilee Homes serves the Southwest-side of Syracuse by providing homeownership counseling services to potential homeowners and those facing foreclosure. Support for workforce development training is also provided to residents who are seeking employment in the neighborhood. Jubilee Homes is also funded to carry out technical assistance for businesses struggling or looking to start up on the Southwest side.

**Northeast Hawley Development Association, Inc. (NEHDA)**
The Northeast Hawley Development Association (NEHDA) serves the City’s Northside neighborhood, partnering with both the City and sister agencies on a number of residential and commercial redevelopment efforts. NEHDA’s primary role is to provide housing counseling and outreach to Northside residents to market City programs such as the Butternut Street Residential Home Improvement Program.

**PEACE, Inc.**
PEACE, Inc. facilitates the Big Brothers Big Sisters Program in Onondaga County that provides one-on-one youth mentoring and education opportunities for city of Syracuse youth. Transportation is provided to these students who participate from their school to where the program takes place.
**Syracuse Model Neighborhood Facility, Inc. (Southwest Community Center)**
The Southwest Community Center facility includes a gymnasium as well as an indoor swimming pool. Services available at the SWCC include a food pantry, case management for individuals and families in need, violence intervention and prevention and a branch library of the Onondaga County Public Library.

**Syracuse Northeast Community Center (SNCC)**
Located on the City's Near Northeast Side and adjoining Dr. Weeks Elementary School, SNCC provides a diversity of public services deemed most appropriate for the neighborhood. In addition SNCC operates several direct service programs including Teen Night Beat.

**Westcott Community Center**
The community center provides a number of after school programs and adult education programs that affect personal development. Other services such as senior citizens advisement and lunch program, lecture series, concerts and farmer's market make the facility a community anchor for the city's east side.

**Welch Terrace Apartments**
Welch Terrace Apartments provides affordable, permanent and secure supportive housing to a population increasingly at risk of becoming homeless; those diagnosed with HIV/AIDS. By providing tenants with supportive housing, many are able to stabilize their lives, live independently and enjoy an enhanced quality of life.

**Request for Proposal | Revolving Loan Fund for Small Business Capacity Building**
CDBG funds will be used for small business loans to increase their capacity and benefit the surrounding neighborhood through increased provision of services with potential for job creation as these businesses seek to hire additional employees. Loans will be managed by a separate financial entity that is awarded the RFP contract and dispersed to private businesses and microenterprises seeking to grow or expand in Syracuse.

**Request for Proposal | Emergency medical Technician Training**
CDBG funds will be used to support training for eligible candidates to learn the technical skills needed as an Emergency Medical Technician (EMT). This program will be provided by a qualified service provider with the training capacity, selected through an RFP process. This program will provide participants with the skills needed to attain employment in the emergency medical technician field.

**SERVICES TO ELIMINATE BARRIERS TO HOUSING OPPORTUNITY**

**ARISE, Inc.**
The advocacy and referral program provides information to individuals regarding housing availability and support services within the City. Within the program ARISE also offers one-on-one sessions with individuals looking for more extensive information in services and the ability to live independently. ARISE also facilitates the Home Access Program that provides ramps to homeowners with disabilities that would otherwise prevent them from accessing their home.

**Catholic Charities**
The Catholic Charities Relocation Program will serve low income families and individuals who live in Syracuse and are housing vulnerable. The program will address housing vulnerability by providing relocation and other services to housing vulnerable households. Residents in need of relocation services will receive case management services to obtaining and maintaining safe, affordable housing. The program will work directly with the Department to address emergency relocation needs of tenants occupying building deemed uninhabitable by Syracuse. Additionally, the Homeward Connection program provides homeless prevention and rapid rehousing services to individuals through assessment of housing barriers and identifying potential resources and goals.

**Covenant Housing**
Covenant Housing provides mortgage and pre-qualification assistance to individuals with disabilities throughout the City. Covenant also renovates and manages and/or sells accessible housing to qualified owners/renters.

**CNY Fair Housing**
The mission of the CNY Fair Housing is to “create equal housing opportunities for people through the enforcement of federal housing discrimination laws.” The City contracts with CNY Fair Housing to complete an Analysis of Impediments that demonstrates patterns of segregation, housing opportunity, and regional analysis of housing impediments.

**InterFaith Works of CNY**
Center for New Americans caseworkers assist clients with a variety of needs such as arranging for housing, utilities, furnishings, and food; enrolling adults in English learning classes and children in school; ensuring that necessary medical care is received; finding employment; and providing help understanding U.S. culture. The Center also assists groups in developing their own self-help associations and in the fulfillment of projects of their choosing. Interfaith also provides mediation and housing stability services through homeless prevention case management. Tenancy education and counseling are provided to many refugees who are at risk of homelessness.

**Syracuse Model Neighborhood Corporation (SMNC)**
SMNC receives CDBG funds for the purpose of maintaining an important inventory of rental units for low-income residents. The staff of SMNC also organizes tenant meetings within agency owned multi-unit buildings and tenant support services.

**YMCA Men’s Residence Program**
The YMCA Men’s residence program offers affordable housing for men in the Syracuse community struggling to access permanent housing. Men are connected with mainstream resources and various counseling centers. The program works very closely with the ESG funded Men’s residence program as well.

**Chadwick Residence**
Chadwick Residence provides case management and housing stabilization services to homeless women and children as needed with the main goal of assisting individuals with obtaining and maintaining permanent housing through the rapid re-housing process.

**Liberty Resources Inc.**
The DePalmer House provides rapid rehousing activities for persons with HIV/AIDS through a housing search process and placement as well as working with individuals to regain housing stability.

**Hiscock Legal Aid Society**
Hiscock provides legal representation and case dispositions for individuals at risk of becoming homeless. These services fall under the homeless prevention category of the ESG grant.

**In My Fathers Kitchen**
In My Fathers Kitchen utilizes the street outreach category of the ESG grant by distributing meals, developing relationships and connecting homeless individuals with mainstream support services and activities.

**Greater Syracuse Tenants Network**
The Tenants Network provides mediation for tenants facing eviction or homelessness due to unfit properties within Syracuse. The Tenant’s Network works very close with the City to prevent individuals from becoming homeless due to code violations, foreclosures and water shut offs.

**The Salvation Army**
The Transitional Apartment and Parenting Center (TAPC) rapidly re-house homeless pregnant and parenting youth though housing search and placement. Obtaining stable housing is the main goal of the TAPC program. The Barnabas Transitional Living Program (TILP) focuses on obtaining stable housing for youth. Much like the TAPC program, The Salvation Army works to rehouse youth through housing search and placement. The Housing Assistance and Life Skills Education (HALE) program provides direct assistance in the form of security deposits to individuals in need of housing placement.

**YWCA**
The YWCA provides case management and housing stability by identifying community resources for women and developing comprehensive individualized services planning for the future. Individuals taking part in YWCA’s program are ultimately rapidly rehoused.

**Direct Financial Assistance | Request for Proposal**
ESG funds will be used for direct financial assistance subject to the general conditions outlined by the Department of Housing and Urban Development (HUD) for such activities for low and moderate populations that are considered housing vulnerable. These funds may be used to pay housing owners, utility companies and other third parties for rental application fees, security deposits, rental assistance and utility deposits, and moving expenses. A community entity will be selected to manage the financial assistance program.

**SERVICES FOR COMMUNITY ENGAGEMENT AMONG SENIORS**

**Syracuse Model Neighborhood Facility, Inc. (Southwest Community Center)**
The Southwest Community Center facilitates the neighborhood advisor program to engage and work with senior citizens in the southern section of Syracuse. The center’s nutrition program also plays a role in providing healthy food and provide to senior citizens.

**Syracuse Northeast Community Center (SNCC)**
SNCC operates a senior support center with a variety of services including a transportation program providing rides to grocery stores, banks, etc. Other services include the senior-youth intergenerational partnership to foster relationships between older adults and on-site preschool children, and a comprehensive resource and referral service through a partnership with the Onondaga County Department of Aging/Adult Long Term Care.

**Westcott Community Center**
The Westcott Community Center participates in the neighborhood advisor program to serve nearby senior citizens and also operates the Golden Café senior lunch program and senior exercise programs that serve the city’s aging population.

**SERVICES TO CREATE HEALTHY AND SUSTAINABLE HOMES**

**Home HeadQuarters**
The Urgent Care / Home Improvement Program provides low to moderate income households with loan capital to make emergency repairs to their homes. This program now includes Lead Hazard Control for owner-occupied households with children ages five and under to protect them from lead paint surfaces that may be harmful to their health and development.

**NBD Distressed Property Program and Affordable Housing Development**
To address blighted housing influences, real estate development activities funded under the Distressed Property Program include vacant property rehabilitation for both first time homebuyers and affordable rental properties. Other activities include property demolition and deconstruction. With each of these real estate projects, developers are encouraged to apply sustainable building or deconstruction practices to ensure projects are as sustainable as possible.
Furthering Public Housing Efforts

The Syracuse Department of Neighborhood and Business Development coordinates public housing assistance through the Syracuse Housing Authority which owns and operates several buildings in Syracuse. There is a great demand for public housing as evidenced by the long waiting list for the 2,340 apartment units in the public housing inventory.

Furthermore, 90% of all applicants have income levels less than 30% of the area median income. The greatest demand among families with children is for three- and four-bedroom units. The wait for these apartments is over two years. For more information regarding demand for public housing and Section 8 assistance, as well as other Syracuse Housing Authority programs, please refer to the Five-Year Strategic Plan.

The mission of the Syracuse Housing Authority (SHA) is to provide clean, safe, and affordable housing for the low-income citizens of this community. The creation of the Authority was approved by the State in 1937 as a separate agency from the City for the purpose of carrying out its mission.

The Housing Authority Board of Commissioners is comprised of a group of seven individuals. The mayor appoints five board members, and the public housing residents elect two board members from the tenant population of all SHA developments. All members serve unpaid. Appointed members of the board serve for five years, while elected members serve for two years.

The Syracuse Housing Authority offers many opportunities for their residents to engage in the community and address personal needs through both programs run by SHA and services provided by agencies in the community. The Life Program run by SHA offers residents access to coordinators who provide referral services and community building opportunities. Services related to homeownership include: Credit Counseling, Life Skills, Financial Literacy, and Tax Assistance. Additional services provided by the Life Program include: Child Care, GED Programs, ESL Classes, Drug/Alcohol Treatment, Employment Readiness Skills, Job Training Classes, Dental Care, Tutoring, Computer Classes, Mentoring, Health Care and Nutrition Classes.

Moving Forward and Eliminating Barriers

Syracuse faces many regulatory barriers to affordable housing however, each year the City moves closer to eliminating those barriers. Increased collaboration between Common Council members, task force volunteers and political officials has allowed the City to significantly reduce the number of barriers developers, homeowners and tenants face.

**Actions planned to reduce negative effects of public policies**

Through the evaluation of regulatory processes in the Division of Code Enforcement, the City was able to move from an out of date software system requiring paperwork with a turnaround time of a few days, to a newly developed information processing system which enables inspectors to track cases quickly and efficiently in the field. Instantaneous updates are communicated to the Lead Department, the Permit Division and Neighborhood and Business Development to streamline the process in which tenants, developers and homeowners go through during construction and rehabilitation projects. The same
program is used by the Division's legal staff which allows cases involving tenants and unfit homes to move through the legal system and into court quickly.

Maintaining affordable housing can be difficult if effective enforcement mechanisms are not in place. The Department of Neighborhood and Business Development ensures affordable housing being produced will remain affordable for as long as possible. To reduce the barrier of affordable housing becoming fair market housing, regular monitoring is conducted and site visits are performed by staff and code inspectors throughout the project compliance period.

**Actions planned to address obstacles to meeting underserved needs**

Recently Syracuse’s Analysis of Impediments to Fair Housing was updated with the help of CNY Fair Housing. This updated report and analysis will guide the investments of the City to address the obstacles identified in this effort, and a comprehensive review of department policies to promote fair housing opportunities for city residents. This newly completed Analysis of Impediments will be submitted to the Department of Housing and Urban Development (HUD) in the spring of 2015 with the entire Five Year Consolidated Plan. The City will also continue to actively work to address any specific barriers encountered by individuals or families with the assistance of the CNY Fair Housing and other community organizations that provide feedback regarding challenges that currently exist toward accomplishing this.

**Actions planned to foster and maintain affordable housing**

Since 1996, the largest single financial commitment in the City's Action Plan has been allocating federal funds for home improvement projects that are critical to keeping low-income homeowners in their homes. This has resulted in more than 5,000 low-income owner-occupants able to make substantial investments in their homes, affecting 20% of all owner-occupants in Syracuse. More than any other program, the Home Improvement – Urgent Care program administered by Home HeadQuarters has helped maintain the supply of affordable housing in the city.

In addition, the HOME program annually supports the rehabilitation and/or new construction of quality affordable rental units at a rate of about 50 to 100 units per year. Over the same time period, this has resulted in approximately 1,350 high quality affordable rental units brought online to address the housing needs of low-income renters.

The City will continue to use available funding through the federal block grants to ensure that quality affordable housing remains available to all eligible renters and homeowners.

**Actions planned to reduce lead-based paint hazards**

The Syracuse Lead Hazard Control Program is linked to the community through various organizations and partners to educate children and their families about the effects and prevention of lead poisoning.

The mission of the Lead Hazard Control Program is to develop lead-safe housing in low- to very low-income target areas; to work toward a decrease in the number of children with elevated blood lead levels; to improve the environments of families residing in the City; and the continued education of all children and their families on the effects of lead poisoning and its prevention.
The City Lead Program works cooperatively with the Onondaga County Health Department Lead Poisoning Division and six community-based organizations in obtaining referrals for the Lead Program. This year, Home HeadQuarters will perform lead hazard control through the Urgent Care / Home Improvement Program. The program will allow homeowners to address lead paint surfaces that may be harmful for young children’s health.

The main beneficiaries of these programs will continue to be low- to very low-income households, both owner-occupants and tenants with children under six years old who have elevated levels of lead in their blood. The program provides primary prevention by including vacant properties, thereby increasing the number of lead-safe units available for rent. The targeted neighborhoods benefit as residents develop a greater awareness of the consequences associated with lead exposure develop methods to manage a leaded environment, and minimize the risk of exposure.

**Actions planned to reduce the number of poverty-level families**
The City’s Housing Vulnerable Task Force brings together key CDBG and ESG-funded agencies whose mission is to address the immediate housing crises faced by those living in substandard housing. An integral part of this effort is the involvement of the Onondaga County Department of Social Services (DSS). DSS not only serves as a resource to the case workers assisting these individuals and families in crisis but also provides “income-stretching” assistance to these households to ensure that they are receiving all the assistance they are entitled based on their income and their inclusion in an underserved subpopulation. While this does not increase the long-term wealth of these households, it does provide them the means to stabilize their living situation to allow them to genuinely build wealth and work their way out of poverty.

In addition, the City has committed to applying a portion of the CDBG funds it reallocated to assist businesses along concentrated neighborhood commercial corridors. This assistance will be in the form of deferred loans and require a 25% match that will be invested by the owner into the property improvements. In this way, it is anticipated that a small amount of federal investment will have a multiplier effect of creating new job opportunities while bringing much needed services that meet the daily needs of the surrounding residents.

**Actions planned to develop institutional structure**
Efforts are ongoing to coordinate the discharge policies of area hospitals and health centers to ensure adequate housing is available to those leaving institutionalized medical care.

**Actions planned to enhance coordination between public and private housing and social service agencies**
The City and the County continue to find ways to collaborate in addressing the needs of the housing vulnerable. The Housing Vulnerable Taskforce brings CDBG-funded agencies together with DSS to assist in finding suitable housing for those living in substandard conditions.

The Greater Syracuse Land Bank works closely with the City in obtaining and addressing unfit housing and determining the disposition of each structure so as to ensure its habitability.

<td>$77,000</td>
</tr>
</tbody>
</table>

**HOME Investment Partnership Program (HOME) | Reference 24 CFR 91.220(l)(2)**

A description of other forms of investment being used beyond those identified in Section 92.205 is as follows: most HOME funded projects, the City often serves as a smaller, last (but critical) piece of investment to advance rental and homeownership projects. Other funding sources such as the Low Income Housing Tax Credit (LIHTC) Program through the New York State Division of Community Renewal, Affordable Housing Program funds from Federal Home Loan Bank, private equity, and other non-federal sources are used.

NBD will review the financial viability of the project including a subsidy layering analysis determining if the other funding sources are sound commitments, what resources are needed to bring the project to completion, and if there are other sources of funding outside of the HOME program that would be better suited for this development.

NBD will work in conjunction with other funding sources on a project to ensure HOME funds will be provided for only eligible activities within the HOME projects considered for funding. For example, a multi-unit project using HOME funds may be used to assist only a portion of the units. A review of the complete scope and budget is performed to ensure that only the actual HOME eligible developer costs of the assisted units are charged to the HOME program. Other funding sources must be provided for all costs to the non-assisted units. If the HOME assisted and non-assisted units are comparable in size and bedrooms, the cost of the HOME assisted units can be determined by prorating the total HOME eligible development costs of the project so that a proportion of the total development costs charged to the HOME program does not exceed the proportion of the HOME assisted units in the project.

1. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:
The homebuyer must occupy the unit as his/her principal residence for the duration of the affordability period. NBD will monitor compliance during the affordability period by verifying the beneficiary remains an owner occupant on an annual basis. NBD staff will send a letter and certification form with a “Do not forward” as a method to show they remain owner occupants. In the event of noncompliance with the principal residency requirement, NBD reserves the right to require full repayment of HOME funds invested in the project.

In the event the owner sells or otherwise transfers the property to secure the home's affordability, NBD will use a Resale provision. The resale provision applies when investing HOME funds solely as a development subsidy into new construction or rehabilitation projects that will be sold to owner occupants whose income will be 80 percent or below of AMI. [The development subsidy is the gap funding—the difference between the total development cost minus fair market value of the property.] The owner occupant must certify their income within six months of closing or new documents will be requested.

Properties with a resale restriction must remain affordable for some period of time known as the “affordability period.” The affordability period of the project will be based on the total amount of HOME funds invested in the project, as summarized in the following chart:

<table>
<thead>
<tr>
<th>Amount of per-unit HOME $</th>
<th>Minimum Affordability Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt;$15,000/unit</td>
<td>5 years</td>
</tr>
<tr>
<td>$15,000 - $40,000/unit</td>
<td>10 years</td>
</tr>
<tr>
<td>&gt;$40,000/unit</td>
<td>15 years</td>
</tr>
</tbody>
</table>

The resale provision will be secured through a restrictive covenant that is recoded and in effect for the duration of the affordability period. In addition, the City of Syracuse executes an agreement with the homebuyer to convey the affordability requirements and retain enforcement authority.

In the event the homebuyer transfers his/her property (either voluntarily or involuntarily) during the affordability period, the following resale provisions must be adhered to:

1. The homeowner must inform NBD of their desire to sell the property prior to it going on the market;
2. The new homebuyer must have an income between 50 and 80% AMI at the time of purchase and must qualify with NBD by filling out a homebuyer application;
3. The new homebuyer(s) must occupy the house as his/her principal residence;
4. The resale price must be an amount affordable to the City's targeted low-income buyers. This means, the buyers can secure a mortgage (through National Mortgage Licensing System approved lender) whereby they pay no more than 30% of their monthly gross income for principal, interest, taxes and insurance (PITI) plus a reasonable downpayment.
5. The new homebuyer must assume the remainder of the affordability period and will enter into a new HOME Program Agreement with NBD; and
6. The homeowner will be entitled to fair return on their investment upon sale of the Property. The owner’s investment includes their initial down payment plus capital improvements to the property. Improvements to the property will be defined as improvements that increase the market value of the home; ongoing maintenance costs, such as exterior painting, servicing and replacement of building mechanicals, and/or driveway sealant are excluded as capital improvements. The homeowner will be responsible for keeping adequate records of the improvements and said improvements must be approved by NBD.

7. In order to determine if what a fair return on this investment is, the City will use the Consumer Price Index (http://www.bls.gov/home.htm) to measure the change in housing values in the area. This percent change will be multiplied by the owner’s investment in order to determine the fair return.

8. The sale price will not exceed Market Value, based on the appraised value of the property at the time of resale. Homeowner will be responsible for providing NBD with a current appraisal of the property to determine market value.

If the fair market value of a HOME-assisted homebuyer property is more than what is affordable to the range of low-income buyers, the PJ will set a resale price that, at a minimum, provides a fair return to the original homebuyer. The PJ will make the property affordable to its target population by making available appropriate HOME financial assistance to the buyer, if needed.

The resale provision will be secured through a restrictive covenant that is recoded and in effect for the duration of the affordability period. In addition, the City of Syracuse executes an agreement with the homebuyer to convey the affordability requirements and retain enforcement authority.

In the event the homebuyer transfers his/her property (either voluntarily or involuntarily) during the affordability period, the following resale provisions must be adhered to:

a. The homeowner must inform NBD of their desire to sell the property prior to it going on the market;

b. The new homebuyer must have an income between 50 and 80% AMI at the time of purchase and must qualify with NBD by filling out a homebuyer application;

c. The new homebuyer(s) must occupy the house as his/her principal residence;

d. The resale price must be an amount affordable to the City’s targeted low-income buyers. This means, the buyers can secure a mortgage (through National Mortgage Licensing System approved lender) whereby they pay no more than 30% of their monthly gross income for principal, interest, taxes and insurance (PITI) plus a reasonable downpayment.

e. The new homebuyer must assume the remainder of the affordability period and will enter into a new HOME Program Agreement with NBD; and

f. The homeowner will be entitled to fair return on their investment upon sale of the Property. The owner’s investment includes their initial down payment plus capital improvements to the property. Improvements to the property will be defined as improvements that increase the market value of the home; ongoing maintenance costs, such as exterior painting, servicing and replacement of building mechanicals,
and/or driveway sealant are excluded as capital improvements. The homeowner will be responsible for keeping adequate records of the improvements and said improvements must be approved by NBD.

g. In order to determine if what a fair return on this investment is, the City will use the Consumer Price Index (http://www.bls.gov/home.htm) to measure the change in housing values in the area. This percent change will be multiplied by the owner’s investment in order to determine the fair return.

h. The sale price will not exceed Market Value, based on the appraised value of the property at the time of resale. Homeowner will be responsible for providing NBD with a current appraisal of the property to determine market value.

If the fair market value of a HOME-assisted homebuyer property is more than what is affordable to the range of low-income buyers, the PJ will set a resale price that, at a minimum, provides a fair return to the original homebuyer. The PJ will make the property affordable to its target population by making available appropriate HOME financial assistance to the buyer, if needed.

2. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

NBD will monitor compliance during the affordability period by verifying the beneficiary remains an owner occupant on an annual basis. NBD staff will send a letter and certification form with a “Do not forward” as a method to show they remain owner occupants.

In order to ensure compliance, NBD will use the Resale provision when investing HOME funds solely as a development subsidy into new construction or rehabilitation projects that will be sold to owner occupants whose income will be 80% or below of AMI. The owner occupant must certify their income within six months of closing or new documents will be requested. The affordability period of the project will be based on the total amount of HOME funds invested in the project. The resale provision will be secured through a restrictive covenant.

In the event the homebuyer wishes to sell his/her property during the affordability period, the following provisions must be adhered to:

In the event the homebuyer transfers his/her property (either voluntarily or involuntarily) during the affordability period, the following resale provisions must be adhered to:

a. The homeowner must inform NBD of their desire to sell the property prior to it going on the market;

b. The new homebuyer must have an income between 50 and 80% AMI at the time of purchase and must qualify with NBD by filling out a homebuyer application;

c. The new homebuyer(s) must occupy the house as his/her principal residence;

d. The resale price must be an amount affordable to the City’s targeted low-income buyers. This means, the buyers can secure a mortgage (through National Mortgage Licensing System approved lender) whereby they pay no more than 30% of their
monthly gross income for principal, interest, taxes and insurance (PITI) plus a reasonable down payment.

e. The new homebuyer must assume the remainder of the affordability period and will enter into a new HOME Program Agreement with NBD; and

f. The homeowner will be entitled to fair return on their investment upon sale of the Property. The owner’s investment includes their initial down payment plus capital improvements to the property. Improvements to the property will be defined as improvements that increase the market value of the home; ongoing maintenance costs, such as exterior painting, servicing and replacement of building mechanicals, and/or driveway sealant are excluded as capital improvements. The homeowner will be responsible for keeping adequate records of the improvements and said improvements must be approved by NBD.

g. In order to determine if what a fair return on this investment is, the City will use the Consumer Price Index (http://www.bls.gov/home.htm) to measure the change in housing values in the area. This percent change will be multiplied by the owner’s investment in order to determine the fair return.

h. The sale price will not exceed Market Value, based on the appraised value of the property at the time of resale. Homeowner will be responsible for providing NBD with a current appraisal of the property to determine market value.

3. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

   NBD does not typically use HOME fund to refinance existing debt. In the event that it is necessary to use HOME funds in this matter, NBD has established the following refinancing guidelines when using HOME funds to refinance existing debt:

   ▪ Show that rehabilitation is the primary eligible activity and ensure that this requirement is met by establishing a minimum level of rehabilitation per unit or a required ratio between rehabilitation and refinancing;
   
   ▪ Require a review of management practices to demonstrate that disinvestments in the property has not occurred, that the long term needs of the project can be met and that the feasibility of serving the targeted population over an extended affordability period can be proven;
   
   ▪ State whether the new investment is being made to maintain current affordable units, create additional affordable units or both;
   
   ▪ Indicate the required period of affordability, whether it is the minimum 15 years or longer; and HOME funds cannot be used to refinance multifamily loans made or insured by any Federal program including Community Development Block Grant funds.

**Emergency Solutions Grant (ESG) | Reference 91.220(l)(4)**

1. Include written standards for providing ESG assistance (may include as attachment)
The Syracuse Department of Neighborhood and Business Development (NDB) is working closely with the Continuum of Care (CoC)/Homeless and Housing Coalition’s (HHC) Executive Committee, the Monitoring Committee and the County of Onondaga, Department of Community Development to improve the written standards for the development and delivery of ESG program services. NBD will adhere to ESG’s Interim rules and HPRP guidelines in terms of:

- Evaluating individuals’ and families’ eligibility for assistance;
- Coordination among emergency shelter providers, essential service providers, homelessness;
- Prevention and rapid re-housing assistance providers, other homeless assistance providers, and mainstream service and housing providers;
- Determining and prioritizing eligible an individual or families for either homelessness prevention or rapid re-housing assistance;
- Determining the share of rent and utilities costs that participants must pay (if any);
- Determining the length of time an individual or family will receive assistance; and
- Determining the type, amount, and duration of housing stabilization and/or relocation services an individual or family may receive.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets the Department of Housing and Urban Development (HUD) requirements, describe that centralized or coordinated assessment system.

Contact Community Services has expanded its current after-hour sheltering assessment service via phone, internet and assist in identifying other ways clients and providers can access services. To date they have:

- Develop a process for the coordinated/centralized assessment that includes a “service tree” with timeline for full implementation of current system;
- Develop a procedures manual for agencies who participate in the coordinated/centralized assessment based on HUD's recommendations and other communities best practices, including after-care or follow-up;
- Create the necessary assessment tools for implementation;
- Produce reports on utilization, service needs/gaps and budgets; and
- Develop marketing plan for services in conjunction with NBD, Continuum of Care agencies and DSS.

3. Identify the process for making sub-awards and describe how the ESG allocation is available to private nonprofit organizations (including community and faith-based organizations).

- Priorities are identified through consultation with CoC and the 10 Year Plan, review of Homeless Management Information System (HMIS) data, and the annual needs/gaps assessment.
- ESG request for proposals (RFP) is posted on the city of Syracuse website, distributed to agencies, organizations, members of the Citizens Cabinet, and other individuals, agencies, and organizations that have requested to be added to a mailing list. Availability is also advertised at all TNT meetings and a display ad is placed in the Syracuse Post Standard, a local newspaper.
- ESG applications are reviewed by a Selection Committee, which is comprised of individuals of government, public housing, and service providers who have an interest in discussing poverty and homelessness issues. Funding recommendations are presented to the Commissioner of NBD.
- Preparation of a draft use of funds for the upcoming year called the draft Annual Action Plan.
- A Public Meeting is held, sponsored by the Department, when the draft Action Plan is available for public review and comment. This starts the 30-day comment period. Citizens are invited and encouraged to comment at the public meeting and throughout the 30-day comment period.
- The Syracuse Common Council holds a Public Hearing to garner further community input and formally approves the final Annual Action Plan or Five Year Consolidated Plan. Once approval has been received from the Common Council and signed by the Mayor, the Consolidated Plan is submitted to HUD for approval.
- Throughout the year, the Department reviews and evaluates funded programs and agencies, including onsite monitoring visits.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

The jurisdiction meets the homeless participation requirement by having a formerly homeless person as a part of its RFP review committee. In addition, a formerly homeless person sits on the Advisory Board of the local CoC’s Housing and Homeless Coalition.

5. Describe performance standards for evaluating ESG.

NBD, in collaboration with the CoC, has determined the following as performance standards for evaluating ESG activities:
- Increase the coordination among agencies and mainstream resources and other support services in assessing the needs of homeless or housing vulnerable individuals and families;
- Increase access to stable and affordable housing by creating a centralized housing database that identifies affordable, safe and decent housing to rapid re-house individuals and families;
- Increase access to services (credit repair/financial literacy) to reduce an individual’s or families’ vulnerability to homelessness.
Appendix A: Summary of Citizen Participation and Housing Needs Questionnaire Responses

Introduction:
The survey responses were collected via Tomorrows Neighborhoods Today (TNT) Questionnaires in the following locations: Downtown, Eastside, Eastwood, Lakefront, Southside, Valley and Westside. Additional questionnaires were completed by the Division of Code Enforcement, the Housing and Homeless Coalition (HHC) Service Providers, Mayor Stephanie Miner's Senior Staff, and the Onondaga Real Estate Investors Club (OREIC). The information compiled in this report will be used to assess the needs of Syracuse through the lens of residents and employees. The conclusions reached will assist the Department of Neighborhood and Business Development to determine priorities to address in the 2015-2019 Consolidated Plan.

Methods:
At each meeting, participants responded to the questions in a town hall style forum. After responses were collected, participants individually voted on which two answers they believed to be the greatest need, challenge, solution or barrier to housing needs in each respective neighborhood. These votes were tallied by the Department of Neighborhood and Business Development staff. Participants may have used both or neither of their two votes.

All responses were then compiled and reviewed for trends. Answers with similar themes or trends were categorized into 15-20 groups. For example, in response to the question, “What housing solutions do you recommend?” participants in the Eastwood TNT questionnaire said, “Improve the street lighting program.” This response was labeled as “Increase street lighting”. Respondents in the Southside TNT and the Department of Code Enforcement’s response to the same question was, “More police cameras in neighborhoods.” These were labeled as “Increase police cameras.” In the second phase of analysis, responses were narrowed down to 6-12 categories. In the example above, both “Increase street lighting” and “Increase police cameras” were grouped into a larger category called “Improve neighborhood safety.” Finally, the amount of votes were counted for each category.

Unique, yet distinct responses were categorized into “Other.” For example, in response to the question, “What housing trends do you see and what trends do you expect in the next 5 years?,” participants in the Downtown TNT said, “Every building has potential.” In response to the same question, participants in the Lakefront TNT said, “Future of I-81/690 Interchange.” Both of these responses were categorized into “Other.” For aggregated “Other” responses, see Appendix A.

When reviewing the data presented, it is important to consider the nature of the notes taken at each meeting. The responses did not always provide a direction of favorability or enough information to draw conclusions. While aggregating the categories, the best conclusions were drawn using assumptions from the information provided.

Demographics:
Each participant came into the survey meeting with varied levels of previous knowledge on the City's operations and housing needs. Previous community involvement and professional backgrounds likely influenced the outcome of conversations and votes.
The following information represents the representation of each group surveyed and the date the housing survey was performed.

Hon. Stephanie A. Miner
Mayor
City of Syracuse
219 City Hall
Syracuse, New York 13202

Re: Notification Letter

Dear Mayor Miner:

Empire Housing and Development Corporation has secured fifteen grants from the New York State Affordable Housing Corporation (AHC) to fund the Syracuse Purchase-Rehab Program.

Empire is now applying for additional funds from AHC, in the amount of $875,000, to continue the Purchase Rehab Program in Syracuse. If successful in securing an award, these funds will be used to continue assisting income eligible homebuyers in purchasing and rehabilitating homes in the city of Syracuse. Your support of this program is vital to its success and we will keep you apprised of our efforts to secure additional funding for this important homeownership program.

In the meantime, please do not hesitate to contact me if you have any questions regarding the Purchase Rehab Program or would like more information.

Sincerely,

[Signature]

Robert M. Sekowski
Co-Executive Director

February 27, 2015

Hon. Van B. Robinson  
Syracuse Common Council  
314 City Hall  
233 East Washington Street  
Syracuse, New York 13202

Dear Councilor Robinson:

Empire Housing and Development Corporation has been recommended for a reduction in funding for the 2015-2016 CDBG Year.

We feel that Empire has been one of the city’s best housing partners and one of its most productive housing agencies. To cut our funding when we are doing more than ever does not seem right. In the past year, we improved approximately thirty (30) homes through our Syracuse Purchase Rehab Program. We also secured another grant in the amount of $875,000 from the NYS Affordable Housing Corporation to continue the Purchase Rehab program which has assisted nearly 350 homebuyers in purchasing and rehabbing homes in the city of Syracuse. These funds are also used by other housing groups that need additional funds to make their projects feasible.

In the past year, with the support of the City of Syracuse, Empire secured $300,000 in HOME funds, $3.7 million from the NYS Housing Trust Fund, $270,000 from the Federal Home Loan Bank and $48,000 from NYERDA to rehabilitate the Moses Dewitt Apartments on Townsend Street which will improve and maintain 37 units of affordable housing for low income households. We also secured $750,000 from the Regional Economic Development Council and $25,000 from National Grid to assist in the environmental cleanup of 128 Spencer Street, the site of a planned Empire project that will provide affordable housing for veterans as well as a veteran service center here in the city of Syracuse. Since 1999, Empire has secured more than $20 million in grants to improve and produce housing in Syracuse, leveraging millions more in private financing for these projects.

The CDBG funds that Empire receives provide the support that is essential for agencies like us to work to secure funds and develop projects. Without these funds, it is impossible to do our job and to maintain the level of service for our community. The funds that Empire leverages and the housing that we produce certainly shows that funds awarded to us is one of the city’s best investments.

We are seeking your assistance in having the CDBG funding restored to at least last year’s level so that we may continue to work to improve Syracuse’s neighborhoods and provide affordable housing for low to moderate income households.
If you have any questions or would like to discuss this in more detail, please let us know.

Thank you for your consideration.

Sincerely,

Robert Sekowski
Co-Executive Director

RE: Comments and Requested Revisions to the Draft City of Syracuse Five-year Consolidated Plan including the First Year Action Plan

Dear Commissioner Driscoll,

We appreciate the opportunity to review and comment on the City of Syracuse’s Draft Five-Year Consolidated Plan, including our First Year Action Plan and funding recommendations. We request and recommend that funding of Harbor Street Lofts (700 Emerson Avenue, 107 and 109 Harbor Street) in the YEAR 41 HOME program be included in the plan, specifically on page 94. The project City award letter identifies Year 41 HOME as the funding type. There is opportunity to list HOME projects including Harbor Street Lofts as example of City partnerships under: a) page 79 - Quality Affordable Housing, and b) page 83 - Leveraging resources, and c) page 83 - HOME Developer Subsidies.

Page 88 list services to eliminate barriers to housing opportunity. The Harbor Street Lofts project has linkage letters with ARISE, Visiting Nurse, Transitional Living Services, Aurora, PEACE and a memorandum of Agreement with the Syracuse Housing Authority to provide preference to those with substandard housing and on SHA waiting lists – another City priority.

Page 91 provides the opportunity to identify the projects which are going to foster affordable housing. Harbor Street Lofts is a Year 41 awarded project which will create additional affordable housing.

Page 93 includes a list of Year 41 applications received but does not indicate the Harbor Street Lofts project; I understand that it appears to only list CDBG and ESG applicants, the heading should then be corrected since it does not include HOME applicants.

Page 94 only lists the CHDOs funded under HOME; it does not list the other HOME awarded projects. I understand that CHDOS are a priority; however all awarded projects should be included in this plan. As you know, HCR assigns points and priority to projects which are listed in a local comprehensive plan or planning document; the proposed City plan provides an unfair advantage to CHDOS and the projects listed and excludes other awarded projects.

We request that minimally Harbor Street Lofts be identified in the plan as a project that meets the Consolidated Plan goals and is supported by City HOME funding. I can be reached at 315-424-1111. We appreciate your consideration and partnership as we increase affordability and housing choice for those with disabilities.

Sincerely,

Mr. Paul Driscoll, Commissioner
Department of Neighborhood and Business Development
City of Syracuse
City Hall Commons, 6th Floor
201 E. Washington St. – Syracuse, NY 13202

Dear Commissioner Driscoll,

I am writing in support of Empire Housing and Development Corporation. I understand that they have been recommended for a reduction in funding for the 2015-2016 CDBG Year.

Empire has been one of the city’s best housing partners and one of its most productive housing agencies. I understand the significant financial challenges faced by the City of Syracuse; however, to cut their funding at this time seems counter-productive.

In the past year, they improved approximately thirty (30) homes through their Syracuse Purchase Rehab Program. They also secured another grant in the amount of $875,000 from the NYS Affordable Housing Corporation to continue that program which also provides subsidies to assist other housing groups in the city. Empire, with the support of the City of Syracuse, also secured $3.7 million from the NYS Housing Trust Fund to rehabilitate the Moses Dewitt apartments which will improve and maintain 37 units of affordable housing for low income households. The organization also secured $750,000 from the Regional Economic Development Council and $25,000 from National Grid to assist in the environmental cleanup of 128 Spencer Street, the site of a planned project that will provide affordable housing for veterans as well as a veteran service center here in the city of Syracuse. Since 1999, Empire has secured more than $20 million in grants to improve and produce housing in Syracuse.

The CDBG funds that Empire receives provide the support that is essential to agencies as they work to secure funds and develop projects. Without these funds, it is impossible to do their job and to maintain the level of service to which we have grown accustomed. The funds that Empire leverages and the housing that they produce certainly shows that funds awarded to them is one of the city’s best investments.
Mr. Paul Driscoll, Commissioner
March 6, 2015
Page two

As a resident and homeowner in the City of Syracuse for 30 years as well as someone who has worked in the City of Syracuse since 1982, I am keenly aware of the significant difference that Empire has made during a time when the population of the City has not grown and our housing stock has deteriorated in certain pockets. With all the progress the City has made during the Miner administration, we would hate to see any unnecessary backsliding in the vital work Empire provides.

Therefore, I respectfully ask that you reconsider your funding recommendation and restore Empire’s CDBG award to at least last year’s level so that they may continue their important work.

Thank you for your consideration.

Sincerely,

March 6, 2015

Dear Commissioner Driscoll,

I understand that Empire Housing and Development Corporation has been recommended for a cut in funding in the proposed CDBG budget for 2015-2016.

I am writing to urge you to restore the funds that are being eliminated from Empire’s budget so that they can maintain their level of housing services to our city and continue their good work.

Without the Empire’s Purchase Rehab Program, I would not have been able to make the improvements that were necessary for my home.

Again, I urge you to please restore Empire’s funding to last year’s level.

Thank you for your consideration.

Sincerely,

Choi Aler
June 4, 2015

Dear Commissioner Dris col,

My name is Jack Judson, and I reside in a two-family home in Syracuse, NY. Without the state's generosity, and the tremendous support by the entire staff at Empire, this would not have been possible. Because of you and the staff at Empire, not only do I have a home, but I can provide a wonderful, safe home for another family.

It has come to my attention that you face a very difficult decision in regards to the Purchase Rehab Program. As for myself and others that have been helped in this area by you and the Empire staff, it would be tragic to cut back on the funding of this program. It is my wish that you are successful in finding a way to balance your budget without harming this program. It might be possible to find cuts in other areas that do not have such a direct effect on the citizens.

Best Wishes & Good luck,

Jack Judson

P.S. Please forgive any misspellings on my part - just getting old.
March 6, 2015

Dear Commissioner Driscoll,

I understand that Empire Housing and Development Corporation have been recommended for a cut in funding in the proposed CDBG for 2015-2016.

I am writing to ask for a special consideration for this program. It is very important to families like mine. We received a wonderful job that without Empire’s Purchase Rehab Program it would not be possible.

Our city needs those services to keep our community beautiful. To help families enjoy a good environment, and to be warm in the winter. When a house is improved, not only the family that owns it beneficiates, but the entire community does. It gives value to the home, keeping house’s prices in the area according to the market, and not bellows it, keeping families interested in buying homes in the area, and not leaving.

Please restore Empire’s funding to last year’s level.

Thank you for your consideration

Sincerely,

Carlos Matos and Ivonne Rodriguez
Homeowners

Commissioner Paul Driscoll  
Dept. of Neighborhood & Business Development  
201 E. Washington Street, City Hall Commons, Suite 600  
Syracuse, New York 13202  

Dear Commissioner:  

Because of my continuing interest in the many programs which affect our City I recently devoted time to review the draft Annual Action Plan 41. Of particular concern to me is the attention which must be paid to create or save affordable housing.  

Having long been appreciative of the work of Empire Housing and Development Corporation I could not help but notice a reduction of funding for the non-profit community serving Empire and I strongly recommend additional funding, not less.  

Their anticipated housing development work as well as their past accomplishments over twenty years warrants an increase in Syracuse CD funding not a reduction.  

Empire’s work of the past year bodes well for the future also. Thirty homeownerships came about. Through Empire NYS funds were channeled to another housing partner, SMNC, when CD funds were lacking. Soon the Moses Dewitt Apartments, home to 37 subsidized occupants will come under Empire and be modernized, another example of successful work of this housing Partner.  

As past Executive Director of both Syracuse Model Neighborhood Corporation and Christopher Community, Inc. I applaud the constant effort of a very small astute Empire staff to accomplish and promote housing and related economic benefit.  

One should recognize their unique ability and persistence to weave together various funding sources for the good of housing in the City.  

It is time to make a strong financial commitment to them as a Syracuse Housing Partner.  

Sincerely,  

Peter J. White

MARCH 9, 2017

DEAR COMMISSIONER DRSICOL,

I UNDERSTAND THAT EMPIRE HOUSING & DEVELOPMENT CORP. HAS BEEN RECOMMENDED FOR A CUT IN FUNDING IN THE PROPOSED CDBG BUDGET FOR 2015-2016.

PLEASE RESTORE THESE FUNDS SO THAT EMPIRE HAS THE BUDGET TO CONTINUE THE GOOD WORK THAT THEY DO IN OUR COMMUNITIES. IN A CITY WITH SUCH OLD HOUSING STOCK AND ISSUES LEADING TO COUNTY LAND BANK OWNERSHIP, EMPIRE IS EXTREMELY IMPORTANT TO MAKING HOME OWNERSHIP A POSSIBILITY. THE WORK THEY DO ALLOWS PEOPLE TO DIRECTLY IMPROVE ON OUR COMMUNITY, SAVING THE CITY MONEY BY RESTORING HOUSES THAT MAY OTHERWISE NOT BE ECONOMICAL TO PURCHASE. THIS PROGRAM STRENGTHENS COMMUNITIES BY ALLOWING PEOPLE TO BECOME HOMEOWNERS. WITHOUT EMPIRE'S PROGRAM, I WOULD NOT HAVE BEEN ABLE TO PURCHASE MY HOME SIMPLY BECAUSE THE NECESSARY REPAIRS WOULD NOT HAVE BEEN AFFORDABLE. A HOUSE THAT DID NOT NEED REPAIRS WOULD NOT HAVE BEEN AFFORDABLE EITHER. IN THIS WAY EMPIRE'S SERVICES ARE TWO FOLD: THE HOUSING STOCK OF THE CITY IS IMPROVED AND COMMUNITIES ARE STRENGTHENED WITH NEW COMMITTED HOMEOWNERS. LIKE WISE IF FUNDING IS CUT, EMPIRE'S PURCHASE REHAB PROGRAM IS UNABLE TO CONTINUE THEIR WORK IN THE SAME CAPACITY THIS CITY WILL BE HURT. IN BOTH THESE WAYS, THIS IS A GOOD PROGRAM, THIS IS WHAT IS NEEDED TO STRENGTHEN THIS CITY. EMPIRE HAS BEEN VERY IMPORTANT TO ME, WITHOUT IT I WOULD NOT BE WHERE I AM TODAY, IN MY OWN HOME, TAKING PART IN MY COMMUNITY.

URGE YOU TO PLEASE RESTORE EMPIRE'S FUNDING TO LAST YEAR'S LEVEL. I WOULD EVEN URGE YOU TO INCREASE IT. IT IS PROGRAMS LIKE THIS THAT WILL MAKE SYRACUSE A BETTER PLACE. THANK YOU FOR YOUR CONSIDERATION.

ALL THE BEST,
KIVA VANDERGEEST
LOVE AND
March 9, 2015

Dear Commissioner Driscoll,

I am aware that Empire Housing and Development Corporation may lose some of its funding in the proposed CDBG budget for 2015-2016.

I am writing to ask if you would please restore Empire’s funds to the original amount, otherwise they will be unable to properly provide resources and services to those who greatly need and depend on their program and great work.

I can gratefully say that I am a recipient of the Empire Purchase Rehab Program. I did not have any knowledge or experience on how to buy a house, nor the funds. If it had not been for the Empire Housing and Development Corporation’s staff, concerns, compassion, negotiation, grants and all of their legwork, I would not have been able to purchase my house with my income. My house was greatly damaged, therefore I would not have been able to afford the rehabilitation cost without the Empire’s Purchase Rehab Program.

I would also like to note that the Empire staff has always been very supportive of me. Any time I have a question or a need they do their best to provide helpful information.

Again, I ask that you please restore Empire’s funding to last year’s amount.

Thank you very much for your consideration.

Sincerely,

Nancy Pollard

Nancy Pollard
March 9, 2015

Dear Commissioner Driscoll-

I understand that Empire Housing and Development Corporation has been recommended for a cut in funding in the proposed CDBG budget for 2015-2016.

I urge you to reconsider this decision so that they can continue to serve homeowners in our community.

As a recipient of one of its grants, I can attest to how much this kind of help means to a first-time home owner. I was lucky enough to find a very reasonably priced house in a quiet neighborhood but it was built in the 1950s and needed some basic updates that I could not have afforded on my own. Through my grant with Empire Housing I was able to get energy-efficient windows and insulation, get some electrical updates, replace a broken toilet, and replace old lead pipes. I would not have been able to do this on my own.

I like to say that Empire let me have a house with solid “bones” that I can now build on.

This program helps lower-income residents get and/or stay in homes, helping to keep our neighborhoods stable and strong.

I urge you in the interest of our community and city to please restore Empire’s funding to last year’s level.

Thank you for your consideration.

Sincerely,

Tess Schaufler

Date: March 10, 2015

Dear Commissioner Driscoll,

I understand that Empire Housing and Development Corporation has been recommended for a funding cut in the proposed CDBG budget for 2015-2016.

I am writing to urge you to restore the funds that are being eliminated from Empire’s budget so that they can maintain their level of housing service to our city and continue their good work.

We would not have been able to make the many necessary improvements that were so badly needed when we purchased our home. Empire helped us to make our home more energy efficient as well as helped in choosing competent and reliable contractors.

Sir, again i urge you to please restore Empire’s funding to last year’s level.

Thank you for your consideration

Sincerely,

Dexter & Heustine Baines

Heustine Baines
Hi Paul – attached are two documents that have the information you requested for the Consolidated Plan. The Word document outlines the activities of our Service Coordinators, Social Worker and Section 8 program in the City. The Excel file lists all the buildings we have in the city with the address and number of units. Part of what is important in the information is to demonstrate how much we have going on in the city. Equally if not greater in importance is to demonstrate to other funders, particularly NYS HCR what we have done, and how important it is to the city what we and other want to do. The state is becoming increasingly demanding that a proposed project be in some type of local plan. For instance, they would like to see that a Northside redevelopment concept, one year, translates into specific proposed projects at specific locations by some housing group in the next year’s plan. This inclusion gives all of us who pursue other funding sources the local support of a particular plan and helps convince NYS that a project is not just a developer’s dream.

Please let us know if there is any more information that you want or any other assistance you may need with the Plan. We appreciate you taking the time with this issue as well as your support.

Thanks
Doug

Subject: RE: Draft Consolidated Plan

Doug,

That’s why we call it a draft. We’ll look to incorporate these points into the final version. To help us do so, could you...

- Provide us detail on the 750 apartments and the dozens of buildings in the city;
Describe the services CC provides to seniors and the service coordinator program in general as well as enumerate “many”;
Provide detail on how the staff social worker assists connecting residents of your buildings to the community and meeting their needs;
It would also be interesting to learn more about the existing 900 Section 8 recipients (household type, race, age) to understand how these opportunities could be availed by current city residents;

We will certainly will include you in Appendix D as a housing provider and regret the omission. In regards to the Northside initiative, I’m not sure to what you’re referring. If you mean the group of folks that met several times to discuss Butternut Street, that is not a city-driven process, purposely at this point.

Thank you for your comments and I look forward to expanding on the benefits your organization provides this community for the final version of the Plan.

Paul

Subject: Draft Consolidated Plan

Paul and Stephanie — I read with interest the Draft Consolidated Plan. Christopher Community was mentioned once in passing. We have been providing affordable housing for nearly half a century, longer than most other housing agencies in the area. We have over 750 apartments in Syracuse alone, in dozens of buildings all around the city. We have over 3000 units across upstate NY reaching as far as Buffalo, Utica, Watertown and Elmira.

Christopher Community also provides services to many seniors in a number of our buildings through our service coordinator program. For over 20 years, we have had a staff social worker to assist others in our buildings with connecting to the community to meet their individual needs. We also run the Section 8 program with about 900 vouchers for Onondaga County and have a number of participants in the city since recipients move all over while on the program.

I noticed that we are not even listed in Appendix D as a housing provider. In order for us to successfully compete for funding to build and renovate housing, we need to be acknowledged as being a player in the Syracuse housing development market. The Northside initiative is right in an area where we have a number of buildings and several hundred residents and where we would like to do more to revitalize the neighborhood that our existing buildings are in and yet we were never involved.

Maybe our absence is due to the fact that we rarely ask for money but it has been our philosophy to leverage as much from others and leave as much local funds for those that have limited resources. Our leverage of your funds is probably one of the most efficient as evidenced by Joslyn III & IV where we are delivering new affordable family housing for only $10,000 per unit of City HOME money.
If what we do is not of interest, please let us know. We have many requests from other communities that are looking for housing. On the other hand, if you want our help and participation, please contact us. We are ready to partner and collaborate with the City and others as evidenced by the development of any number of our current projects.

Thank you for your time,

Doug

Re: Support Letters
Date: March 13, 2015

Empire Housing and Development Corporation is slated for a cut of approximately $12,000 in this year’s proposed CDBG budget (Program Year 41).

Attached are letters of support that were submitted to Commissioner Driscoll in support of Empire Housing and Development Corporation and our effort to restore funding that is proposed to be cut in this year’s CDBG budget.

We would greatly appreciate your support as well. Please consider these letters when making your decision regarding funding allocations.

If you have any questions or would like more information, please let us know.

Thank you for your consideration.
March 16, 2015

To whom it may concern:

My name is Jessica Deer and I am writing this letter in regards to hearing that the funding was cut for the Empire Housing and Development program. This saddens me. Was it not for this program, I may have not met my goal of becoming a homeowner. It was through this program that I was able to make my dream a reality and have a home I could depend on.

Not only did this program provide the repairs to make my home comfortable, it also taught me what to look out for and how to handle potential future problems. This program wasn’t just perfect to help a first time home buyer get on her feet, but also an educational tool just like the ones utilized by Home Headquarters. Through the leadership and guidance of Barbara Phelps, Bill DeMarle, and Bob Sekowski, I was able to feel confident in the decisions I was making regarding my home and always had someone to help me if more guidance was needed.

Now, my home is just as I would like it to be. I have lived there a year and a half now. Without programs such as this, I may still be lost. I may still be looking and trying my best to figure out how I would save up the money needed for such an expensive venture. Instead of still trying to figure it out, I am a full-fledged tax payer contributing to the City of Syracuse, where I plan to stay. Had I not had this funding, I’d be looking to relocate to somewhere more affordable. That’s just the honest truth. I probably wouldn’t be a homeowner where I pay less for my mortgage/taxes than everyone I know who pays rent.

Empire Housing was a major factor in this new chapter in my life. To cut their funding would be to limit the new homeowners that may choose to stay in the City of Syracuse. It amazes me what funding gets cut and what gets increased. More programs that facilitate self-reliance are what I believe are necessary for people to get on their feet (as opposed to programs where a person may find themselves reliant on, instead of utilizing that funding for a better future).

Please do not cut the funding as I’m looking forward to congratulating more first time homebuyers in the future. I want people to stay in the city as much as you do.

Sincerely,

[Signature]

March 16, 2015

Dear Commissioner Driscoll,

I understand that Empire Housing and Development Corporation Has Benn recommended for cut in funding in the proposed CDBG budget for 2015-2016.

I am writing to urge you to restore the funds that are being eliminated from Empire's budget so that they can maintain their level of housing services to our city and continue their good work.

Without the Empire's Purchase Rehab Program, I would not have been able to make improvements that were necessary for my home.

Again, I urge you to please restore Empire's funding to last year's level.

Thank you for your consideration.

Sincerely,

Frances E. Mickens

To: Driscoll, Paul
Cc: Pasquale, Stephanie
Subject: WCC & Consolidated Plan

Paul:

On page 27th it describes the WCC as not in a city owned facility. Although there may have been an historic connection to the two other community centers and they are both in revitalization areas the WCC is in a city owned facility.

I may not be able to make it tonight but here’s some quick thoughts. There is a lack of a strategy to support and increase the number of private landlords for affordable housing. Owning rental property creates wealth growth and employment. The Tenant Network’s landlord training and Home Headquarters step into lending for landlord’s are starts but it seems like the city has no plans to work in that direction.

In addition I think you should have in the document how much the housing allowance is for PA for difference size families. A chart showing how far behind fair market rents the public assistance housing allowance is would be important. The report could say that setting these rates is a function of state government policy decisions.

On the HUD-assisted housing I think you should mention the RAD program. This will increase the supply of deep subsidy housing. Valley Vista which previously had 12 section 8 subsidies for 122 units will now have all 122 units subsidized. Clinton Plaza which had 180 out of 300 units (60 were off-line) will be able to renovate the 60 off-line units and end up with 300 not 160 deeply subsidized units.

Also on pg 61 where you have that little chart where you put section 236/202 projects. First of all we have at least one project Brick School Terrace which is a 221D3 project. More importantly I think you should describe these as federally assisted privately owned subsidized housing. It is confusing that you have nothing in that box since Christopher Community and Conifer also should be in that box as well as the low income tax credit box.

Just a few thoughts. if I do not make it tonight I can cut and paste this into a statement.

March 18, 2015

Dear Commissioner Driscoll,

This year, Empire Housing and Development Corporation has been recommended for a funding cut from $90,477 to $79,000. When I came to the city of Syracuse without a substantial income, Empire Housing came to my aid. I was given a Rehab grant that enabled me to upgrade the electrical boxes to code, install much needed insulation, and improve the other essential house hold problems such as being able to paint a moist basement. I have now occupied my house for 11 years and continue to greatly enjoy my home.

When I am in need of assistance, Bob Sekowski, Bill DeMarle, and Barbara Phelps are always available to help answer questions and give pertinent information about my home.

I urge you to please continue to fund the Empire Housing Programs with the same amount of $90,477, as it will aid in helping Syracuse homeowners raise the quality of their homes with much needed financial grants and loans.

Thank you for consideration,

Sincerely,

Darlene Kiser

Paul Driscoll, Commissioner
City of Syracuse
Department of Neighborhood and Business Development
201 E. Washington Street
Syracuse, New York 13202

Dear Commissioner Driscoll,

On behalf of the Board of Directors and staff of Syracuse Model Neighborhood Facility, Inc. I would like to thank the Department of Neighborhood and Business Development and the Stephanie Miner administration for your continued support of the Southwest Community Center. As you are aware, SWCC operates in the tradition of neighborhood settlement houses and provides services and activities designed to identify the needs and reinforce the strengths of individuals, families and communities. SWCC is a multi-faceted 26,337 square foot facility, located in one of the city’s two designated Neighborhood Revitalization Areas. CDBG funding supports center activities and programs six days/week throughout the year that include:

- **Public Health Services**: violence prevention, HIV prevention and case management (i.e. FACES for AIDS/HIV) and intervention programs, family planning and reproductive health, healthy start for women, infants and now fathers, nutritional education.
- **Youth Development**: educational support and recreational programming (summer, school holidays and after school), inclusive services for youth with developmental disabilities, self-esteem projects such as PRIDE, Journey to Manhood, Intelligent Young Minds/IYM)
- **Community Services**: family support services including crisis intervention, advocacy and case management, food pantry and fresh food giveaway, neighborhood revitalization programs and projects, and job-readiness services. The SWCC organizes and accommodates numerous community wide programs on-site throughout the year.

During the 2013-14 program year approximately 8,000 individuals benefited from services offered or use of the facility and this year the center is on pace for these numbers again. Additionally, we are extremely excited about the current renovations underway to establish a new police satellite office in the center, expected to open in May of this year. Thanks to the administration and council for that decision.

Southwest Community Center continues to serve as a vital stakeholder in the Syracuse Community and particularly on its south and southwest neighborhoods. Again, thank you for your continued support.

Sincerely,

Sharon F. Owens
CEO

401-425 South Avenue, Syracuse, New York 13204; Phone 315.474.6823; Fax: 315.479.8023
Managing entity of the Southwest Community Center (owned by the City of Syracuse)
Visions For Change is a workforce empowerment organization that defines professional expectations through education, professional partnerships and long-term support.

**Education**

- **Choosing to Thrive:** A workshop geared to help participants understand who they are, where they want to go, and how they will get there. They also receive training in job seeking best practices and soft skills.
- **Poverty Simulation:** A powerful tool used to break down the stereotypes of poverty and get a glimpse of what it’s like for those living below the poverty line in our community. It is a revelation of the obstacles that are faced, the decisions that are made and the consequences that impact families every day.
- **Beyond our Differences:** A workshop designed to gain understanding and insight on how to effectively support and work with people in poverty. The training will help you take a look at poverty on a larger scale. You will walk away with tools and strategies to help you address societal barriers at the individual, agency, and community levels.

**Professional Partnerships**

- **Employer Partnerships:** VFC has developed a networking system in which excellent participants are referred for interviews to businesses for current job openings. Businesses also provide expertise to resume workshops, mock interviews and employer showcases.
- **Guiding Coalition:** An association of over 40 different organizations, businesses, volunteers, and participants responsible for developing a strategic plan that will allow them to work on eliminating barriers that hold individuals in poverty and securing resources that will help mobilize people toward self-sufficiency.
- **Mentoring:** A supportive relationship to empower someone who is working their way out of poverty. You can provide a key component by sharing just a few hours a month.

**Long-term support**

- **Job Coaches:** VFC works with participants for at least 12 months to support them in retaining their jobs. Coaches stay in contact with both employee and employer to promote professional expectations and proactively seek success.
- **Resources:** Holding on to a job may require planning for the unexpected or contingency funds. VFC provides financial resources such as an IDA car buying program, short-term loan program, certification scholarships. We also provide referrals to help with credit repair, home purchase, and much more.
3/25/15

Park Driehl
Commissioner of Neighborhood & Business Development
City of Syracuse

RE: Consolidated Plan & CDBG

Dear Commissioner,

In order for the Common Council to make an informed decision on the Year 4/1 proposed CDBG/ESG, please provide us with the following:

1. A comparison of Year 4/0 Requested & Allocated to Year 4/1 Requested & Proposed Allocation

2. A detailed synopsis of each applicant's rationale on the use of funds requested

3. Year 4/1 should include a list of those entities who applied but which did not receive funds.

4. The City's proposed 5-year Consolidated Plan lacks sufficient input from the community. A draft of analysis to support the strategic priorities for 2015-19. I request that this plan be modified accordingly.

Thank you,

Kathleen Joy
Thank you Paul. I appreciate having all of the information resent in one email. My apologies for the handwritten note but since this was the last day for public comment, I wanted to get them to you immediately after the Council Public Hearing.

In my opinion, the Council cannot vote on 3/30 on the CDBG allocations or Consolidated Plan. If time becomes of the essence, I am sure that Councilor Kessner could call a special meeting for this purpose when we are comfortable with the allocations and the plan. That’s her call.

Kathleen Joy

---- "Driscoll wrote:
Councilor Joy,

In response to the data requests that you handed to me on Wednesday (attached), I am re-forwarding you the information we sent out on March 16th, which covers items 1 and 2 on your list. Also attached is the list of agencies that applied and are not recommended for funding that addresses item 3 on your list (Stephanie sent this out to all councilors on Wednesday).

My staff made every effort to include as broad of a spectrum of public input as possible, from two-person meetings with SUN to hitting every TNT sector to two three-hour meetings with the Onondaga Real Estate Investor Club (OREIC) to a 100-person housing service provider meeting at OCC. In total, we collected input from more than 250 stakeholders (please see Appendix A of the Plan). Email invitations to the TNT listservs reached nearly 1,000 individuals, including the Council, for which Councilors Maroun and Dougherty participated in our housing and community needs survey early in the fall. This was all pre-release of the Con Plan. Since release, we have received input from an additional number of individuals and are in the process of adding their comments to the Plan.

As you may recall, I presented the main strategies of the Plan to the Council pre-release at two separate public meetings: February 18 and February 23. After the Meeting on the 18th, I worked with my staff to basically revamp the entire Plan based upon feedback from Council. Please see here for the current draft of the Plan<http://www.syrgov.net/uploadedFiles/Departments/Neighborhood_and_Business_Development/Content/DRAFT%202015-19%20City%20of%20Syracuse%20Consolidated%20Plan.pdf>. Although we covered this at the first meeting with Council, I want to reiterate that the city of Syracuse, like all other participating jurisdictions receiving HUD entitlement funds across the county, is required to collect and analyze data and provide narrative responses to 180 mandatory questions (see attached listing). Not only did we accomplish this feat, but we did so with a staff that is a third of the size we had for the last Five-Year update and without skipping a beat in administering our current Year 40 funding.

I have to say I am discouraged with the lateness and open-ended nature of the criticisms of the Plan. This Plan has been available for more than a month, and it has been evident from the line of questioning I have received that some Councilors have not yet read the Plan. A delay of a March 30 vote may impact the timely release of funds for our May 1 program year start. After four public meetings on this issue, with talk of a fifth, this Plan has been vetted more than any
other in my memory. I am respectfully requesting that the Council move this Plan forward on Monday with your final decisions to avoid any delay in serving our community. Thank you, Paul

Paul Driscoll, Commissioner

Subject: RE: CDBG

Hello Councilor,

Attached please find the following files:

1) Year 40 (2013-14) Block Grant Budget
2) Year 41 (2014-15) DRAFT Block Grant Budget
3) NBD Goals and Outcomes from 2010-14 | Shows proposed outcomes and actual outcomes in tabular format; also, here is a link to last year’s CAPER

Regarding detailed expectations from each recipient for the Year 41 proposed budget, it is through the final allocation and contracting process that we set annual performance goals. However, we have provided the general description of what each agency’s program professes to accomplish (see below). The specifics of which will be determined by the final approved budget. I would be happy to share any of the applications we received with you for more detailed information.

After you have had a chance to review, please let me know if you have any questions. Thanks very much, Paul

Projects funded with CDBG dollars align with the three primary strategy areas outlined in our Five Year Consolidated Plan. They are: housing preservation and production, services for housing vulnerable and programming for special needs populations. Additionally, services for homeless prevention and rapid rehousing are funded through the Emergency Solutions Grant (ESG). A summary of these programs are provided below:

SERVICES TO INCREASE HOUSEHOLD WEALTH

Boys & Girls Clubs of Syracuse  
The Boys & Girls Clubs of Syracuse’s Teen Program provides youth ages 13 to 19 a positive alternative to the streets during the school year and into the summer. Programming includes educational, enrichment, social, and recreational activities at three locations within distressed neighborhoods.

CenterState CEO Foundation
Northside UP is an agency that exists within the CenterState CEO Organization and is dedicated to the provision of workforce training and entrepreneurship opportunities for Syracuse residents, particularly on the city’s Northside. The UP Start Syracuse program provides technical support to individuals and micro-enterprises seeking to start up and grow within the city of Syracuse. The WorkTrain program provides job training and skills experience to individuals seeking employment in a number of industries, and has developed partnerships to place program graduates in full time career positions.

Home HeadQuarters
Home HeadQuarters’ Urgent Care program provides low to moderate income households with loan capital to make emergency repairs to their homes. The program is structured to offer an average loan amount of $10,000 per household. SHARP provides low-income owner-occupants in the City of Syracuse with small grants for minor home repairs. The agency provides assistance to customers throughout the application and construction process. Administered by Home HeadQuarters’ Homeownership Program, this program helps address major barriers to homeownership. The program allows many renters to purchase a house and begin building equity. It provides up to $3,000 in down payment and closing costs funds for households in need of such assistance. The assistance is provided in the form of a 5-year deferred loan.

Home HeadQuarters, Homeownership Center
The purpose of the Foreclosure Prevention Program falls under Home HeadQuarters homeownership services program. The program provides counseling to help homeowners understand household finances and understand the foreclosure process. Services are also provided to borrowers in need of assistance with loss mitigation such as foreclosure prevention options, litigate cases whenever appropriate and assert client-rights from high-cost and predatory loans.

Home HeadQuarters also provides homebuyer education programs under their Homeownership Services, which teaches first-time homebuyers everything they need to know about buying a house. Accredited by NeighborWorks of America®, this education tool for potential homebuyers is a pre-requisite for the Down payment and Assistance Program.

Empire Housing
Located on the Westside of the City, Empire Housing rehabilitates dilapidated structures for homeownership. Empire has secured New York State Affordable Housing Corporation (AHC) funds that allows up to $20,000 of rehab improvements for new owner-occupants.

Huntington Family Center – James Geddes Youth Services Program The Youth Services Program provides a safe, structured program for children ages 5 to 12 that live on the Near Westside of Syracuse. The program offers group and individual activities that focus on asset development and community ownership while helping youth to achieve their future goals. The program is composed of three components; an after-school program, academic support in the form of tutoring with a goal of truancy prevention and building social skill competencies, and offering a seven week summer day camp during July and August.

Jubilee Homes of Syracuse, Inc.
Jubilee Homes serves the Southwest-side of Syracuse by providing homeownership counseling services to potential homeowners and those facing foreclosure. Support for workforce development training is also provided to residents who are seeking employment in the neighborhood. Jubilee Homes is also funded to carry out technical assistance for businesses struggling or looking to start up on the Southwest side.

Northeast Hawley Development Association, Inc. (NEHDA) The Northeast Hawley Development Association (NEHDA) serves the City’s Northside neighborhood, partnering with both the City and sister agencies on a number of residential and commercial redevelopment efforts. NEHDA’s primary role is to provide housing counseling and outreach to Northside residents to market City programs such as the Butternut Street Residential Home Improvement Program.

PEACE, Inc.
PEACE, Inc. facilitates the Big Brothers Big Sisters Program in Onondaga County that provides one-on-one youth mentoring and education opportunities for city of Syracuse youth. Transportation is provided to these students who participate from their school to where the program takes place.

Syracuse Model Neighborhood Facility, Inc. (Southwest Community Center) The Southwest Community Center facility includes a gymnasium as well as an indoor swimming pool. Services available at the SWCC include a food pantry, case management for individuals and families in need, violence intervention and prevention and a branch library of the Onondaga County Public Library.

Syracuse Northeast Community Center (SNCC) Located on the City’s near northeast side and adjoining Dr. Weeks Elementary School, SNCC provides a diversity of public services deemed most appropriate for the neighborhood. In addition SNCC operates several direct service programs including Teen Night Beat.

Westcott Community Center
The community center provides a number of after school programs and adult education programs that affect personal development. Other services such as senior citizens advisement and lunch program, lecture series, concerts and farmer’s market make the facility a community anchor for the city’s east side.

Welch Terrace Apartments
Welch Terrace Apartments provides affordable, permanent and secure supportive housing to a population increasingly at risk of becoming homeless; those diagnosed with HIV/AIDS. By providing tenants with supportive housing, many are able to stabilize their lives, live independently and enjoy an enhanced quality of life.

Request for Proposal | Revolving Loan Fund for Small Business Capacity Building

CDBG funds will be used for small business loans to increase their capacity and benefit the surrounding neighborhood through increased provision of services with potential for job creation as these businesses seek to hire additional employees. Loans will be managed by a separate financial entity that is awarded the RFP contract and dispersed to private businesses and microenterprises seeking to grow or expand in the city of Syracuse.

SERVICES TO ELIMINATE BARRIERS TO HOUSING OPPORTUNITY

ARISE, Inc.
The advocacy and referral program provides information to individuals regarding housing availability and support services within the City. Within the program ARISE also offers one-on-one sessions with individuals looking for more extensive information in services and the ability to live independently. ARISE also facilitates the Home Access Program that provides ramps to homeowners with disabilities that would otherwise prevent them from accessing their home.

Catholic Charities
The Catholic Charities Relocation Program will serve low income families and individuals who live in Syracuse and are housing vulnerable. The program will address housing vulnerability by providing relocation and other services to housing vulnerable households. Residents in need of relocation services will receive case management services to obtaining and maintaining safe, affordable housing. The program will work directly with the Department to address emergency relocation needs of tenants occupying building deemed uninhabitable by the City of Syracuse. Additionally, the Homeward Connection program provides homeless prevention and rapid rehousing services to individuals through assessment of housing barriers and identifying potential resources and goals.

Covenant Housing
Covenant Housing provides mortgage and pre-qualification assistance to individuals with disabilities throughout the City. Covenant also renovates and manages and/or sells accessible housing to qualified owners/renters.
CNY Fair Housing
The mission of the CNY Fair Housing is to “create equal housing opportunities for people through the enforcement of federal housing discrimination laws.” The City contracts with CNY Fair Housing to complete an Analysis of Impediments that demonstrates patterns of segregation, housing opportunity, and regional analysis of housing impediments.

InterFaith Works of CNY
Center for New Americans caseworkers assist clients with a variety of needs such as arranging for housing, utilities, furnishings, and food; enrolling adults in English learning classes and children in school; ensuring that necessary medical care is received; finding employment; and providing help understanding U.S. culture. The Center also assists groups in developing their own self-help associations and in the fulfillment of projects of their choosing. Interfaith also provides mediation and housing stability services through homeless prevention case management. Tenancy education and counseling are provided to many refugees who are at risk of homelessness.

Syracuse Model Neighborhood Corporation (SMNC) SMNC receives CDBG funds for the purpose of maintaining important inventory of rental units for low-income residents. The staff of SMNC also organizes tenant meetings within agency owned multi-unit buildings and tenant support services.

YMCA Men’s Residence Program
The YMCA Men’s residence program offers affordable housing for men in the Syracuse community struggling to access permanent housing. Men are connected with mainstream resources and various counseling centers. The program works very closely with the ESG funded Men’s residence program as well.

Chadwick Residence
Chadwick Residence provides case management and housing stabilization services to homeless women and children as needed with the main goal of assisting individuals with obtaining and maintaining permanent housing through the rapid re-housing process.

Liberty Resources Inc.
The DePalmer House provides rapid rehousing activities for persons with HIV/AIDS through a housing search process and placement as well as working with individuals to regain housing stability.

Hiscock Legal Aid Society
Hiscock provides legal representation and case dispositions for individuals at risk of becoming homeless. These services fall under the homeless prevention category of the ESG grant.

In My Fathers Kitchen
In My Fathers Kitchen utilizes the street outreach category of the ESG grant by distributing meals, developing relationships and connecting homeless individuals with mainstream support services and activities.

Greater Syracuse Tenants Network
The Tenants network provides mediation for tenants facing eviction or homelessness due to unfit properties within the City of Syracuse. The tenant’s network works very close with the City to prevent individuals from becoming homeless due to code violations, foreclosures and water shut offs.

The Salvation Army
The Transitional Apartment and Parenting Center (TAPC) rapidly re-house homeless pregnant and parenting youth though housing search and placement. Obtaining stable housing is the main goal of the TAPC program. The Barnabas Transitional Living Program (TILP) focuses on obtaining stable housing for youth. Much like the TAPC program, The Salvation Army works to rehouse youth through housing search and placement. The Housing Assistance and Life Skills Education (HALE) program provides direct assistance in the form of security deposits to individuals in need of housing placement.
YWCA
The YWCA provides case management and housing stability by identifying community resources for women and developing comprehensive individualized services planning for the future. Individuals taking part in YWCA's program are ultimately rapidly rehoused.

Direct Financial Assistance | Request for Proposal ESG funds will be used for direct financial assistance subject to the general conditions outlined by HUD for such activities for low and moderate populations that are considered housing vulnerable. These funds may be used to pay housing owners, utility companies and other third parties for rental application fees, security deposits, rental assistance and utility deposits, and moving expenses. A community entity will be selected to manage the financial assistance program.

SERVICES FOR COMMUNITY ENGAGEMENT AMONG SENIORS

Syracuse Model Neighborhood Facility, Inc. (Southwest Community Center) The Southwest Community Center facilitates the neighborhood advisor program to engage and work with senior citizens in the southern section of the city of Syracuse. The center’s nutrition program also plays a role in providing healthy food and provide to senior citizens.

Syracuse Northeast Community Center (SNCC) SNCC operates a senior support center with a variety of services including a transportation program providing rides to grocery stores, banks, etc. Other services include the senior-youth intergenerational partnership to foster relationships between older adults and on-site preschool children, and a comprehensive resource and referral service through a partnership with the Onondaga County Department of Aging/Adult Long Term Care.

Westcott Community Center
The Westcott Community Center participates in the neighborhood advisor program to serve nearby senior citizens and also operates the Golden Café senior lunch program and senior exercise programs that serve the city’s aging population.

SERVICES TO CREATE HEALTHY AND SUSTAINABLE HOMES

Home HeadQuarters
The Urgent Care / Home Improvement Program provides low to moderate income households with loan capital to make emergency repairs to their homes. This program now includes Lead Hazard Control for owner-occupied households with children ages five and under to protect them from lead paint surfaces that may be harmful to their health and development.

NBD Distressed Property Program and Affordable Housing Development To address blighted housing influences, real estate development activities funded under the Distressed Property Program include vacant property rehabilitation for both first time homebuyers and affordable rental properties. Other activities include property demolition and deconstruction. With each of these real estate projects, developers are encouraged to apply sustainable building or deconstruction practices projects are as sustainable as possible.

Subject: CDBG

Hello, Paul. In preparation for our upcoming meetings regarding CDBG, please send to all councilors:
- the amounts requested and received by each agency last year (year 40)
- the amounts requested and proposed to go to each agency this year (year 41)
- a synopsis of performance of each agency, and
- detailed expectations from each recipient.

Thank you!
Appendix B: GIS Analysis Maps

Percent of One Person Households

Legend
- NRSA/SURA Boundaries
- % of 1 Person Households
  - 15% - 24%
  - 24% - 33%
  - 33% - 49%
  - 50% - 58%
  - 59% - 63%

Syracuse's average for one person households = 38.37%

We see concentrations of one person households (at or above 50%) in eight census tracts.
Three of those eight are within the NRSA.
This map is for planning purposes only.
The City of Syracuse cannot guarantee its accuracy.
Information gathered from the 2010 Census.
Percent of All Households with a Cost Burden

Legend

- NRSA/SURA Boundaries

% of Households w/ Cost Burden

- 15% - 25%
- 26% - 35%
- 36% - 49%
- 50% - 59%
- 60% - 68%

Syracuse’s average for households with a cost burden = 44.47%
We see concentrations of these households (at or above 50%) in 19 census tracts.
Fifteen of those 19 are within the NRSA.
This map is for planning purposes only.
The City of Syracuse cannot guarantee its accuracy.
Information gathered from the 2012 ACS.
Racially and Ethnically Concentrated Areas of Poverty, Syracuse, NY

Legend
Syracuse Census Tracts
- Racially/Ethnically Concentrated Areas of Poverty*
- Not RCAP/ECAP

*The racially/ethnically-concentrated areas of poverty (RCAPw/ECAPs) are defined as census tracts with a non-white population of 50 percent or more and census tracts where 40 percent or more of individuals are living below the poverty line.

<tbody>
<tr>
<td>Division of Code Enforcement Records</td>
<td></td>
</tr>
</tbody>
</table>

List the name of the organization or individual who originated the data set.
Division of Code Enforcement with Syracuse

Provide a brief summary of the data set.
The Division of Code Enforcement is responsible for plan review and inspection of building construction within Syracuse. It also maintains the Housing and Property codes and enforces compliance with the Syracuse Zoning Ordinance. In the process of maintaining the Housing and Property Codes, Inspectors and DOCE employees record the current state of Syracuse Properties.

What was the purpose for developing this data set?
The data set has been developed in order to maintain a record of property inspection, building construction and permit management.

How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?
Data collection is citywide.

What time period (provide the year, and optionally month, or month and day) is covered by this data set?
Information is entered and updated daily. That dataset was downloaded on 12/30/2014.

What is the status of the data set (complete, in progress, or planned)?
In progress
Appendix F: HOME Investment Partnership Program

The federal government created the HOME Investment Partnership Program to help states and local governments respond to the need for adequate, affordable housing. The HOME program, which was designed to ensure that each community is able to use the assistance in ways that respond best to its unique circumstances, funds a broad range of activities, including new construction, rehabilitation, acquisition of property, homebuyer assistance, and tenant-based rental assistance. The following are NBD’s written guide to how HOME funds will be used locally.

Community Housing Development Organizations (CHDO)

Through the HOME Program, the Federal Government invests in the future of local non-profit housing groups, requiring that at least 15 percent of its total allocation to fund housing, will be owned, developed, or sponsored by entities designated as a CHDO.

A CHDO is an organization that meets the following criteria:

- Provides decent housing that is affordable to low- and moderate-income persons (although they may perform other functions as well);
- Have effectively carried out activities financed through the HOME program;
- Have a history of serving the community where the HOME funded housing will be located;
- Are organized under state or local laws and exempt from taxes under section 501(C)(3) of the Internal Revenue Code;
- Meet standards of financial accountability;
- Maintains at least one-third of the governing board must be low-income community residents or elected representatives of low-income neighborhood organizations.

Each year NBD reserves up to 5 percent of the total HOME Program allocation to assist CHDOs in paying for their operating expenses and up to 10 percent of the CHDO set-aside to provide project specific technical assistance and loans for site-control activities including project feasibility studies.

CHDO Certification

NBD will require each CHDO to recertify for the designation annually by completing a CHDO checklist and attaching all accompanying documents and attachments. NBD will issue a letter stating that the organization qualifies as a CHDO.

Syracuse CHDOs include:

- Covenant House Development Corporation, Inc.
- Home HeadQuarters, Inc.
- Jubilee Homes of Syracuse, Inc.
- Northeast Hawley Development Association, Inc.
- Syracuse Model Neighborhood Corporation, Inc.
**CHDO Operating Request**
NBD will require each CHDO to submit a request for CHDO Operating funds based on the CHDO eligible projects the organization has planned in the upcoming year. Each CHDO Operating request will be evaluated after the agency has been certified a CHDO.

**HOME Programs**

**Developer Assistance**
In an effort to promote the rehabilitation of Syracuse’s aging housing stock as well as the revitalization of neighborhoods, NBD will offer financial assistance through the HOME program to developers to write down the cost of construction for rehabilitation and new construction projects and provide interim construction financing when necessary to create affordable housing units.

Under this category, NBD will consider meeting the development needs through using the following eligible activities under the HOME Program:

- Acquisition of property
- Rehabilitation or new construction of housing for rent or homeownership
- Moderate or substantial rehabilitation of rental properties
- Site improvements for HOME-assisted projects
- Demolition of dilapidated housing to make way for new HOME-assisted development
- Payment of relocation expenses
- Other reasonable and necessary expenses related to the development of non-luxury housing

**Developer Assistance for Homeownership**
NBD will work with Syracuse’s not-for-profit housing partners, many of them qualified as CHDOs, to rehabilitate and newly construct housing units for affordable homeownership opportunities. Through the developer assistance program, NBD will offer subsidies to organizations to write down the cost of construction in order to sell the home to an income qualified homebuyer at market value:

\[
\text{Total Development Cost} - \text{Market Value} = \text{Gap Funding/Subsidy Needed}
\]

NBD may also offer construction financing using HOME funds for projects that need financing for development.

**Process**
NBD staff will work closely with its housing partners to create neighborhood based block plans and to identify key properties in need of redevelopment for affordable housing. Housing Partners can contact NBD to obtain a Request for NBD Project Assistance Application. The applicants will follow the following phases through project completion:

1. Initial Intake Phase – Application for NBD Project Assistance is submitted to NBD. NBD will review the application and determine the following:
a. If the project fits within a neighborhood block plan or a key housing strategy identified in Syracuse’s Housing Plan

b. The financial viability of the project including a subsidy layering analysis, determining if the other funding sources are sound commitments, and determining what resources are needed to bring the project to completion

c. Determining if there are other sources of funding (outside of the HOME program) that would be better suited for this development.

2. Environmental Review Phase – Once the Initial Intake Phase is completed, NBD will send a request for a site specific environmental review to the City’s Bureau of Planning and Sustainability for an environmental review. During this phase the initial applicant may also be contacted to complete specific items in that review process. When the environmental review is completed, a memo will be sent to the NBD project file.

3. Commitment Phase – If NBD determines that the project will be supported with HOME Program funds, a commitment letter and HOME Program Agreement will be prepared between the Developer/CHDO and NBD.

4. Pre-Construction/Construction/Post-Construction Phase – The next phase will include the construction phase. NBD will request a copy of the completed plan and/or work specifications, an approved Form A & Form B for M/WBE Compliance, evidence of lead remediation to the appropriate HUD standard, and that at the end of the project the unit meets all NYS Building Codes.

5. Buyer Qualification – NBD will be responsible for qualifying the homebuyer for the projects. The buyer will submit an application to NBD and will be evaluated on the following:
   a. Income verification using the Part 5 definition of Annual Income – Copy of the previous years (or most recent) income tax return and last three pay stubs.
   b. Loan Commitment for the 1st mortgage
   c. Purchase contract between the developer and the buyer
   d. Graduation Certification from Home HeadQuarters’ HUD Certified Home Buyer Education Class

6. Pre-Closing Phase – NBD will work with the buyer and the developer to collect information prior to closing on the HOME funds. This will include documents such as:
   a. Proof of homeowners insurance
   b. Title insurance
   c. Abstract
   d. Survey
   e. Appraisal

7. Closing Phase – NBD will close on the HOME funds with the homebuyer. This phase is where the home buyer will sign a HOME Program Agreement with NBD as well as other pertinent closing documentation.
NBD reserves the right to request additional necessary documentation on an individual project basis to assist in making project related decisions

**Monitoring and Compliance:**
The homebuyer must occupy the unit as his/her principal residence for the duration of the affordability period. NBD will monitor compliance during the affordability period by verifying the beneficiary remains an owner occupant on an annual basis. NBD staff will send a letter and certification form with a “Do not forward” as a method to show they remain owner occupants.

In order to ensure compliance, NBD will use the **Resale** provision when investing HOME funds solely as a development subsidy into new construction or rehabilitation projects that will be sold to owner occupants whose income will be 80 percent or below of AMI. The owner occupant must certify their income within six months of closing or new documents will be requested. The affordability period of the project will be based on the total amount of HOME funds invested in the project. The resale provision will be secured through a restrictive covenant.

In the event the homebuyer wishes to sell his/her property during the affordability period, the following provisions must be adhered to:

1. The homeowner must inform NBD of their desire to sell the property *prior* to it going on the market;
2. The new homebuyer must have an income between 50 and 80% AMI at the time of purchase and must qualify with NBD by filling out a homebuyer application;
3. The new homebuyer(s) must occupy the house as his/her principle residence;
4. The new homebuyer(s) must either 1) pay PITI that does not exceed 30% of their gross income, or 2) secure prime mortgage financing through a National Mortgage Licensing System approved lender;
5. The new homebuyer must assume the remainder of the affordability period and will enter into a new HOME Program Agreement with NBD; and
6. The homeowner will be entitled to fair return upon sale of the Property. A fair return will be determined by calculating the homeowner’s initial investment plus capital improvements to the property. Improvements to the property will be defined as improvements that increase the market value of the home; ongoing maintenance costs, such as exterior painting, servicing and replacement of building mechanicals, and/or driveway sealant are excluded as capital improvements. Market Value will be based on the appraised value of the property at the time of resale. The homeowner will be responsible for keeping adequate records of the improvements and said improvements must be approved by NBD. Homeowner will be responsible for providing NBD with a current appraisal of the property to determine market value.

In the event of non-compliance with the affordability period, NBD reserves the right to require full repayment of HOME funds invested into the project.
Developer Assistance for Rental Housing

NBD may use HOME funds to provide assistance to developers in the rehabilitation and new construction of affordable rental housing. NBD will work with both for-profit and not-for-profit developers through providing development loans and deferred loans.

Process

NBD staff will work closely with developers to identify key properties in need of redevelopment for affordable rental housing that comply with the Housing Partners’ neighborhood block plans. Developers may contact NBD to obtain a Request for NBD Project Assistance Application. The applicants will work through the following phases to project completion:

1. Initial Intake Phase – Application for NBD Project Assistance is submitted to NBD. NBD will review the application and determine the following:
   a. If the project fits within a neighborhood block plan or a key housing strategy identified in Syracuse’s Housing Plan
   b. The financial viability of the project including a subsidy layering analysis, determining if other funding sources are sound commitments, and determining what resources are needed to bring the project to completion
   c. An analysis of the property proforma
   d. Determining if there are other sources of funding (outside of the HOME program) that would be better suited for this development.

2. Environmental Review Phase – Once the Initial Intake Phase is completed, NBD will send a request for a site specific environmental review to the City’s Bureau of Planning and Sustainability for an environmental review. During this phase the initial applicant may also be contacted to complete specific items in that review process. When the environmental review is completed, a memo will be sent to the NBD project file.

3. Commitment Phase – If NBD determines that the project will be supported with HOME Program funds, a commitment letter and HOME Program Agreement will be prepared between the Developer and NBD.

4. Pre-Closing Phase – NBD will work with the buyer and the developer to collect information prior to closing on the HOME funds. This will include documents such as:
   a. Proof of homeowners insurance
   b. Title insurance
   c. Abstract
   d. Survey
   e. Appraisal

5. Closing Phase – NBD will close on the HOME funds with the developer.

6. Pre-Construction/Construction/Post-Construction Phase – The next phase will include the construction phase. NBD will request a copy of the completed plan and/or work specifications, an approved Form A & Form B for M/WBE Compliance, evidence of lead
remediation to the appropriate HUD standard, and that at the end of the project the unit meets all NYS Building Codes. NBD will conduct period inspect which will be agreed upon in the Home Program Agreement to ensure that materials and work being paid for with HOME funds is being completed to the satisfaction of the inspector.

7. Tenant Qualification – NBD will require the owner/property manager to qualify the tenants who will occupy the rehabilitated or newly constructed rental units. The developer/property manager will submit the following documentation NBD to verify tenant qualification:
   a. Income verification using the Part 5 definition of annual income – Copy of the previous year’s (or most recent) income tax return and last three pay stubs.

8. NBD will also require the owner/property manager to submit the following documents to ensure compliance with HOME program leasing provisions:
   a. Copy of the lease between owner/property manager and tenant
   b. Owner’s/property manager’s written tenant selection policies

**Monitoring and Compliance**

NBD will monitor the rental units for compliance through the affordability period of the project. For rental projects the affordability period will be based on the HOME Program requirements shown below:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Average per-unit HOME $</th>
<th>Minimum Affordability Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rehabilitation or Acquisition of Existing Housing</td>
<td></td>
<td></td>
</tr>
<tr>
<td>&lt;$15,000/unit</td>
<td>5 years</td>
<td></td>
</tr>
<tr>
<td>$15,000 - $40,000/unit</td>
<td>10 years</td>
<td></td>
</tr>
<tr>
<td>&gt;$40,000/unit</td>
<td>15 years</td>
<td></td>
</tr>
<tr>
<td>Refinance of Rehabilitation Project</td>
<td>Any $ Amount</td>
<td>15 years</td>
</tr>
<tr>
<td>New Construction or Acquisition of New Construction</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Any $ Amount</td>
<td>20 years</td>
<td></td>
</tr>
</tbody>
</table>

NBD staff will request the owner/property manager submit rent rolls of their tenants residing in HOME assisted units on an annual basis. Every sixth year of the affordability period, NBD will request the owner/property manager to resubmit source documentation for each household.

NBD will also inspect the quality of the HOME assisted rental housing units to ensure compliance with property standards. The frequency of these inspections will be based on the HOME Program standards outlined below:
NBD will select a sample of HOME assisted units to inspect and will base the inspections on the NYS Building Code.

In the event of non-compliance with the affordability period, NBD reserves the right to require full repayment of HOME funds invested into the project.

**Direct Homebuyer Assistance**

One of NBD's primary goals has been to increase and promote affordable homeownership opportunities in the city. A common barrier to homeownership is one's ability to cover the downpayment and closing costs associated with purchasing a home. To assist in this regard, NBD will use the following HOME Program eligible activities:

**Downpayment and Closing-Cost Assistance**

NBD may use HOME funds to assist homebuyers in purchasing a home for homeownership. This program will be administered through Home HeadQuarters, Inc.'s Homeownership Program and will provide up to $3,000 for downpayment and closing cost assistance for income qualified first-time homebuyers of single-unit homes. It also provides up to $1,500 for downpayment and closing cost assistance for income qualified first-time homebuyers for the owner-occupied unit of two-unit or three-unit structures.

**Gap Financing/Homebuyer Subsidies**

NBD may use HOME funds to assist homebuyers in purchasing a home for homeownership by writing down the sales price to allow an income-eligible homebuyer an affordable opportunity of homeownership. Homebuyer subsidies will be administered by NBD and primarily in partnership with redevelopment projects through the CHDO's and other not-for-profit housing partners. NBD will be responsible for qualifying the homebuyer through an application process.

**Lease-Purchase Program**

NBD may use HOME funds to assist low-income households accumulate a down payment while they build their homeownership skills through a lease-purchase program. NBD will adhere to the following guidelines if HOME funds are used to assist homebuyers through the lease-purchase program:

- Eligible properties will be those developed by not-for-profit housing partners, not those available on the open market;
- Ownership must be conveyed to an eligible homebuyer within 36 months of the non-profit housing development agency signing the lease-purchase agreement, or within 42 months of project completion;
- If the homebuyer does not purchase the unit by the end of the 42 month period, the unit will turn into a HOME rental unit;

<table>
<thead>
<tr>
<th>Number of Units</th>
<th>Inspection Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-4 units</td>
<td>Every 3 years</td>
</tr>
<tr>
<td>5-25 units</td>
<td>Every 2 years</td>
</tr>
<tr>
<td>26 or more</td>
<td>Annually</td>
</tr>
</tbody>
</table>
• The homebuyer must qualify as a low-income family at the time the lease purchase agreement is signed.

**Monitoring and Compliance**

The homebuyer must occupy the unit as his/her principal residence for the duration of the affordability period. NBD will monitor compliance during the affordability period by verifying the beneficiary remains an owner occupant on an annual basis. NBD staff will send a letter and certification form with a “Do not forward” as a method to show they remain owner occupants.

In order to ensure compliance, NBD will use the **Recapture** provision in any case where HOME funds will be used for direct assistance to a homebuyer whose income is at or below 80 percent AMI for the acquisition of a single family home for owner occupancy. These programs include DPCCA and Homebuyer subsidies that write down the sales price of a home below fair market value. The initial amount that is subject to recapture will be calculated using the following formula:

\[
\text{Market Value} - \text{Sales Price of Home} + \text{Direct Homebuyer Assistance (including Down Payment and Closing Costs)} = \text{Amount Subject to Recapture}
\]

The recapture provision states that if the homebuyer wishes to rent, or sell either voluntarily (through property sale to a qualified buyer) or involuntarily (foreclosure, deed-in-lieu of foreclosure, renting the property to a tenant, or otherwise fail to maintain the property as his/her primary residence), his/her home during the affordability period, NBD will collect all or part of the HOME assistance. The affordability period will be determined by the amount of HOME funds that go towards directly assisting the homebuyer using the chart below.

<table>
<thead>
<tr>
<th>Average per-unit HOME $</th>
<th>Minimum Affordability Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt;$15,000/unit</td>
<td>5 years</td>
</tr>
<tr>
<td>$15,000 - $40,000/unit</td>
<td>10 years</td>
</tr>
<tr>
<td>&gt;$40,000/unit</td>
<td>15 years</td>
</tr>
</tbody>
</table>

NBD will structure the deal so that a proportion of the amount subject to recapture will be forgiven each year during the affordability period. This amount will be determined by dividing the amount subject to recapture by the number of years in the affordability period. If the homeowner rents, sells, either voluntarily or involuntarily, the home during the affordability period, NBD will calculate the net proceeds on the sale and will entitle the homeowner to their initial investment prior to repayment of HOME funds. Net proceeds is defined as the resale price minus the superior first mortgage minus any closing costs incurred by the homeowner relative to the sale of the property. The recapture provision will be secured through a note and mortgage on the property.

In the event the homebuyer wishes to rent or sell his/her property during the affordability period, the follow provisions will be adhered to:
1. NBD will calculate the amount subject to recapture through forgiving a portion of the direct HOME subsidy each year of the affordability period. To determine the amount forgiven per year, NBD will take the direct home investment and divide it by the affordability period. At the end of each full year that amount will be forgiven.

2. NBD will calculate the net proceeds of sale based on the accepted purchase offer and then calculate the amount subject to recapture based on the recapture calculation.

3. If the net proceeds are insufficient in covering the remainder of the HOME investment, NBD will not collect more than the net proceeds.

**Homeowner Rehabilitation**

NBD may undertake rehabilitation not involving acquisition. The following guidelines will be followed for rehabilitation assistance to a structure that is currently owned by a family whom qualifies under the following criteria:

1. The estimated value of the property, after rehabilitation, does not exceed 95 percent of the median purchase price for the area

2. The housing is the principal residence of an owner whose family qualifies as a low-income family at the time HOME funds are committed to the housing.

3. Ownership interest in the housing assisted under this section must meet the definition of "homeownership" in Sec. 92.2.

**Refinancing Guidelines**

NBD establishes the following refinancing guidelines when using HOME funds to refinance existing debt:

1. Show that rehabilitation is the primary eligible activity and ensure that this requirement is met by establishing a minimum level of rehabilitation per unit or a required ratio between rehabilitation and refinancing;

2. Require a review of management practices to demonstrate that disinvestments in the property has not occurred, that the long term needs of the project can be met and that the feasibility of serving the targeted population over an extended affordability period can be proven;

3. State whether the new investment is being made to maintain current affordable units, create additional affordable units, or both;

4. Indicate the required period of affordability, whether it is the minimum 15 years or longer; and

5. HOME funds cannot be used to refinance multifamily loans made or insured by any Federal program including Community Development Block Grant funds.

CITY OF SYRACUSE
DEPARTMENT OF NBD
Notice of Public Meeting and the Availability

In accordance with the City of Syracuse Department of Neighborhood and Business Development (NBD) Citi- zen Participation Plan developed under requirements of the Housing and Community Development Act of 1974, NBD announces its intent to submit the Five Year Consolidated Action Plan (2015 – 2019) to the U.S. Department of Housing and Urban Development (HUD). The Consolidated Plan will be available to the public on Tuesday, February 24, 2015, which marks the beginning of the 30 day public comment period.

Comments on the Consolidated Plan will be accepted until Wednesday, March 25, 2015 at 5:00 p.m. To download a copy of the Consolidated Plan, please visit the City of Syracuse website at www.syr.gov.net. To request a hard copy or to submit comments regarding the Consolidated Plan, please contact NBD staff:

E-mail: sbartlett@syr.gov.net
Phone: (315) 448-8448
Mail: Susannah Bartlett, Assistant Planner 1
Dept. of Neighborhood & Business Development
201 East Washington Street, (Suite 600-05)
Syracuse, NY 13202

A PUBLIC MEETING will be held Wednesday, March 18, 2015 at 4:30 p.m. in City Hall Commons Atrium, 201 East Washington Street, Syracuse, NY. At this meeting, NBD will report on the Consolidated Plan and will hear comments and recommendations from citizens and stakeholders pertaining to the Plan. Accommodations for persons with disabilities or non-English speaking persons will be made by request. Please place your request by calling (315) 448-8448 at least three business days prior to the meeting.

The City of Syracuse complies with 31 CFR Part 51 and does not discriminate in access to facilities, programs, services, or activities on the basis of race, color, sex, creed, material status, national origin, or disability.

Commissioner

COMMISSIONER DRISCOLL: All right, it's a little after 4:30, we'll take advantage of all your time here, get this meeting started. Thank you for coming out. This is a public meeting on the city of Syracuse Draft Consolidated Plan. It's the five year plan that covers 2015 through 2019. My name is Paul Driscoll, I'm the Commissioner, and to my right is Stephanie Pasquale, the Deputy Commissioner.

Just a few logistics in terms of how this meeting is going to work tonight, and a bit about the process of the plan going forward. And as you can see, there is a sign-in sheet outside the door there, you can sign in, if you haven't, that would be helpful. And if you want to speak, you can fill out one of these yellow cards and we'll call them in the order that we get them. We're trying to hold comments to about two minutes, if that's possible. We're flexible, we want to respect everyone's time.

Generally, I start with a brief introduction, but it's not really a conversation, it's more to hear and get the public's comments on the record. As you can see, John Drury is here, taking notes that will verbatim be in our Plan that goes to HUD. So please keep that in mind when you're making your comments.

A few notes about the plan that is, as I mentioned, a five year plan. We do it once every five years, so it looks down the road to 2019, and describes the HUD and the citizenry at large. How this office and the city of Syracuse plans to spend federal dollars, federal housing dollars primarily over the next five years.

We really encourage you to thumb through the Plan, if you could. It's in draft mode, but we're very proud of it. It covers a lot of topics in relation to housing and homelessness, and includes a

Commissioner

market analysis, a housing needs
assessment and a strategic plan.

We have distilled our goals over the
next five years, and we have four very
broad goals, which you can find on page
67 of the Plan. And they are very
quickly: To increase the wealth of
households, to eliminate barriers to
housing opportunity, to promote
community engagement among seniors, and
to create healthy and sustainable
neighborhoods. And underneath those
banners are a wide array of topics that
we encourage you to peruse.

The budget, if you haven't seen it
already, is on page 94 of the Plan, and
that's the recommendation for the first
year of our five year plan. The process,
as we start out right now, this is the
first formal public meeting I've
planned. The Council, the Common
Council will be holding a public hearing
a week from today in this chamber at
5 o'clock. We are in the midst of our

DENA IRONS: Hello, I'm a homeowner
of Jubilee Homes. I bought my house in
2000, I was a black female, single mom,
first home buyer. And I'm very, very
happy with the arrangements that I have

Giving observations, so we'll be
taking comments, and we've been
receiving comments, such as e-mails
phone calls, letters, that will also be
included in the final version of the
plan.

Our year, NBD, Neighborhood and
Business Development, year starts May
1st through April 30th. We hope to have
this Plan adopted by the Council on
March 30th of this month. And as I send
it out to HUD and have our program year
start May 1st. But as most of you know,
the money doesn't usually arrive here
until several months after that time.

Really quickly on the money. We do
know the city was notified of what it's
going to receive in terms of its block
grants. The news is a little bit
depressing, we have a 4 percent cut in
CDBG, an 11 percent cut in HOME, and a
slight increase, I think 2 or 3 percent
increase in ESG. The city has also
received HOPA funding, Housing

Irons

Opportunity for People with Aids, and
that went up very slightly. And in the
last several, couple years we've been
working with the state to administer
that program as well and we'll continue
to do so.

So that's just a brief overview of
the block grant. And generally, you
know, we're getting $4.6 million in
CDBG, just over a million dollars in
HOME, and $425,000 in ESG, Emergency
Solutions Grant.

So that's the brief overview of what
we're here to discuss tonight. And the
rest of the night is yours. We'll be
calling up people that, like I said, in
the order we receive them. Please
forgive me if I fracture your names.

But we will start with Dena Irons.

DENA IRONS: Hello, I'm a homeowner
of Jubilee Homes. I bought my house in
2000, I was a black female, single mom,
first home buyer. And I'm very, very
happy with the arrangements that I have

Irons

with the bank and Jubilee Home and how
they helped me go through all the steps
that I had to go through to get my home.
They have been working with me no matter
what happened with the house, financial,
my bank mortgage company, whatever I
needed to do, they were right there
behind me with all kinds of suggestions
on what to do, very informational to me.

I had a death in my family and I got
behind in a couple mortgage payments or
whatever, they were threatening to
foreclose on my house. They worked with
me and worked with M&T Bank to help me.
And you know, I didn't get my house
foreclosed or anything. And they're
still working on my budget. I go to a
budget meeting with them every month to
try to fix my budget where, you know, I
can keep monies flowing in the right
direction. They have really helped me a
lot and I'm just here on their behalf to
speak and let people know that it is a
good opportunity for first home buyers.
Father Matthews
And they do, they do stick with you all
the way through the program no matter
how long you're there, okay? Thank you.
COMMISSIONER DRISCOLL: Thank you.
Next speaker is Father Jim Matthew's.

FATHER MATTHEWS: My name is Jim
Matthews, I'm pastor of St. Lucy's
church. And Paul has been a frequent
communicant there. I want to ask you
Paul, what do you think of St. Lucy's?
COMMISSIONER DRISCOLL: Love it.
FATHER MATTHEWS: Love it. How
vital is St. Lucy's to the community?
To the neighborhood?
COMMISSIONER DRISCOLL: Very vital.
FATHER MATTHEWS: Very vital. We've
been there now for about 140 years, St.
Lucy's has been there, and it's just a
real stable institution that is there
for the people. People know St. Lucy's,
they trust St. Lucy's, we've been there
for them all these years.
Let me ask you, what if I got a
letter from the Bishop saying Jim, guess

Father Matthews
what, your church is old, your buildings
are old, costs a lot of money to keep
them going, why don't we close St.
Lucy's and we'll send the neighborhood
population up to Rosary. What do you
think of that?
COMMISSIONER DRISCOLL: I'm surprised
you haven't gotten that letter yet.
FATHER MATTHEWS: That letter will
never come. To try to do something like
that to save money, to say well, you
know, that would be absolutely
devastating to the people in the
neighborhood, that whole sense of
security would be destroyed. And I
think that, to me that's a good example
of what Jubilee Homes was all about.
I've been on the Board now for probably
23 years, I've seen what they've done.
I am aware of this sense of security
that the people have. They believe and
they trust in Walt and the staff. And
Adjei is a member of the Board there,
comes from the neighborhood. They've

Father Matthews
done a great job. Their basic thrust is
home building. But they have taken on
many more responsibilities besides that.
So again, I think that the comparison
between St. Lucy's and Jubilee Homes, I
think is very apt. And I don't want to
see Jubilee Homes go down the tubes. I
hope that -- you can probably write a
personal check and bail us out.
But I'll tell you a good thing, you
know, Walter and his staff took a pay
cut to keep the place going and we've
had a fund raiser to try to keep the
thing going. So I just would encourage
you to do all you can to give us the
funding that we need. And I realize
your budget constraints. Thank you.
COMMISSIONER DRISCOLL: Thank you.
Next up Sharon Owens.

SHARON OWENS: Good afternoon. I
wrote a statement and I'm not going to
read it to you, I'll give it to you.
But to summarize, on behalf of the Board
and staff of Syracuse Model Neighborhood

Owens
facility, we are the managing entity of
the Southwest Community Center. One of
three city owned community center
buildings in the city of Syracuse, and
is located in one of your two
neighborhood revitalization areas.
We will be celebrating the Southwest
Community Center and the Agency 40th
anniversary in our community. We thank
you, thank the Miner administration,
thank the Council for the continued
support of Southwest Community Center.
We are a 26,000 square foot facility,
and the staple of our south and
southwest communities. I don't even
need to go into the needs of all the
demographics, all the statistics about
that community.
But Southwest Community Center
continues to be and will be in the
forefront of neighborhood advocacy, and
continue assessing the needs and
building on the strength of community,
families and individuals.
Owens

We're used quite a bit during the 2013-2014 program year; approximately 8,000 people went through Southwest Community Center for either direct services or for utilization of the facility. Managing that building is a big undertaking. Thank the city again for its support. And we're extremely excited for the new renovations going on now for a new police satellite office. So again we thank the Council and we thank the administration for not thinking that it's a problem to put just a vital service like that in the Southwest Community Center. Again, we thank you, we're going to continue to work hard to address the needs of the residents of our community. We're going to continue to make that building available to the 8,000, and we're on track for that again. People that come into that building, many of them on a daily basis, because we are the safety net for our community. Thank you.

Eiland

And since I've been on the Board I have learned a lot. I have learned, one, about the amount of care that it takes in order to keep the property that has been involved with the Model Neighborhoods, for years, how much it takes to keep it up.

I'm going to go through my little write up here. We pay out right now $207,000 in property tax. Not many other organizations or landlords can say that they actually give tax back to the city. And in addition to that, we pay $90,000 in water bills. So the money that we receive is being reciprocated back into the city funds. Right now we also pay for the rental registry and the certification for compliance fees, follow-up apartments like other landlords do. We don't ask for handouts in those areas, we simply do what we're supposed to do as landlords.

We also, our mission to provide quality housing for people that cannot afford a different type of living arrangement, as well as clients that we deal with is the low to moderate income people and we have been doing this for over 40 years. We offer clean, safe, affordable rental units in the south side, southwest side and near west side. So we have a wide range of apartments that we rent to a lot of tenants that we're involved with. The buildings we own and manage are for the most part the original buildings from when the area was built, when it was first built. So a lot of these places, you know, as you probably already know, the condition that they're in, trying to keep them repaired and doing the renovation work is very expensive.

So the money that we have been receiving and we appreciate all we have received in the past, the money we have been receiving has helped us tremendously. But in order for us to continue doing the work that we do in
Eiland
1 our community we need to continue to
2 receive the amount that we have received
3 from you, for the next five years.
4 Because of the income of our tenants
5 we are not able to charge thousands of
6 dollars in rent that commonly are done
7 in other areas of the city. In the past,
8 Syracuse Model Neighborhood has received
9 support from the Community Development
10 Block Grant allocated, which we have
11 used to keep our buildings in good
12 repair as well as the rent affordable.
13 This past year we had to make a
14 modest increase on the rent when we did
15 a survey to find out how our rent
16 compared to other people’s rent in the
17 area. And it really hurt the Board to
18 have to do that, but in order to get
19 repairs done, without receiving anymore
20 money, we have to, you know, do some
21 balancing acts here. So we really
22 appreciate if you could continue to
23 support us as we continue to support the
24 people in the neighborhood.

Hanslip
18 I own property in the neighborhood,
1 and for me being a part of the Syracuse
2 Model Neighborhood means that I have an
3 opportunity to make sure the value of my
4 house stays up, the value of our
5 property stays up. In addition, that
6 the tenants that are there are happy,
7 they’re content with the area that we
8 have and don’t feel as though they live
9 in a slum area. And I believe Syracuse
10 Model Neighborhoods is doing that job.
11 Thank you.

COMMISSIONER DRISCOLL: Thank you.
14 Next up is Irvin Hanslip.

IRVIN HANSLIP: My language is not
17 that good anyhow in this country. And
18 my name is Irvin Hanslip, known as
19 Bongo. Good evening. As I said, my
20 name is Irving Hanslip, I’m in Syracuse
21 forty something years, I wasn’t born
22 here but I grew up here. I reside on
23 the inner southwest part of the city,
24 South Avenue. I’ve been doing business
25 on South Avenue right now for the past

Hanslip
1 18 years at the same location. And
2 while I listen to other speakers, you
3 know, I just realized what I’m doing,
4 I’m not just doing something for myself,
5 but I’m doing something for the youth,
6 where the parents can enjoy, but the
7 youth can develop a self awareness for
8 themselves.
9 You see, in my area, the inner
10 southwest part of the city, specifically
11 South Avenue, it is not a side street,
12 it is a main strip, coming from the
13 hospital all the way down to West
14 Onondaga. And that’s, what I noticed, I
15 came here in the fall of 1970, and I
16 grew up there on South Avenue, Clover
17 Street, until I move on the east side,
18 and I come back down. I work at Allied
19 Chemical for 15 years until they closed
20 down in ’86. And when I left Allied
21 Chemical I said I have to do something
22 for myself.
23 Now if you come on South Avenue into
24 my business you will think it’s just a

Hanslip
20 house. Yes, it is a house. I’m going
3 to try to set an example in the
4 community that I grow up. And I have
5 jerk cuts, and don’t use the name as a
6 derogatory, it is a seasoning, jerk is a
7 seasoning, okay?
8 So back in the days before our
9 parents was born, when the Africans and
10 the Indians was fishing, they didn’t
11 have a refrigerator, so they got to use
12 something to save the catch. And they
13 mix up all those spices, pimento leaves,
14 carrion and onions and all those things,
15 and they come with that flavor. So
16 that’s what I learned. And I bring it
17 here just to share with my community and
18 the city what I have. I didn’t just
19 come with my two hands to receive any
20 handout. I come and I give, contribute.
21 So I have jerk cuts, and I’ve have been
22 doing it now for 18 years. And I
23 believe it is well accepted in the
24 community.
25 And in my struggle, and I am still
Hanslip

struggling to develop and present to
this community that we live in, the best
thing that I can do. So the young ones
after me can say, if Bongo can do it so
do I. We'll give them a life that they
can see for themselves to develop for
themselves. And maybe they're seeing
that Jubilee see that in me as a kid.
We're trying to present something good
for the neighborhood and that Jubilee
Homes, Southwest Community Center, the
city, fall behind me and say, I will
push you if you're willing to work. And
I say yes, I'm willing to work.
And ever since I met Walt Dixie and
his staff and they've been working with
me and giving me good ideas, giving me
good ideas to keep on going though,
because the road is rough, especially
when you try to do something for
yourself. Because what I find out,
especially when you are out in say a
minority as another black person, when
you find that the knowledge that you

Boxx

to speak together, and again, I'm going
to not get the name right, Ron Boxx,
William Mallory and Jordan Eubanks.
RON BOXX: I'm Ron Boxx. We
represent, Visions for Change today.
This Visions for Change is under the
auspices of Housing Visions, you may be
more familiar with that non-profit that
started 25 years ago here in Syracuse
and done a lot of neighborhood
restoration throughout the community and
Upstate New York. We're here to
advocate today, because for the second
year we haven't received CDBG funding
after our application. So we just want
to create more awareness of the impact
that we're having on the city. I have a
couple participants with me today
sharing the impact it has had on their
lives.
The Work Force Empowerment
Organization defines professional
expectations through education,
professional partnerships and long term

Hanslip

have and you work it for someone else,
it is great.
But when you try to take that mantle
and do it for yourself it is hard, real
hard. So therefore when you find
someone come behind you and see what you
are doing is beneficial, not just for
you but for the community that you are
living in. So when you leave it, it can
be more beautiful and beneficial to that
community, it is a win. That's what
Jubilee, that's what Walt do for the
South Avenue Business Association. He
help us who want to help ourselves. He
shows us the way. But as the old
saying, you can lead you to the well,
but he cannot force you to drink. You
have to want to drink that water. And
we are willing to drink. So therefore
we would like you to keep the water in
that well as much as you can so we can
be able to drink. Thank you.
COMMISSIONER DRISCOLL: Thank you.
I'm not sure of the next group who want

Boxx

support. And we're intentional in
calling ourselves Work Force Empowerment
instead of Work Force Development,
because our program is designed to help
individuals to be empowered to make the
choices in their lives to get to the
destination that they're going to go.
We provide the resources and the
accountability for them to be able to do
it. But they're self-motivated, they're
taking the steps and the accomplishment
is theirs.
We do it through three components.
I mentioned education, professional
partnerships and long term support. One
of our education components is a
workshop called Choosing To Thrive. And
that workshop is two weeks, it's offered
six to twelve times a year, offered to
our residents but also the general
community. We opened at a one-stop
within Syracuse last year, we partnered
with the VA for homeless veterans and
facilitating a class there, and also in
Boxx

our corporate home office, 1201 East Fayette Street.
The workshop is designed to help create a space in their life, to where am I at right now, where do I want to go, and how do I get there? And also to receive training on what the job market is like today. How do I network myself in the way that I'm selling my skills to an employer? How do I anticipate what the needs are and to deal with the market myself sufficiently.

We also provided education to the general population. We did a poverty simulation in January at the Genesee Grande, we had over 120 community members attend that. And the goal of simulation is to help folks who haven't experienced poverty to see what it's like to live a month relying on so many different organizations and having to wait in line and battle through transportation, and so many different steps to be able to succeed that you really feel you're spinning in place.

Boxx

really feel you're spinning in place.
We also do a training called Beyond Our Differences that's geared toward employers to be able to help them better understand the need of the entry level workforce and how to communicate with them and coach through strength, so there is not an endless cycle, but that folks are really being professionally developed, like in the next step in having mentoring opportunities.

In terms of the professional partnerships, we have 17 different groups in the community that we work with, and basically networking. So if somebody demonstrated competency within our program we refer them to an employer and ask them to give them an interview opportunity, not that they hire them, they just give them a shot so they're not a random resume but they get face to face time to sell their skills at.

We also bring in the employers to be a part of our program. So they are paired up one on one with the human resources professional to do resumes, to do mock interviews and to get feedback face to face, instead of it always being a mystery, am I performing well or not? We also have a guiding coalition that deals with some of the macro issues, the systemic issues that are holding people in poverty, like access to transportation, like business innovation a leading welfare program through the loss of your spending power. So that's an advocacy group that has not only business people and partners but also participants as a voice at the table to be able to talk about the barriers they're facing.

Then a monitoring program similar to something like Boys and Girls Club. We're matching up adult with adult working on the goals together. But also altering the world view to be able to see a different viewpoint to break down stereotypes and also provide encouragement and support, what does it take to be successful in a professional setting.

And the last thing is long term support. So we partner with all our participants for a 12 month period, to have a job coach, they're meeting with them weekly, to reinforce, have a bigger goal with smaller steps and make sure that we have the resources for them to do that.

Then we have different resources to help them retain in the job, like a car buying program, a short term loan program for unexpected expenses, like my car breaks down or my tires are flat. We also have scholarships for things like, I need to get security guard training or forklift certification so that I can have a higher paying job. And then we also partner with other organizations in the community to teach folks how to buy a home, how to repair their credit, these are things they're
Mallory
1. going to need for financial literacy.
2. I'll pass it to off to our participants.
3. WILLIAM MALLORY: Hi, my name is
4. William Mallory. I'm a graduate from
5. Visions for Change. Before I came to
6. this program I didn't know how to handle
7. conflict situations, which led me into
8. trouble from time to time. I was also
9. addicted to drugs and alcohol. The
10. choices I made led me into getting two
11. felony convictions. I've enrolled in
12. Visions for Change because I was out of
13. work and needed a job.
14. The first two weeks I was surprised
15. with the respect I was given. It was a
16. first for me, which made me feel
17. comfortable to learn. Visions for
18. Change taught me conflict resolution
19. skills, interviewing skills and planning
20. management. These skills I lacked
21. before I came to the program.
22. My coaches and my peers helped me
23. stay motivated to follow through with my
24. plans, and it helped me to become a more

Eubanks
1. but you've got to stick with it. I
2. stuck with it. I work for Upstate
3. Hospital now. I thank Visions for
4. Change for the opportunity that they
5. gave me. But I came and I put my all
6. into it. I didn't look at it as just,
7. you know, getting up and going somewhere
8. every day.
9. I enjoyed going there every day and
10. learning. I learned a lot from the
11. instructor. I'm getting ready to take
12. my next civil service test in May for
13. the position that I now hold. So
14. hopefully I can become a state employee.
15. So because of them that's why I'm here.
16. COMMISSIONER DRISCOLL: Thank you.
17. JORDAN EUBANKS: I'm Jordan Eubanks,
18. I've prepared something. Growing up I
19. was always expected to excel in whatever
20. I chose to do. I was the proverbial
21. Golden Child and was given every
22. opportunity to succeed. Although my
23. parents had limited financial means,
24. they did their best to guide me beyond

Florence
1. positive person. I was hired by CNY
2. Services as a janitor, and I finally
3. feel financially stable about my life.
4. I feel supported as I go through my
5. life, and the new job I got from Visions
6. for Change. They've really helped me a
7. lot and I'd really like to thank them
8. for everything they have done for me.
9. And I feel like they will continue to
10. help me as I move forward. I'd like to
11. thank you for hearing me out.
12. COMMISSIONER DRISCOLL: Thank you.
13. SANDRA FLORENCE: Hi, my name is
14. Sandra Florence. I was also a classmate
15. of Mr. Mallory last fall. And I was in
16. Visions for Change, it's a wonderful
17. program. It helped me look for work. I
18. found things that I was doing wrong
19. within looking for work, like resumes
20. and interviews.
21. Anybody coming to the program, if
22. you think it's just, it's not like
23. something you just come to, it's not
24. like a cake-walk. It can be difficult,
Eubanks

shattered life. Piece by piece I grew, and piece by piece I began to assimilate back into the society I had left behind. As my journey continued, I came to be a participant in the Choosing to Thrive workshop offered by Visions for Change. I must admit that I initially was hesitant when beginning the workshop. I had participated in many employability and job skill workshops before, yet these short-sighted programs barely scratched the surface. With skepticism, I sat through my first day of the workshop.

I am very happy to report to you that I was proven wrong. What the Choosing to Thrive workshop offered me was something different, something that coincided so much with my personal development that I was left to marvel at the serendipity of chance that had led me there. Choosing to Thrive offers a holistic, behavioral approach to overcoming the limitations of poverty.

Eubanks

1. Eubanks
myself capable of. Today, I work for Housing Visions, the very organization that birthed Visions for Change. I have been offered not only employability, but the tools to create a sustainable and maintainable change in my life. I have also returned to school, continuing my education, so that I might supplement my professional career.

...I, like many others, once feared my own limitations. With the help of Choosing to Thrive, I came to realize that my limitations were self-imposed, and that with the proper tools, mindset and desire, I can overcome any obstacle set before me. I am reminded through this process of the old adage: "Courage is not the absence of fear, but rather the willingness to proceed in spite of it." Today I Choose to Thrive. Thank you for the change and thank you to the Council for your consideration.

RON BOXX: I want to close it with hard numbers. Our program has been

Collins

resoundingly efficient. Those that finish the workshop, over 70 percent of them do get hired, usually it happens between two and three months. Of those that have been hired, over 80 percent currently are working, so they're stainable changes, and it's having a positive impact on Syracuse. I have some program overviews that I would like to leave with you.

COMMISSIONER DRISCOLL: Thank you.

Next speaker is Michael Collins.

MICHAEL COLLINS: Good afternoon. I'm Mike Collins, Executive Director of the Syracuse Northeast Community Center, one of the other two community centers that the city sponsors. And we've been in our building since we built it in '78, next to Dr. Weeks school. And it's really, I'm thinking about it as I'm listening to the other speakers, we have a place called home. It's a place even though we are in the center of a lot of poverty. We surveyed the neighborhoods,
Collins

$10,000 household income or less, which is incredibly difficult to survive on. We also have an incredibly diverse neighborhood that we're supporting with the incoming refugees, about 800 refugees in the city, most of those on the north side.

But when you walk into our building, we're attached to the school where there is over 50 different languages spoken, and all the challenges that can come with that. You typically come in and hear a lot of laughter. Because people come in, and they notice it's a safe place, and a place to be able to get what they need from the community center.

Tomorrow morning my driver of my senior program is actually not able to do the pick up run for the seniors that are participating. So I'm going to grab a van and go out and pick up everybody. And I think in a lot of positions, someone who's trying to cover for somebody else, it's a real challenge or

a real pain. I am looking forward to it, because I know that when I pull up to the different apartment buildings and houses that our seniors live in, I'm going to be greeted with people that have a huge smile on their face. Because they know that they're coming, they're going to get a hot meal, they're going to get to socialize with their friends. They're going to have a chance to talk with the neighborhood adviser that will help them if they need advice to handle any issue. They can sign up for rides to the grocery store to Wal-Mart or any of the other events that they do. And that's something that they look forward to. And we provide that service twice a week with the program, with the driving we do every day.

We have a pantry, food pantry we expanded this year to be a basic needs pantry. Last year we served over a thousand different meals to -- I'm sorry, a thousand meals to our seniors, but we had 32,267 meals to 283 different families that came through our pantry last year. We also, with it being spent on basic needs, when they come in, we're able to give them some shampoo. If they can't afford food a lot of times you're not going to be able to afford shampoo.

So when we meet them and they come to us, they know they'll be greeted. They know they'll be able to come in and be respected. We also take care of them to get the help they need so they will be able to help us with the pantry.

So whether it's the youth program that we do, last year we had 270 youth just taking our after school program. Our homeless prevention program where we were able to move 92 people into shelters, provide first month's rent. Health care navigators able to enroll 666 people in health insurance and Medicaid last year. We have the only Spanish speaking health care navigator in the county right now, which is real huge.

We gave 1,700 van rides to seniors so they can get to doctor appointments go to the grocery store, whatever it was they need. If they're on the north side and low income we do it. We accept donations, but they don't have to pay, so that barrier is removed from them to be able to stay independent in the house.

We're able to do this in large part because of the funding coming from the Community Development Block Grant. And because of that we're able to make sure the people in our community, they're confident they're going do get the services they need. Whether the program through us or through a community center, where we're able to house a community police station which we're actually thrilled to have. We have county, a branch of the county library system. Catholic Charities has a lot of programming there, including teen
Commissioner
programing. They have got a pre-school
and we partner with the school on
different projects. And park and
recreation is able to partner with us on
the after-school program. We have a
girl scout troop, we have an alcoholics
anonymous, neighborhood watch. And then
we expect that in April we'll be
building a community garden. That will
be for the neighbors and the school and
participants of our program. So your
funding is a big part of why we're able
to be so successful. So thank you very
much.

COMMISSIONER DRISCOLL: Thank you.
That concludes the number of or the
cards that we have to speak, we can open
it up. I would like to recognize the
Councilors in the room and explain a
little bit of the process going forward.
But if anyone has any comments, feel
free to approach the mic.
Going forward, so next week we'll
have a second public hearing held by the
Commissioner
Council, Common Council in this chambers
at 5 o'clock on the 25th, I believe it
is. This will go to the Common Council
for a vote, scheduled for March 30th.
So this is like I said, a draft form up
until that point when the Council votes.
Like to recognize members of the
Common Council in the building tonight,
there is Councilor Khalid Bey in the
back, Kathleen Joy, Jean Kessner, Bob
Dougherty and Jake Barrett are all your
Councilors, and there are more but who
aren't here tonight. I encourage you to
reach out to your Councilors and discuss
your concerns and needs, as they will
ultimately be ruling on this budget by
the end of this month. And then it's
off to HUD. Then we start a new fiscal
year.
So unless there are any other
comments, we'll call this meeting a
wrap. And appreciate everyone coming
out to show your support for the agency.
Thanks, very much.
President

PRESIDENT ROBINSON: Good evening, ladies and gentlemen. Now is the time and place for a public hearing relative to Item 11 on the Council's agenda. The short title which reads: The US Department of Housing and Urban Development for the Five Year Plan, Budget, 2015 through 2019, and the Year 41, Consolidated Plan: Community Development Block Grant, CDBG, $4,603,746; HOME Investment Partnership Grant, $1,051,124; Housing Opportunities for Persons With Aids, $287,354; Emergency Solutions Grant, $425,827.

The following shall apply. Anyone who wishes to speak relative to this agenda item, I ask that you approach the mic in the middle of the aisle. You have three minutes to make a statement. If you have a written statement I ask that you kindly give it to the clerk so that it will be recorded. If you wish to speak, you must fill out one of these cards, little yellow cards, sitting out there.

In the lobby, the first speaker for the evening is, Dr. Susan Stearns, Southwest Community Center.

SUSAN STEARNS: Good evening to the members of the Council. I am Sue Stearns, I am the Chair of the Board of Directors at Syracuse Model. And my colleagues here join me this evening in thanking you so very much for your continued support. Every nickel, every dime is well used at Southwest. As you may know, we have some new initiatives that we are very proud of. And we have new board members that are very energetic in supporting us in this mission. So you'll be hearing more about us as the year unfolds, but we wanted to make sure that your funding makes this all possible, and we thank you, very much for that.

PRESIDENT ROBINSON: Thank you very much. Our next speaker is Sharon Owens.

SHARON OWENS: Good evening Council members. I'd like to echo the statements...
Owens

of my Board President and our Board of Directors and thank you for your continued support of the Southwest Community Center. As you all know we are a 26,000 square feet facility nestled in one of the two neighborhood revitalization areas designated by the City of Syracuse.

I also would like to, for the Council's consideration, in December 15th of last year, by invitation of the Honorable Pam Hunter, the 'cuse Care Initiative Approach of the Public Safety Committee to discuss all of the violence, gun and gang violence initiatives going on, met all, just about all of which are happening out of Southwest Community Center.

At that time we talked about the various initiatives and how we are working with individuals to make life-transformable decisions about not picking up guns and not affiliating themselves with gangs. During that meeting what we said was that in that situation we find ourselves with men and women do make decisions to make that life-transformational decision, they are hindered by some of the very basic things that you and I take for granted. They don't have a driver's license, they don't have their birth certificate, they don't have the basic things that you need, passes to get on a bus to go to an interview or class. And unfortunately the funding for those initiatives don't support those integral support issues. I would present to the Council to consider for your consideration $5,000 to provide the support in order to assist these young men and women as they're making these life changing decisions to turn their lives around so that we can assist them with those basic items that they do not have that they would need in order to move forward in their life. Thank you for your concern.

PRESIDENT ROBINSON: Thank you.

Irons

Next speaker is Dena Irons.

**DENA IRONS:** Good afternoon, Councilors, I'm representing Jubilee Homes Corporation. I am a first time homeowner. I have owned my home for 16 years. I was able to get in touch with Jubilee to start out this venture, them helping me helped me to purchase my home. Since I've been with them they have helped me through a lot of situations that young people just starting to own property are short of knowledge. These people have really worked with me through everything.

I know that funding is short for them and they're working through short funds. And some money to be presented to them in this term that you speak of will be mostly appreciated. Because I do have a lot of girlfriends that I work with for the County for like 25 years, and they always ask, you know, how did you get your home, how did you go about getting started? And I just feel that

Ervin

they're a very good corporation to help first homeowners. And I would like you to help them as much as possible. Thank you.

**PRESIDENT ROBINSON:** Thank you. Next speaker, Linda Ervin.

**LINDA ERVIN:** Good evening everyone.

And again, I want to thank you for the help you've given Jubilee Homes in the past, but I'm here tonight asking for more help. You probably all know this, but I'll give you the history of Jubilee. We've been around since 1984. 1984 the downtown clergy and InterReligious Council, started a project that was going to address problems of affordable housing in the southwest corridor of Syracuse. And since that time built and rehabbed about 100 homes, 97 to be exact. With those 97 homeowners we changed the whole neighborhood around from being absentee landlords and slumlords into neighborhoods with families and children.
and those kinds of activities that we love to see in the neighborhoods in the community. Therefore, this agency has been around since I said, yes, we have a problem with not having a great variety of resources, and we look for different resource streams this year; last year as well; the grant money, state-wide funds, federal funds. But we do rely on you to give us something to help us out. One of the things that we're looking for this year in particular to continue with the Southwest Economic Development Business Resource Center, because our working with the Development Center is really critical in this area. We've been able to help provide jobs with people with the Urban Delights Program, also train young people to find jobs elsewhere. That needs to continue to happen. That service is something that we provide and needs to happen for that neighborhood as well as other.

Ervin

also as the homeowner before me mentioned, we help our homeowners once we sell the house, we help them as well going forwards. And those kinds of services are provided with the funds that you help us with. So tonight I'm saying to you, and I know how you're sitting there and looking, in another capacity, but I'm saying to you this evening though this is an organization that has survived over the years, 30 some years, and all of it has been on the backs and sweat of a few folks, and volunteers. And this agency has, even with cuts, the cuts that were made last year, was able to survive and find other resources. This year we would like you to not cut as quickly as last year. Let us move forward and help this neighborhood. Thank you, very much.

PRESIDENT ROBINSON: Thank you. Melissa Carbonaro Gravins.

Gravins

MELISSA CARBONARO GRAVINS: Good evening, you came close. It's been slaughtered. My name is Melissa Carbonaro Gravins, I'm the program manager from Catholic Charities, responsible for the CDBG funding which provides the funding for our housing relocation services for the housing vulnerable. I want to, I'm here tonight primarily to thank you for the continued support of the Council of this program. In the last three years we have served, I believe over 500 households which amounts to several thousand people, men, women and children, who have been living in homes that have been declared unfit by the codes department. Many of these people have been living without heat, without water, and really deplorable conditions. Without this program these people would not have the ability to move into a safe, stable and affordable housing. I want to say thank you. I know that it's a lot of money.

Maxwell

we realize that. And we take a great deal of -- feel a great deal of responsibility for it and for the people that we serve. And I can't stress enough how valuable this program is for this community. And without it I really don't know what those thousands in the last three years would be doing. So I'm here tonight to say thank you and to look forward, I hope, to your continued support of this program. Thanks.

PRESIDENT ROBINSON: Thank you. Next speakers are Jessica Maxwell and Jessi Lyons.

JESSICA MAXWELL: We're from Cornell Cooperative Extension in Onondaga County, speaking on behalf of Jubilee Homes in the Southwest Community Farms. We've been working with that project since 2008, very closely with them. Specifically we've been helping them to develop that site that is the Southwest Community Farms through a location we
Lyons

use, and it is a SIDA work force
training development for Urban Delight
Youths. Currently able to help them to
grow vegetables being sold throughout
the community and as a means for work
force development for the kids. And
excess produce is also being shared with
the broader community and neighborhood.
So it's a really important program and
it's creating a lot of value to that
specific neighborhood in addition to the
youth. And we would like to thank you.

JESSI LYONS: If you're not familiar
with the project, it's really a unique
project within the City of Syracuse, the
only site like this. Serves as a hub
for the resource drive for all the other
community gardens in the City of
Syracuse that happens in the spring. We
host a lot of tutors, really been a
positive development in the southwest
neighborhood bringing people in there to
see the neighborhood in a different
light. And really adding, I think, to

Rice

person with multiple social problems,
such as drugs and homelessness, the
first thing to deal with this is their
housing situation. It's called Housing
First.

Syracuse Model Neighborhood Corp. is
in the Housing First business. We house
families with limited incomes in decent,
safe and affordable apartments.
Families that are not in a position to
buy a home at this point in their life,
but they still need a stable place to
raise their children and their families
while they're trying to achieve the
dream of owning their own home.

One of the goals I notice of the
current consolidated plan is to increase
the wealth of the households in the
target areas through home ownership.
Wealth is not created just by pulling it
out of the thin air, it's a process.
And it starts with a solid foundation of
decent and affordable places to live.
Syracuse Model neighborhood Corp.
McDonald
the agency actually live on the south
side. So once again, as we strive to
try to continue to provide quality
affordable housing, we appreciate your
support and look forward to its
continuing. Thank you.

PRESIDENT ROBINSON: If you have a
written report, kindly give it to the
clerk. Next speaker is Emma McDonald.

EMMA McDONALD: Good evening. It is
an honor for me to have been asked to
speak to you on behalf of Home
Headquarters. And I hope that all of
you know about Home Headquarters. I'm
here as a resident and a recipient of
Home Headquarters. I have been a
customer since 2000. And Home
Headquarters has been there to help me
to the upkeep of my home, from the
painting, from the windows, from the
plumbing, from the driveway. If it had
not been for Home Headquarters I want
you to know and for me to go on record,
I could have never done it.

McDonald
After 2004 my husband died, Home
Headquarters was still there for me when
I reached out to them. And as Billy
Fucillo says, it was a Huge thing that
they had to do; a roof, that was over
$18,000. I could never have done it.
But guess what, Home Headquarters was
there by my side. I'm here to let all
you know it's best to know about Home
Headquarters, and not to need them, than
to need them and not know them. So you
reach out to Home Headquarters.
I'm not here asking for money, the
big boss is going to do that, I'm here
as a plain lay person to tell you that
people need help. And that repayment
system of Home Headquarters was
astronomical. They never come out and
tell you, you got to get this. And here
I have pictures of the work that was
done in my house and I will pass it to
the Council. They always help with us,
professional helpers, they're not come-
by-night, okay? You're dealing with a

Griffith
professional business. Continue to
supply Home Headquarters with the money
that they need. Share these pictures
but give them back to me.

PRESIDENT ROBINSON: Next speaker is
Susan Griffith.

SUSAN GRIFFITH: Good evening. I'm
from Hiscock Legal Aid Society and I am
here as many are to thank you for your
support over the years. Part of the
stability of our city depends upon
protecting our tenants; and we represent
tenants. But we consistently meet and
exceed what we promise, and we work with
the various organizations to assist our
tenants who need legal assistance.
We are in the Syracuse City Court
Eviction Court several times a week
every week. We help those tenants who
are most likely to be victimized by
unscrupulous landlords, by tenants who
cannot afford financial aid to leverage
repairs that are needed on their homes,
to protect tenants who are being left at

Hanslip
the mercy of those who would evict them
unlawfully or without legal process. We
do this every day, every week, and we
will continue to do so.
Part of what needs to be done to
create a stable neighborhood is to
protect the housing stock to make sure
that there is a minimum of substandard
housing. When there is substandard
housing people are called to task for
it. And to make sure people do not go
homeless unnecessarily. We stand with
many of these organizations to try to
remedy those situations, and we will
continue to do so. And we thank the
Council very much for their support.

PRESIDENT ROBINSON: Thank you, very
much. Next speaker is Irvin Hanslip.

IRVIN HANSLIP: Good evening. My
name is Irvin Hanslip, I'm in the inner
southwest part of the city, South Avenue.
I've known Jubilee Homes, I'm
representing Jubilee Homes because I
know them for a long time. They have
Hanslip
been doing great, great work in the community to help adults and even the kids. Because as you know, the Council, that the young people today, they are not like the young people of yesterday. They need good solid attention. They need good homes to live into, so the parents can give a good eye on their children.

Jubilee Homes for the past years have been providing those of us in need of homes. Jubilee Homes provides us with that. And we are from Jubilee Homes. I really want to extend my thanks to the Council for supporting Jubilee Homes in the past and present. And I would like you all to continue supporting Jubilee Homes. Give them the tool to work with, so they can work with us, so we can work with our children and provide the community with good citizens. So thank you, and I would like, when I leave, maybe in the next month or two, I can hear that the

Quaglia
and Neighbor Works Assistance funding and also funding from private banks, we’re going to more than double that investment that you would be making in Home Headquarters.

The Sharp Program, that’s minor home repairs. The whole theory there is that you fix a little problem before it turns into a big problem. Probably don’t have a more popular program. When we opened this up, this has the parking lot fill up and we have about a hundred people at the door at Home Headquarters.

Providing down payment and closing costs assistance for first time home buyers who are purchasing their first home in the City, responsible home ownership. These folks have all been through our who home buyer training and counseling and they’re ready and willing and able to buy.

Then finally you’re supporting our Home Ownership Center, which largely does pre-purchase counseling and

Quaglia
Council continues to support Jubilee Homes. Thank you.

PRESIDENT ROBINSON: Thank you. Our next speaker is Kerry Quaglia.

KERRY QUAGLIA: I Pretty much agree with what Emma said, except I would have one correction. Emma is the big boss, not me. But you know, certainly thank the Council for the assistance that you’ve provided in the past.

You know, the first thing that you would be funding is the Urgent Care program. This is very basic, Emma was a recipient of this, provides funding for folks that can’t afford to have a roof replaced, where they get a red tag furnace in the winter or a backed up sewer or need electrical service. These are not luxury items, they very basis items.

And I’m pleased to say got us approved tentatively for about a million dollars in the budget. And through a state grant that we wrote and received

Curran
foreclosure intervention counseling.

And particularly with the emphasis on tax delinquency and tax foreclosures. That’s been a part of our business that’s really been booming unfortunately, because we’re counseling folks who need help with their delinquent taxes. And in about 20 cases we have actually refinanced folks to pay their delinquent taxes. So again, we certainly appreciate your support and hope you approve the levels that are in the proposed plan. Thank you.

PRESIDENT ROBINSON: Thank you. Sally Curran.

SALLY CURRAN: Hi, good evening. My name is Sally Curran, I’m the executive director of the Volunteer Lawyers Project. We’re a small pro bono legal services organization based right here in Syracuse, but we make a huge impact on the community. We provide legal help to those who don’t get legally help through Hiscock Legal Aid Society, and
Curran

other legal services providers. In 2014 we assisted over 2,800 clients and that benefitted over 6,000 people in the essentials of life, Including housing, family law, immigration and so on and so forth.

I'm here today to request from the Council for our Eviction Defense Programs. Every morning we have an attorney in the morning in the day program at Syracuse City Court. We'll have between two and eight volunteer attorneys present. And they will take on clients on the spot that do not have representation. In the last year alone we represented 925 clients, and that assisted over 2,500 individuals.

We assist over 75 percent of the people in avoiding or delaying evictions. It has a tremendous impact on our community in keeping families off the street. This program in the past has been funded in part by the SAS Education Program, but unfortunately}

Collins

new RSP for pro bono legal services in eviction defense. We don't want to have to cut back this program, it's helping too many people.

We would ask that you do allocate this money, and in particular we're asking that you consider supporting us at the same level as the County has for $25,000. Thank you, so much.

PRESIDENT ROBINSON: Thank you. Michael Collins.

MICHAEL COLLINS: Good evening, Councilors, thank you for the opportunity. Michael Collins, I'm the executive director of the Syracuse Northeast Community Center, one of the three community centers that the City sponsors. We're at 716 Hawley. And we share the campus with Dr. Weeks school, which is slightly bigger.

We last year through your support, were able to provide services for families in need, for children, for senior citizens, through our work and

Curran

that program is ending in June 2015 this year. I'm here today to ask the Council to consider allocating Block Grant money to the Volunteer Lawyers Project for this eviction program.

The Volunteer Lawyers Project did not apply for RSP in September for the Community Block Grant, which makes us in a very unique situation here. It means that we don't currently, we don't currently have the allocation. You wouldn't normally decide at this point to add money for a new organization, however, the Council does have a $50,000 discretionary fund that it may choose to allocate at this point. And we would ask that the Council choose to allocate a portion of that to the work, this incredibly critical work that the Volunteer Lawyers Project is doing, by simply letting the Department of Neighborhood and Business Development know that you would like a portion of that money allocated to development of a

Collins

then also through the community partners that share our space. Besides having ourselves in the building in the programming that we offer, Catholic Charities has many different programs in the building. We have a Community Police Center in the building, a library from Onondaga County public library in the building. And we partner with the school, and in the afternoons and evenings use their cafeteria and gym space to service it.

2014, we were able to, with the help of CDBG funding, provide 32,022 meals through our food pantry to people in the neighborhood. And we're an emergency pantry, so we have people that come in from anywhere. And we'll help them make sure they don't leave without food and we refer them to the pantry in their neighborhood. That one is 283 different families.

We have senior programming. We were able to offer free rides to north side
Collins

seniors, 1,752 times, to get to doctors
appointments, grocery store, those types
of things. We serve breakfast and hot
lunch on program days for the seniors.
We have a health care navigator, two of
them on staff, multi-lingual, who are
able to serve. Last year we had 666
people enrolled out there through our
programming, through either Medicaid or
private insurance. And we helped move
92 people out of homeless shelters
through our Homeless Prevention Program.
I can give you all those numbers,
but a real quick picture of what a day
is like, let me tell you what yesterday
was like. I walked in at 8 o'clock in
the morning. Catholic Charities pre-K,
there is about 15 kids in that classroom,
most of them refugee children, coming in
smiling ready to go to school.
I had volunteers from CBA doing
service hours working with our senior
citizens. So we had four CBA kids
working with 15 seniors that were

Collins

Right around this time yesterday, as
is happening right now, the kids that
participate in the after school
programming with our partner Syracuse
Parks and Rec. The 6 through 12 years
olds being picked up by the families.
And we'll have about 50 teens between
now and 6 o'clock walk through our doors
and use our teen room and the gym at the
school. The kids that are leaving, we
will have been able to feed them snacks,
which is huge, so they're not going home
hungry. And we're able to make sure
that they're safe.
Right around the same time is when
our team parenting class started, and so
we're able to work with young people
that are becoming parents, they're
expecting, and be able to provide them
some of the skills.
Now, that's a basic day we're able
to do in the Center. We're able to do
that with the support that you guys
provide to us through this grant. So we

Collins

participating in the program that day
that we had gone out in a van and
brought in to the program. And they
were planting, they planted over 280
seeds for the garden we're going to be
building in the property we have next to
the parking lot. That will be
programming we do at the Center and for
the neighbors and programming that is
happening in the school.
In the afternoon I was able to stop
by the library, get a book for my wife,
she's home sick, so that made me a good
husband, I was real happy to be able to
do that. But the fact that I can walk
out of my office and walk in, there is
pre-school kids with the county
librarian doing story time with them,
and neighborhood people that don't have
access to a computer at home using the
computers that are right there. The
same way our seniors and other community
members use the computers in the
community space.

Puchalski

really appreciate what you're able to
make possible to the north side. Thank
you.

Mr. Rich Puchalski.

RICH PUCHALSKI: You know, Van, I
came in before Kerry. Now, either Big C
shuffled those cards or you put me down
further down on the list. But give me
best to Linda, will you.
Rich Puchalski, Director of Syracuse
United Neighbors. My comments as I
always start out with, SUN has been
around since 1977, those get funding
from Community Development Block Grant
as most, if not all, of the three prior
speakers and the ones that will follow.
Of course I'm hoping that Stephanie is
going to give me a $250,000 check when I
walk out of this room.
Anyway, my comments are about the
Consolidated Plan. My first target is
President Barack Obama. He continuously
cuts this program. This is the man that
Puchalski
1 should be working with the mayors of the
2 City to rebuild these cities. We're
3 looking at $6.4 million. That doesn't
4 address the problems we have in this
5 City. The severe housing crisis, the
6 area that we have low income people
7 living in these neighborhoods, poverty,
8 the segregation that exists, it doesn't
9 address, it's a big plan with very
10 little money.
11 
12 What I want to also point out, it
13 doesn't address the impact the Land Bank
14 is going to have on this community. I
15 didn't see that much in here. Doesn't
16 address the possibility of employment,
17 jobs, that the Land Bank can generate.
18 
19 What about flood insurance? It's
20 killing folks in Skunk City. And here,
21 Sue, we're going to see a thousand
22 people, homes on the southwest side get
23 nailed by flood insurance; I mean nailed.
24 There is a person out there that
25 Empire built a house on Rowland Street a
26 few years ago. She's paying $1,600 in
27

Puchalski
2 flood insurance. For what? Soon the
3 people on the southwest will be
4 impacted, it will create inability to
5 repair their house, access to Home
6 Headquarters loan programs. They will
7 tell them, you can't get any loans from
8 us until you get flood insurance.
9 Already you got people out there going
10 for lead programs and told, you've got
11 to get flood insurance. Why, I don't
12 know. But we'll be looking into that
13 issue.
14 
15 Got 1,800 vacant houses. The money
16 doesn't address those issues. And Nader
17 is working in terms of trying to get
18 demolitions. Where is the money coming
19 from? It's not in this line item, in
20 this budget that's being proposed.
21 
22 Codes is a joke. 70 percent of the
23 cases are adjourned every month. Might
24 have a new Judge on board, but I don't
25 know where he was in the month of March.
26 One month, a calendar, only one day a
27 month. Only 27 cases, where it used to
LaFlair
1 community to see what some of the issues were. One of them was crime, obviously.
2 So we decided to work with the Syracuse Police Department and actually put a
3 substation within our offices at no expense to the police. We did all the
4 renovations ourselves, we put in a separate security system. So the police
5 have 24/7 access on their own and any police officer can use at any time at
6 our office. They requested some
7 security Internet and separate phone lines. Again, we did this for the
8 community at our own expense at about $2,000 a year.
9 So what we're looking for today is to ask the Common Council to potentially allocate some, if not all, of that
10 $4,000 from the discretionary fund to continue and provide this service to the community. Thank you.

PRESIDENT ROBINSON: Thank you. Our next speaker is Ron Boxx.

RON BOXX: Good evening. Thank you.

Boxx
1 for the opportunity to speak. My name is Ron Boxx, I'm representing Visions for Change this evening. I'm with the program in Housing Visions. Housing Visions had been a part of the Syracuse community for 25 years now, restoring neighborhoods; and also throughout Upstate New York and now trying to bridge into Pennsylvania.

About five years ago we decided that, you know, you can build affordable housing, and you can give people a nice place to stay that they can live in and enjoy their lives, but you're not necessarily mobilizing them for the better life. So we developed Visions for Change to be able to help people to be empowered economically.

Visions for Change is a workforce empowerment organization that defines professional expectations through education, professional partnerships and long term support. And so we're essentially saying workforce empowerment because our goal is to empower individuals to understand the system in which they live so that they can achieve things themselves. We're not a jobs program funneling people towards a specific skill-set but we're teaching them the system that they live in every day that they're built on.

We're defining the professional expectations. What are the expectations of the businesses, of the schools, of all of the assets of the society that we live in, and how do I promote myself to be able to get the results that I desire. That's through education, professional partnerships and long term support.

We provide a workshop called Choosing To Thrive. Within this workshop we give folks an opportunity to not worry about all of the different demands that we call the tyranny of the moment that are going on, but to be able to set aside space in their life to...
Boxx

dollars to get to my goals and my

But we also educate on the other
side of things. We educate the
professional community. So we have a
training called Beyond Our Differences
that we can offer to companies, to be
able to understand how to better relate
to their entry level employees,
understanding some of the mentalities
and how to provide strength based coping
so that you don't have a turnstile with
integral positions, but where folks are
able to engage and progress within a
company.

We offer a training for the entire
community that's a poverty simulation at
the Genesee Grande in January. We had
125 to 150 members that came out and
participate as a specific family member
within a real life situation. And they
have to maneuver a month through the
welfare system, all the different
processes that folks are living through

Boxx

of folks start jobs over and over again
and never really feel like they're
getting anywhere, because they're not
retaining those jobs. So we have job
coaches that we pair up with individuals
over a 12 month period to be able to
check in with them twice a month. We
also check in with the employer once a
month, so that we have clear dialogue.
And that we can be proactive of the
different barriers that people are
facing, instead of getting to the ninety
day point and say, hey, we're not a good
fit, and on to the next.

We also have different resources in
place where we partner with the
community. Things like car buying
programs, short term loan programs. Say
your car breaks down and you can't get
to work, what are you supposed to do?

So Visions for Change is a vital
part of this community. We've applied
for CDBG funding for two years now. And
so we just want to create an awareness

Sekowski

what we're doing so that we can be
considered. Thank you.

PRESIDENT ROBINSON: If you have a
written report, give it to the
stenographer (court reporter). Our next
speaker is Bob Sekowski.

BOB SEKOWSKI: Good evening. I'm
Bob Sekowski, with Empire Housing and
Development Corporation. Empire is a
not-for-profit developer of affordable
housing. We both rehab housing for home
ownership, we build houses in the City
for poor home ownership, and more
recently we've gotten into some multi-
family development in partnership with
the City.

One of the main programs that we
have each year is a Purchase Rehab
Program, where we help approximately 30
families become homeowners each year,
make improvements to those homes. Last
year we completed 30. We just secured
another grant from the state for an
additional $875,000 that will help us to
Sekowski
build 30 more homes in the coming year.
We're already started on those.
And then in the past year as well we
rehabbed a couple homes that we took
title to and sold those. And so we also
have been working on a project, Moses
Dewitt Apartments over on North Townsend
Street. With that project we're going
to preserve 37 units of housing for low
income households.
I'm here today because we're seeking
restoration of funds. We're slated for
about a 13 percent cut, which seems
pretty severe. Last year it was just
over 90,000, this year I think we're
slated for $79,000. And so close to
$12,000 that we've not received, which
is a big hit for an organization like
ours. We're small, kind of a lean
organization, and I think we do a lot
with the funding that we get. Along
with the production we purchase through
the Rehab Program alone we've completed
over 350 projects in the City. And

Robinson
now, getting into the multi-family
housing is a good example of that.
So you know, I know everybody is
here kind of asking for the same thing,
I won't belabor it. But we're really
seeking restoration of the funds that
have been scheduled to be cut. Greatly
appreciate your consideration of that.
Thanks.

PRESIDENT ROBINSON: Thank you. I
want to remind you if you wish to make a
statement you can fill out a card
located just outside the door of the
chamber and we'll allow you to speak.
Next speaker is Dominic Robinson.

DOMINIC ROBINSON: Evening,
Councilors, thank you for hearing me
here tonight. I'm here as a first time
CDBG applicant. We have been
recommended for funding from the City
for two programs that we're currently in
the process of launching or expanding I
should say. One is the Work Training
Initiative and the other is called

Sekowski
we've also brought into the City
approximately $20 million in capital
money for projects that occur in the
City of Syracuse. And that's not money
that we can use for, you know,
administrative support, that's money
that goes in the project. We brought
that in through our efforts.
And the money that we get through
the CDBG, through the block grant is the
kind of support that allows us to do
that. If you take that away, we lose
the ability to go out and do that kind
of work. So that's why this is so
critical to us.
You know, we're always reminded that
these aren't grants that we get, these
aren't just handouts that we get to do
what we do with it. These are contracts
for services; fees for services. And I
think that Empire, over the years, has
not only, you know, met our expectations,
the expectations of the contract but
exceeded it. I think what we're doing

Robinson
Upstart Syracuse. Both are housed in
the Center State CEO Foundation. I am an
employee of Center State CEO, last seven
years, been a director of the
organization, called North Side Up, it's
a North Side Business Partnership.
On the north side for better part of
a decade we've been working to kind of
holistically improve the quality of
life, working with various developers,
housing agencies and other organizations,
including the businesses on the north
side and St. Joseph's Hospital to invest
in the community and improve the built
environment. But we all know that
better housing, better commercial
spaces, better green space, better
infrastructure, are all only a part of
the equation, we have to foster
prosperity on the human level. We have
to create opportunities to people who
don't have access to opportunities.
That's not just a critical strategy,
it's a neighborhood help strategy for
<table>
<thead>
<tr>
<th>Robinson</th>
<th>49</th>
</tr>
</thead>
<tbody>
<tr>
<td>regional help, it's a strategy for City help. And so over the last several years we've had a number of our pilot programs in these arenas, in the workforce and business development arenas really start to catch on. We have piloted workforce programs, targeted north side and now we've started to branch out in other neighborhoods. But residents, we're now the last few years, we've seen over 250 residents come through our programs in workforce training, focussing on industries with career pathways and seen about an 85 percent job placement rate coming out of those industries. The Work Train Initiative is really meant to be a community-wide expansion of that model. The model is predicated on identifying where there is high levels of job demand in our community, working with employers to understand what their job needs are, and then working with dozens of community based organizations, education and training providers and others, to align our resources, leverage our assets and ultimately funnel people into those opportunities and foster career pathways for people so that they can be upwardly mobile and prosperous in their neighborhoods. We are working with many of the organizations in this room here tonight. Our role is to facilitate. A lot of the money that we raised, a lot of the budget we have doesn't go to us directly, it actually empowers organizations to work with their clients to better take advantages of opportunities that we're keying up. That certainly is the case with relative to the Work Train Initiative. In terms of Upstart Syracuse, one of the things we've seen time and time again is neighborhood residents with great business ideas, great entrepreneurial kind of needed intelligence. All the raw materials to be a great business owner. As we all know, it's become a lot harder to become a business owner in the neighborhoods today than it has traditionally been. Like the days of neighborhood business owners owning a storefront and running a business out of the first floor and living above, is much more of an exception than the rule, as it was, you know, few generations ago. And yet we believe that the dynamics that once fostered that type of neighborhood prosperity are still present. We still have ingenious hard working innovative entrepreneurial people coming to the door every day. And so the Upstart Program is about aligning the different tools and resources in our community and to make them available to the entrepreneurs. In the pilot phase we have helped start 13 businesses, including 11 minority owned businesses, all of them.</td>

Sherman

cards and I had another card.
Okay, Sharon Sherman, Greater
Syracuse Tenants Network. I'm here
today to talk about the Plan. I hope
members of the Council got a chance to
read the Plan. I'm sure Nader read it
because he reads everything. But I've
spent an hour and-a-half reading the
Plan, and I have to commend the City for
I think this is the most data driven
Plan I have ever seen. Unfortunately it
paints a true picture of the sad state
of our housing market and our rental
housing market in Syracuse. We're in a
crisis.
One particular thing that is
disturbing to me is that there is a lack
of a strategy to support and increase
the number of private landlords for
affordable housing. Owning rental
housing creates wealth, growth and
employment. And there is nothing in
here of tying any programs to supporting
the small entrepreneur landlord. The

Sherman

Greater Syracuse Tenants Network, our
Landlord Training and Home Headquarters
step into lending to landlords for the
Land Bank are a start. But I certainly
expected to see the City come up with
some creative things to support small
landlords. If we do not do something to
encourage more people to get in the
market we will never solve this problem.

In addition, I think that documents
should be more clear. They talk about
the fair market rent. However, public
assistance, due to the state policies,
does not give their recipients
sufficient income to meet what is the
fair market rent in Syracuse, or
anyplace else in New York State. This
is a legislative issue of great import.
The problem is that landlords cannot
afford to rent to a single adult that
only receives $300 a month. 330 for all
their expenses and 300 for their rental.
We need to find ways to give incentives
or somehow some financial support to the

Sherman

small landlord. So that they can
provide maybe an efficiency for 400, but
the tenant only has 300 to spend.
We have lost a thousand units of
affordable housing because of the
closure of Townsend/Harrison, Kennedy
and Cherry Hill. They're gone. These
were affordable housing funded under
federal programs. The State of New York
made a decision to sell Harrison/
Townsend for Upstate Medical. We are
now suffering the consequences of again
state policy. But this document could
provide, let's think out of the box and
do something to deal with the vast
majority of residents in this City who
are tenants.
I put some more specific comments in
writing. In some places the Plan, I
hope it's amended, doesn't clearly
capture what's going on in the
affordable housing market. We are
looking for Clinton Plaza and Valley
Vista to convert under a program called

Sherman

RAD, Rental Assistance Demonstration
project. That means that all their
units will become Section 8. They all
will be affordable. It's been taking
forever with the developers, but that
will be one positive development. It's
just an issue that we have to do more.

Again, the document doesn't say
anything. It outlines the horrible
problems we're facing, but there are no
strategies in here that I can see. Most
of the money, I'm funded under ESG, goes
to preventing homelessness, helping
people who are already in bad
situations. I agree with Rich, we need
to do more with codes. But part of that
is not code enforcement, it is our legal
counsel here, and the lack of aggressive
enforcement in the court system.

I remember the days when Rory
McMahon put landlords in jail. We need
to be forceful with the local landlords.
And unfortunately, we're really in a
bind because so many of the worst
Eiland
landlords don't even live here; so they
can't be put in jail. That's the end of
my comments, thank you very much for
your time.

PRESIDENT ROBINSON: Thank you. Is
there anyone else who wishes to speak?

WALTER EILAND: Good afternoon, my
name is Walter Eiland. Forgive me, a
little out of wind, late getting here,
so busy. Last week I addressed an open
hearing to Mr. Driscoll and company.
And when I left here I really felt a
little -- I had a lot of mixed feelings.
Because I'm on the Board of Syracuse
Model Neighborhood. And I came down to
ask for continued support. And some of
the statistics, some of the numbers that
I was given to read out, I was shocked
by some, and some I was aware of.
A few years back I bought some
property off Syracuse Model. And I
thought that was a blessing. I should
say, I know that was a blessing, that I
had the opportunity to be able to do

Eiland
total loads, so they contract things
out, instead of us being able to create
and support the organizations that's
already here, so that they can get some
of these properties into some taxing pay
people's hands and have a more diverse
community.
I venture to say that, if I didn't
already live on the south side, I
probably wouldn't look for property to
buy, purchase my home on the south side
with all the flack that goes on in that
community. And I don't see enough
rebuilding going on. And so for a
doctor or a lawyer or anyone else to
want to purchase a place -- when I grew
up we had doctors, dentist, lawyers,
living right next to us. Our kids had
an opportunity to see the potential of
what they could be.
Now the potential of what they see,
as we all know in here, is a lot of
chaos. I won't call out all the
different things, but we all know our

Eiland
that. And it would be my wish that many
more people have that same opportunity.
But as I sit on the Board, because of
the lack of support and funding that we
have, I know that we are a preservation
organization and not necessarily a
rebuilding Syracuse organization.
And for me that bothers me a lot.
Because I could see, and I'm learning,
there is a lot of learning stages that
I'm going through, and that's why I got
on the Board. I'm learning that coming
down here and actually begging and
pleading for support to preserve our
community is really not doing a whole
lot for us. Because if we can preserve
our community, our community in the
condition that it's in right now, when
we have to get a Land Bank to come in to
start making some type of decision as
far as how we get some of those
properties back on the tax rolls and
issues everywhere. And the Land Bank
itself is not capable of handling the

Eiland
kids are on a pipeline. We can't
support our schools. Why? Because we
have so many properties that are
abandoned, vacant, being torn down.
We're not able to get enough money into
the City so that the state and federal
government, our Governor is mocking us
about how much money that he'll put out
here already, but yet we're still not
stable, our infrastructure is falling
apart.
So for us to come out here as tax-
paying citizens to constantly beg and
plead for some support it is very heart
breaking. You know, I'm learning.
Again, tenants, that's what I'm talking
about. All of these years I've been
paying taxes, I get five minutes to come
down and express myself about what it is
I'm having issues with. That's a
problem. I don't know of no other thing
that I can get this type of an audience
and be able to express my concerns.
That's a problem.
When we elect our officials, we expect them to represent us, but how can you represent us if you don't hear us. You don't even hear us. I don't know, you know, when I was down here last week, all the organizations that was in here asking for money, there was no way I could stand up here and say, no, we need it more than them, no, we need it more than them. Because we all are in need. Every last one of the programs needs the money they need to continue to do what they're doing. But how are they supposed to come out of that? How are they supposed to be sustainable if we are always asking for the crumbs that's falling off the government table. It is ridiculous.

So to end my last minute, I would like to see continued support, but not just continued support, I would like to see that those funds get increased to agencies that are doing what they need to be doing to build our community instead of just preserving our community in the condition that it's in. Thank you.

PRESIDENT ROBINSON: Thank you. That concludes our hearing for this evening. I want to thank each and every one of you who participated. And please drive, walk, run, swim safely home.

[Conclusion of Public Hearing].

Prescribed by OMB Circular A-102  
Authorized for Local Reproduction
INSTRUCTIONS FOR THE SF-424

Public reporting burden for this collection of information is estimated to average 45 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0043), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

This is a standard form used by applicants as a required face sheet for pre-applications and applications submitted for Federal assistance. It will be used by Federal agencies to obtain applicant certification that States which have established a review and comment procedure in response to Executive Order 12372 and have selected the program to be included in their process, have been given an opportunity to review the applicant’s submission.

   e. Date Signed: 4/14/15

Standard Form 424 (Rev.9-2003)
Prescribed by OMB Circular A-102
**INSTRUCTIONS FOR THE SF-424**

Public reporting burden for this collection of information is estimated to average 45 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0043), Washington, DC 20503.

**PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.**

This is a standard form used by applicants as a required face sheet for pre-applications and applications submitted for Federal assistance. It will be used by Federal agencies to obtain applicant certification that States which have established a review and comment procedure in response to Executive Order 12372 and have selected the program to be included in their process, have been given an opportunity to review the applicant’s submission.

<table>
<thead>
<tr>
<th>Item:</th>
<th>Entry:</th>
<th>Item:</th>
<th>Entry:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Select Type of Submission.</td>
<td>11.</td>
<td>Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For preapplications, use a separate sheet to provide a summary description of this project.</td>
</tr>
<tr>
<td>2.</td>
<td>Date application submitted to Federal agency (or State if applicable) and applicant’s control number (if applicable).</td>

CERTIFICATIONS

In accordance with the applicable statutes and the regulations governing the consolidated plan regulations, the jurisdiction certifies that:

**Affirmatively Further Fair Housing** -- The jurisdiction will affirmatively further fair housing, which means it will conduct an analysis of impediments to fair housing choice within the jurisdiction, take appropriate actions to overcome the effects of any impediments identified through that analysis, and maintain records reflecting that analysis and actions in this regard.

**Anti-displacement and Relocation Plan** -- It will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and implementing regulations at 49 CFR 24; and it has in effect and is following a residential antidisplacement and relocation assistance plan required under section 104(d) of the Housing and Community Development Act of 1974, as amended, in connection with any activity assisted with funding under the CDBG or HOME programs.

**Anti-Lobbying** -- To the best of the jurisdiction's knowledge and belief:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions; and

3. It will require that the language of paragraph 1 and 2 of this anti-lobbying certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

**Authority of Jurisdiction** -- The consolidated plan is authorized under State and local law (as applicable) and the jurisdiction possesses the legal authority to carry out the programs for which it is seeking funding, in accordance with applicable HUD regulations.

**Consistency with plan** -- The housing activities to be undertaken with CDBG, HOME, ESG, and HOPWA funds are consistent with the strategic plan.

**Section 3** -- It will comply with section 3 of the Housing and Urban Development Act of 1968, and implementing regulations at 24 CFR Part 135.

Signature/Authorized Official  Date  4.27.15
Specific CDBG Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated housing and community development plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that provide decent housing, expand economic opportunities primarily for persons of low and moderate income. (See CFR 24 570.2 and CFR 24 part 570)

Following a Plan -- It is following a current consolidated plan (or Comprehensive Housing Affordability Strategy) that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. **Maximum Feasible Priority.** With respect to activities expected to be assisted with CDBG funds, it certifies that it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low and moderate income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include activities which the grantee certifies are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available;

2. **Overall Benefit.** The aggregate use of CDBG funds including section 108 guaranteed loans during program year(s) , (a period specified by the grantee consisting of one, two, or three specific consecutive program years), shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period;

3. **Special Assessments.** It will not attempt to recover any capital costs of public improvements assisted with CDBG funds including Section 108 loan guaranteed funds by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

The jurisdiction will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108, unless CDBG funds are used to pay the proportion of fee or assessment attributable to the capital costs of public improvements financed from other revenue sources. In this case, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds. Also, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

**Excessive Force --** It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its
jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and

2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction;

**Compliance With Anti-discrimination laws** -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 USC 2000d), the Fair Housing Act (42 USC 3601-3619), and implementing regulations.

**Lead-Based Paint** -- Its activities concerning lead-based paint will comply with the requirements of 24 CFR Part 35, subparts A, B, J, K and R;

**Compliance with Laws** -- It will comply with applicable laws.

OPTIONAL CERTIFICATION
CDBG

Submit the following certification only when one or more of the activities in the action plan are designed to meet other community development needs having a particular urgency as specified in 24 CFR 570.208(c):

The grantee hereby certifies that the Annual Plan includes one or more specifically identified CDBG-assisted activities which are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community and other financial resources are not available to meet such needs.

Specific HOME Certifications

The HOME participating jurisdiction certifies that:

**Tenant Based Rental Assistance** – If the participating jurisdiction intends to provide tenant-based rental assistance:

The use of HOME funds for tenant-based rental assistance is an essential element of the participating jurisdiction's consolidated plan for expanding the supply, affordability, and availability of decent, safe, sanitary, and affordable housing.

**Eligible Activities and Costs** – it is using and will use HOME funds for eligible activities and costs, as described in 24 CFR § 92.205 through 92.209 and that it is not using and will not use HOME funds for prohibited activities, as described in § 92.214.

**Appropriate Financial Assistance** – before committing any funds to a project, it will evaluate the project in accordance with the guidelines that it adopts for this purpose and will not invest any more HOME funds in combination with other Federal assistance than is necessary to provide affordable housing.

ESG Certifications

The Emergency Solutions Grants Program Recipient certifies that:

**Major rehabilitation/conversion** – If an emergency shelter’s rehabilitation costs exceed 75 percent of the value of the building before rehabilitation, the jurisdiction will maintain the building as a shelter for homeless individuals and families for a minimum of 10 years after the date the building is first occupied by a homeless individual or family after the completed rehabilitation. If the cost to convert a building into an emergency shelter exceeds 75 percent of the value of the building after conversion, the jurisdiction will maintain the building as a shelter for homeless individuals and families for a minimum of 10 years after the date the building is first occupied by a homeless individual or family after the completed conversion. In all other cases where ESG funds are used for renovation, the jurisdiction will maintain the building as a shelter for homeless individuals and families for a minimum of 3 years after the date the building is first occupied by a homeless individual or family after the completed renovation.

**Essential Services and Operating Costs** – In the case of assistance involving shelter operations or essential services related to street outreach or emergency shelter, the jurisdiction will provide services or shelter to homeless individuals and families for the period during which the ESG assistance is provided, without regard to a particular site or structure, so long the jurisdiction serves the same type of persons (e.g., families with children, unaccompanied youth, disabled individuals, or victims of domestic violence) or persons in the same geographic area.

**Renovation** – Any renovation carried out with ESG assistance shall be sufficient to ensure that the building involved is safe and sanitary.

**Supportive Services** – The jurisdiction will assist homeless individuals in obtaining permanent housing, appropriate supportive services (including medical and mental health treatment, victim services, counseling, supervision, and other services essential for achieving independent living), and other Federal State, local, and private assistance available for such individuals.

**Matching Funds** – The jurisdiction will obtain matching amounts required under 24 CFR 576.201.

**Confidentiality** – The jurisdiction has established and is implementing procedures to ensure the confidentiality of records pertaining to any individual provided family violence prevention or treatment services under any project assisted under the ESG program, including protection against the release of the address or location of any family violence shelter project, except with the written authorization of the person responsible for the operation of that shelter.

**Homeless Persons Involvement** – To the maximum extent practicable, the jurisdiction will involve, through employment, volunteer services, or otherwise, homeless individuals and families in constructing, renovating, maintaining, and operating facilities assisted under the ESG program, in providing services assisted under the ESG program, and in providing services for occupants of facilities assisted under the program.

**Consolidated Plan** – All activities the jurisdiction undertakes with assistance under ESG are consistent with the jurisdiction’s consolidated plan.

**Discharge Policy** – The jurisdiction will establish and implement, to the maximum extent practicable and where appropriate policies and protocols for the discharge of persons from
publicly funded institutions or systems of care (such as health care facilities, mental health facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent this discharge from immediately resulting in homelessness for these persons.

Title
HOPWA Certifications

The HOPWA grantee certifies that:

Activities -- Activities funded under the program will meet urgent needs that are not being met by available public and private sources.

Building -- Any building or structure assisted under that program shall be operated for the purpose specified in the plan:

1. For at least 10 years in the case of assistance involving new construction, substantial rehabilitation, or acquisition of a facility,

2. For at least 3 years in the case of assistance involving non-substantial rehabilitation or repair of a building or structure.
